Disposal of your old appliance

1. When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/CE.
2. All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.
3. The correct disposal of your old appliance will help prevent potential negative consequences for the environment and human health.
4. For more detailed information about disposal of your old appliance, please contact your city office, waste disposal service or the shop where you purchased the product.

Introduction

Congratulations on your purchase of the advanced and compact KU580 3G video mobile phone, designed to operate with the latest digital mobile communication technology.

This user's guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user's guide could void your warranty for this equipment.

Use of phone cases with magnetic locks with slide type phones has caused problems such as loss of network signal and phones powering off.

Part 15.21 statement

" Change or Modifications that are not expressly approved by the manufacturer could void the user's authority to operate the equipment. "

Part 15.105 statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. if this equipment does cause harmful interference or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

LIMITED WARRANTY STATEMENT

1. WHAT THIS WARRANTY COVERS:

LG offers you a limited warranty that the enclosed subscriber unit and its enclosed accessories will be free from defects in material and workmanship, according to the following terms and conditions:

- (1) The limited warranty for the product extends for ONE (1) year beginning on the date of purchase of the product.
- (2) The limited warranty extends on to the original purchaser of the product and is not assignable or transferable to any subsequent purchaser/end user.
- (3) This warranty is good only to the original purchaser of the product during the warranty period as long as it is in the U.S., including Alaska, Hawaii, U.S. Territories and Canada.
- (4) The external housing and cosmetic parts shall not be covered under these limited warranty terms.
- (5) Upon request from LG, the consumer must provide information to reasonably prove the date of purchase.
- (6) The customer shall bear the cost of shipping the product to the Customer Service Department of LG. LG shall bear the cost of shipping the product back to the consumer after the completion of service under this limited warranty.

2. WHAT THIS WARRANTY DOES NOT COVER:

- (1) Defects or damages resulting from use of the product in other than its normal and customary manner.
- (2) Defects or damages from abnormal use, abnormal conditions, improper storage, exposure to moisture or dampness, unauthorized modifications, unauthorized connections, unauthorized repair, misuse, neglect, abuse, accident, alteration, improper installation, or other acts which are not the fault of LG, including damage caused by shipping blown fuses spills of food or liquid.
- (3) Breakage or damage to antennas unless caused directly by defects in material or workmanship.
- (4) That the Customer Service Department at LG was not notified by consumer of the alleged defect or malfunction of the product during the applicable limited warranty period.
- (5) Products which have had the serial number removed or made illegible.
- (6) The limited warranty is in lieu of all other warranties, express or implied either in fact or by operations law, statutory or otherwise, including, but limited to any implied warranty of marketability or fitness for a particular use.
- (7) Damage resulting from use of non-LG approved accessories.
- (8) All plastic surfaces and all other externally exposed parts that are scratched or damaged due to normal customer use.
- (9) Products operated outside published maximum ratings.
3
- (10) Products used or obtained in a rental program.
- (11) Consumables (such as fuses).

3. STATE LAW RIGHTS:

No other express warranty is applicable to this product. THE DURATION OF ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY, IS LIMITED TO THE DURATION OF THE EXPRESS WARRANTY HEREIN. LG INFOCOMM INC. SHALL NOT BE LIABLE FOR THE LOSS OF THE USE OF THE PRODUCT, INCONVENIENCE, LOSS OR ANY OTHER DAMAGES, DIRECT OR CONSEQUENTIAL, ARISING OUT OF THE USE OF, OR INABILITY TO USE, THIS PRODUCT OR FOR ANY BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTY OF MARKETABILITY APPLICABLE TO THIS PRODUCT. Some states do not allow the exclusion of incidental or consequential damages or limitations on how long an implied warranty lasts; so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

4. HOW TO GET WARRANTY SERVICE:

To obtain warranty service, please call the following web address:

www.lgeservice.com

For Your Safety

Important Information

This user guide contains important information on the use and operation of this phone. Please read all the information carefully for optimal performance and to prevent any damage to or misuse of the phone. Any changes or modifications not expressly approved in this user guide could void your warranty for this equipment.

Before You Start

Safety Instructions

WARNING! To reduce the possibility of electric shock, do not expose your phone to high humidity areas, such as the bathroom, swimming pool, etc.

Always store your phone away from heat. Never store your phone in settings that may expose it to temperatures less than 32°F or greater than 104°F, such as outside during extreme weather conditions or in your car on a hot day. Exposure to excessive cold or heat will result in malfunction, damage and/or catastrophic failure.

Be careful when using your phone near other electronic devices. RF emissions from your mobile phone may affect nearby in adequately shielded electronic equipment. You should consult with manufacturers of any personal medical devices such as pacemakers and hearing aides to determine if they are susceptible to interference from your mobile phone.

Turn off your phone in a medical facility or at a gas station. Never place your phone in a microwave oven as this will cause the battery to explode.

IMPORTANT! Please read the TIA SAFETY INFORMATION on page 78 before using your phone.

Safety Information

Read these simple guidelines. Breaking the rules may be dangerous or illegal. Further detailed information is given in this user guide.

- ▶ Never use an unapproved battery since this could damage the phone and/or battery and could cause the battery to explode.
- ▶ Never place your phone in a microwave oven as it will cause the battery to explode.
- ▶ Do not dispose of your battery by fire or with hazardous or flammable materials.
- ▶ Make sure that no sharp-edged items come into contact with the battery. There is a risk of this causing a fire.
- ▶ Store the battery in a place out of reach of children.
- ▶ Be careful that children do not swallow any parts such as rubber plugs (earphone, connection parts of the phone, etc.). This could cause asphyxiation or suffocation.

- ▶ Unplug the power cord and charger during lightning storms to avoid electric shock or fire.
- ▶ When riding in a car, do not leave your phone or set up the hands-free kit near to the air bag. If wireless equipment is improperly installed and the air bag is activated, you may be seriously injured.
- ▶ Do not use a hand-held phone while driving.
- ▶ Do not use the phone in areas where its use is prohibited. (For example: aircraft).
- ▶ Do not expose the battery charger or adapter to direct sunlight or use it in places with high humidity, such as a bathroom.
- ▶ Never store your phone in temperatures less than -4°F or greater than 122°F.
- ▶ Do not use harsh chemicals (such as alcohol, benzene, thinners, etc.) or detergents to clean your phone. There is a risk of this causing a fire.
- ▶ Do not drop, strike, or shake your phone severely. Such actions may harm the internal circuit boards of the phone.
- ▶ Do not use your phone in high explosive areas as the phone may generate sparks.
- ▶ Do not damage the power cord by bending, twisting, pulling, or heating. Do not use the plug if it is loose as it may cause a fire or electric shock.
- ▶ Do not place any heavy items on the power cord. Do not allow the power cord to be crimped as it may cause fire or electric shock.
- ▶ Do not handle the phone with wet hands while it is being charged. It may cause an electric shock or seriously damage your phone.
- ▶ Do not disassemble the phone.
- ▶ Do not place or answer calls while charging the phone as it may short-circuit the phone and/or cause electric shock or fire.
- ▶ Only use the batteries, antennas, and chargers provided by LG. The warranty will not be applied to products provided by other suppliers.
- ▶ Only authorized personnel should service the phone and its accessories. Faulty installation or service may result in accidents and consequently invalidate the warranty.
- ▶ Do not hold or let the antenna come in contact with your body during a call.
- ▶ An emergency call can be made only within a service area. For an emergency call, make sure that you are within a service area and that the phone is turned on.

FCC RF Exposure Information

WARNING! Read this information before operating the phone. In August 1996, the Federal Communications (FCC) of the United States, with its action in Report and Order FCC 96-326, adopted an updated safety standard for human exposure to radio frequency (RF) electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies.

The design of this phone complies with the FCC guidelines and these international standards.

CAUTION

Use only the supplied and approved antenna. Use of unauthorized antennas or modifications could impair call quality, damage the phone, void your warranty and/or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with skin, a minor burn may result. Contact your local dealer for a replacement antenna.

Body-worn Operation

This device was tested for typical body-worn operations with the back of the phone kept 0.79 inches (2cm) between the user's body and the back of the phone. To comply with FCC RF exposure requirements, a minimum separation distance of 0.79 inches (2cm) must be maintained between the user's body and the back of the phone. Third-party belt-clips, holsters, and similar accessories containing metallic components should not be used. Body-worn accessories that cannot maintain 0.79 inches (2cm) separation distance between the user's body and the back of the phone, and have not been tested for typical body-worn operations may not comply with FCC RF exposure limits and should be avoided.

Vehicle Mounted External Antenna (optional, if available)

A minimum separation distance of 8 inches (20cm) must be maintained between the user/bystander and the vehicle mounted external antenna to satisfy FCC RF exposure requirements. For more information about RF exposure, visit the FCC website at www.fcc.gov

FCC Part 15 Class B Compliance

This device and its accessories comply with part 15 of FCC rules. Operation is subject to the following two conditions: (1) This device and its accessories may not cause harmful interference, and (2) this device and its accessories must accept any interference received, including interference that may cause undesired operation.

Cautions for Battery

- ▶ Do not disassemble.
- ▶ Do not short-circuit.
- ▶ Do not expose to high temperature: 60°C (140°F).]
- ▶ Do not incinerate.

Battery Disposal

- ▶ Please dispose of your battery properly or bring to your local wireless carrier for recycling.
- ▶ Do not dispose in fire or with hazardous or flammable materials.

Adapter (Charger) Cautions

- ▶ Using the wrong battery charger could damage your phone and void your warranty.
- ▶ The adapter or battery charger is intended for indoor use only.

Do not expose the adapter or battery charger to direct sunlight or use it in places with high humidity, such as the bathroom.

KU580 Features

How to Use Touch Keys

- ▶ This product's keys on the slide are touch keys.
- ▶ Be sure to read “Cautions for Touch Keys” before using touch keys.

Cautions for Touch Keys

1. Make sure your hands are clean and dry.
 - Remove all moisture from the surface of your hands or the touch keys in a humid environment.

Touch key shortcut image

Note: You can enable this feature in the display settings menu [Menu #.2.1.1].

Touch keypad

2. You do not need to press hard on the touch keys to make them work normally.

Do not subject the product to severe impact, as this may damage the touch key sensors.

3. Use the **tip** of your finger to press exactly on the touch key you want, being careful not to touch the keys for other functions.
4. When both the home screen and touch key lights are off, pressing a touch key will not turn on the home screen light. Press  and the home screen light will turn back on (touch keys do not work when the touch key lights are off).
5. If the slide is closed and the **Touch Protection function** is on, during calls the **Touch key Lock** function is automatically enabled. (For details, see “Touch Key Status When Using Mobile Phone.”)

How to Use Touch Keys

6. Touch keys may not work normally if a mobile phone case or plastic cover is covering them. Also, touch keys may not work normally if you are wearing gloves.
7. Keep metal and other conductive materials away from the surface of the touch keys, as contact with them may result in an error.

Touch Key Status When Using Mobile Phone

When the slide is closed, to prevent indiscreet action of the touch keys whilst using the phone or during calls, the **Touch Protection** function is automatically enabled. (In this case, the touch keys will not work even if they are pressed)

1. When slide is closed

- When the slide is closed, the Touch Protection function is automatically enabled. (Opening the slide will automatically disable it.)
- To disable Touch Protection when the slide is closed, press the volume key twice.

- After disabling Touch Protection, if there is no key action for a certain duration (3 seconds), the Touch Protection function is enabled again.

2. During calls

- During calls, regardless of slide status, the Touch Protection function is automatically enabled.
- To disable the Touch Protection, press any key except .
- After disabling the Touch key Lock, if there is no key action for a certain duration (3 seconds), the Touch Protection function is enabled again.

Note

- ▶ For user convenience, the touch key image with the functions of each touch key is shown on the home screen when purchasing products.

Installing the USIM card and battery

1. Installing the USIM card.

Your USIM card contains your phone number, service details and contacts and must be inserted into your handset. If your USIM card is removed then your handset becomes unusable (except for emergency calls) until a valid one is inserted. Always disconnect the charger and other accessories from your handset before inserting and removing your USIM card. Slide the USIM card into the USIM card holder. Make sure that the USIM card is properly inserted and the gold contact area on the card is facing downwards. To remove the USIM card, press down lightly and pull it in the reverse direction.

To insert the USIM card

To remove the USIM card

Note

- ▶ The metal contact of the USIM card can easily be damaged by scratches. Pay special attention to the USIM card while handling. Follow the instructions supplied with the USIM card.

2. Installing the battery.

Slide the battery upwards until it snaps back into place.

Getting Started

To remove the battery.

Turn the power off. (If the power is left on, there is a chance you could lose the stored telephone numbers and messages.)

Press and hold down the battery release button and slide the battery down.

Charging the Battery

Before connecting the travel adapter to the phone you must first install the battery.

1. With the arrow facing you as shown in the diagram push the plug on the battery

adapter into the socket on the left side of the phone until it clicks into place.

2. Connect the other end of the travel adapter to the mains socket.

Note

- ▶ Only use the charger included in the box.

3. The moving bars on the battery icon will stop after charging is complete.
4. Ensure the battery is fully charged before using the phone for the first time.

CAUTION!

- Do not force the connector as this may damage the phone and/or the travel adapter.
- If you use the battery pack charger when abroad, use an attachment plug adaptor for the proper configuration.
- Do not remove your battery or the USIM card while charging.

WARNING!

- *Unplug the power cord and charger during lightning storms to avoid electric shock or fire.*
- *Make sure that no sharp-edged items such as animal teeth or nails, come into contact with the battery.
This may cause a fire.*

Disconnecting the charger

Disconnect the travel adapter from the phone as shown in the diagram below.

How to use a microSD memory card

<MicroSD memory card>

<How to insert a microSD memory card>

1. Turn the phone off. Inserting or removing the microSD when the phone is on may damage the files stored in the memory card.
2. Lift the plastic cover which protects the microSD slot.

Getting Started

3. Insert the memory card into the slot. The gold contacts must be kept on the back of the microSD. Don't push the microSD too much. If it doesn't go into the slot easily, you may be trying to insert it in the wrong way or there could be a foreign object in the slot.
4. Once inserted, push the memory card until you hear a **Click**, meaning that the microSD has been correctly engaged.
5. Close the plastic slot protection.
6. To remove the memory card, turn the phone off, open the slot protection and push the microSD to unlock it. Carefully extract the memory card.

Attention:

- ▶ Avoid using the Flash Memory Card when the battery is low.
- ▶ When writing to the card, wait for the operation to complete before removing the card.
- ▶ The card is designed to fit easily into the system one way only.
- ▶ Do not bend the card or force it into the slot.
- ▶ Do not insert any memory cards other than those made by microSD.
- ▶ If the microSD has been formatted using FAT32, format the microSD using FAT16 again.

For more information on the microSD, please refer to the memory card instruction manual.

Memory card formatting

Before you start to use the memory card you have to format it. After you insert the memory card, select **Menu** → **Settings** → **Phone settings** → **Memory status** → **Format external memory**, then press .

This operation should only be done when you insert the memory card for the first time. During formatting various folders will be created for different data types.

Turning the handset on/off

Turning your handset on

Ensure that your USIM card is in your handset and the battery is charged. Press and hold **0** until the power comes on. Enter the USIM PIN code that was supplied with your USIM card if the **PIN code request** is set to **On**. (Note: Please refer to page 79) After a few seconds you will be registered on the network.

Turning your handset off

Press and hold **0** until the power goes off. There may be a few seconds delay while the handset powers down. Do not turn the handset on again during this time.

Access codes

You can use the access codes described in this section to avoid unauthorised use of your phone. The access codes (except the PUK and PUK2 codes) can be changed by using the **Change codes** feature [Menu #.1.4.3].

PIN code (4 to 8 digits)

The PIN (Personal Identification Number) code protects your USIM card against unauthorised use. The PIN code is usually supplied with the USIM card. When the **PIN code request** is set to **On**, your phone will request the PIN code every time it is switched on. When the **PIN code request** is set to **Off**, your phone connects to the network directly without the PIN code.

PIN2 code (4 to 8 digits)

The PIN2 code, supplied with some USIM cards, is required to access functions such as **Fixed dial number**. These functions are only available if supported by your USIM card.

Getting Started

PUK code (4 to 8 digits)

The PUK (PIN Unblocking Key) code is required to unblock a blocked PIN code. The PUK code may be supplied with the USIM card. If not, contact your network operator's customer service department for the code. If you lose the code, contact your network operator's customer service department.

PUK2 code (4 to 8 digits)

The PUK2 code, supplied with some USIM cards, is required to unblock a blocked PIN2 code. If you lose the code, contact your network operator's customer service department.

Security code (4 to 8 digits)

The security code prevents unauthorised use of your phone. The default security code is set to '0000' and the security code is required to delete all phone entries and to restore the handset to the factory settings.

Display information

No USIM idle screen

This is the initial screen of the phone that appears when there is no USIM card installed in the phone, or the installed USIM card is invalid. In this screen, users can only make emergency calls, and turn the phone off. To turn the phone off, press and hold down  for a few seconds.

Screen structure

If there is no USIM card installed, an animation telling you to insert a USIM card appears. If the USIM card inserted into the phone is invalid, an animation telling you that the USIM card is locked appears.

Emergency call function

The right soft key is represented by "Emergency" on the screen. Press the right soft key or dial your emergency number using the number keys, and then press  to make an emergency call.

Idle screen

The idle screen appears when you have installed a proper USIM card and turned the phone on.

Screen structure

Idle screen consists of the operator's name, indicators, date and time on a background image. You can change the wallpaper in the **Display settings** menu.

Numbering screen

The numbering screen appears when a number key is pressed in the idle screen.

Screen structure

The numbering screen consists of status indicators, dialled number and soft menu. Status indicators are the same as those of the idle screen. You can change the size and colour of the dialling font in the **Display settings** menu. You can make a call while dialling a phone number by pressing .

Soft key

You can use the soft keys for several functions while dialling a number. Using the left soft key, you can make a video call, send a message to the number, save the number to Contacts, search contacts.

Handset lock screen

When the **Handset lock** function is selected, you can only make an emergency call, release the lock, and turn off the phone in this screen. As always, you can turn the phone off by pressing and holding  for a few seconds.

Screen structure

The screen structure of the Handset lock screen is the same as that of the idle screen, except that the lock message appears on the idle screen.

Emergency call function

You can make an emergency call using the right soft key. As with the **No USIM idle screen**, only emergency numbers can be dialled.

Getting Started

Unlock function

If you press **Ⓜ** key except right soft key and number key, a popup screen appears asking you to input the Security code to unlock the phone. The Security code is configured in the **Change codes** (#. Settings → 1. Phone settings → 5. Security → 3. Change codes). If you key in an incorrect Security Code, the phone will remain in **Handset lock** status. If you key in the correct Security code, the phone will be unlocked, and the idle screen will be displayed. If you have turned the phone off in the **Handset lock** status, you will find the phone remains in **Handset lock** status when you turn it on.

Barring password

This service obstructs calling service in some conditions. This condition can be edited using the **Call barring** feature (#. Settings > 5. Call settings > 2. Call barring). The barring password is required when you use the call barring function. The password is obtained from your network operator's customer service when you subscribe to this service. While this service is activated, the caller will

hear the information message that the call is not connected because of the call barring.

General Functions

Making and answering calls

Making a voice call

1. Enter the number including the full area code.
 - ▶ To delete a digit press .
 - To delete all digits press and hold .
2. Press  to make the call.
3. Press  to finish the call, or close the handset.

Note

- ▶ To activate the speakerphone during a call, activate the touch keys and press .

Making a call from the call logs

1. In standby mode, press  and the latest incoming, outgoing and missed phone numbers will be displayed.
2. Select the desired number by using  / .
3. Press  to call the number.

Making a video call

You can make a video call in a 3G covered service area. If the called user has a 3G video phone in a 3G covered service area, the call will be established. You can also answer a video call for video incoming call. To make/answer a video call, do the following.

1. Input the phone number using the keypad, or select the phone number from the calls made/received lists.
 - ▶ To correct mistakes, press  briefly to delete the last number, or press and hold  to delete all numbers.
2. If you do not want to use the speakerphone, ensure you have the headset plugged in.
3. To start the video function, press the left soft key [Options] and select **Make video call**.
 - ▶ You will be notified that you will need to close other applications to make the video call.

General Functions

Note

- ▶ The video call may take some time to connect. Please be patient. The connection time will also depend on how quickly the other party answers the call. While the video call is connecting, you will see your own image; after the other party has answered, their image will be displayed on the screen.

4. Adjust the camera position if necessary.
5. Press  to finish the call, or close the handset.

Making a voice/video call from Contacts

It is easy to call anyone whose number you have stored in your Contacts.

1. Press  to access the contacts list.
2. Scroll to the contact to make a call.
3. Press  to make a voice call. Press the left soft key and select **Make video call** to make a video call.
4. Press  to finish the call.

Making international calls

1. Press and hold  for the international prefix. The '+' character prefixes the international access code.
2. Enter the country code, area code, and the phone number.
3. Press .

Adjusting the volume

During a call, if you want to adjust the earpiece volume, use  on the left side of the phone. In idle mode, you can adjust the key volume using .

Answering a call

When you receive a call, the phone rings and the flashing phone icon appears on the screen. If the caller can be identified, the caller's phone number (or name if stored in your Contacts) is displayed.

1. Open the slider to answer an incoming call.

Note

- ▶ To reject an incoming call, press  or the right soft key twice.
 - ▶ If you set **Answer mode** as **Press send key** (Menu #.5.0.4), you can answer the call by pressing  after opening the slider.
 - ▶ If the answer mode is set to Press any key, any key will answer a call except for .
2. End the call by closing the handset or pressing .

Note

- ▶ You can answer a call while using the Contacts or other menu features.
- ▶ When the compatible headset is connected, you can also answer a call using the headset key, as well as using the phone. To reject an incoming call, press .
- ▶ You can mute the ringtone when a call comes in by pressing and holding the volume down side key.

Shortcut to activate vibrate mode

You can activate the vibrate only mode by pressing and holding down  after opening the phone.

Signal strength

You can check the strength of your signal by the signal indicator () on the LCD screen of your phone. Signal strength can vary, particularly inside buildings. Moving close to a window may improve reception.

Entering text

You can enter alphanumeric characters using the keypad.

For example, storing names in Contacts, writing a message, creating a personal greeting or scheduling events in the calendar all require entering text.

The following text input methods are available with the handset.

General Functions

T9 mode

This mode lets you enter words with only one keystroke per letter. Each key on the keypad has more than one letter. The T9 mode automatically compares your keystrokes with an internal dictionary to determine the correct word, thus requiring far fewer keystrokes than the traditional ABC mode. This is sometimes known as predictive text. If you press # key, you can activate or cancel T9 mode.

ABC mode

This mode lets you enter letters by pressing the key labelled with the required letter once, twice, three or four times until the letter is displayed.

123 mode (Number mode)

Type numbers using one keystroke per number.

Changing the text input mode

1. When you are in a field that allows characters to be entered, you will notice the text input mode indicator in the upper right corner of the LCD screen.
2. If T9 is on, you can change the mode to T9Abc, T9ABC, 123, T9ab by pressing . When T9 is off, the mode will be changed to Abc, ABC, 123, abc.

Using the T9 Mode

The T9 predictive text input mode allows you to enter words easily with a minimum number of key presses. As you press each key, the handset begins to display the characters that it thinks you are typing based on a built-in dictionary. As new letters are added, the word changes to reflect the most likely candidate from the dictionary.

1. When you are in the T9 predictive text input mode, start entering a word by pressing  to . Press one key per letter.

- ▶ The word changes as letters are typed. Ignore what's on the screen until the word is typed completely.
- ▶ If the word is still incorrect after typing completely, press  once or more to scroll through the other word options.

Example

Press     to type **Good**.

Press  to get **Home**.

- ▶ If the desired word is missing from the word choices list, add it by using the ABC mode.
2. Enter the whole word before editing or deleting any keystrokes.
 3. Complete each word with a space by pressing  .
- To delete letters, press  . Press and hold down  to erase entire words.

Using the ABC Mode

Use  to  to enter your text.

1. Press the key labelled with the required letter:
 - ▶ Once for the first letter.
 - ▶ Twice for the second letter.
 - ▶ And so on.
2. To insert a space, press  once. To delete letters, press  . Press and hold down  to clear the display.

Refer to the following table for more information on the characters available using the alphanumeric keys.

General Functions

Key	Characters in the order display	
	Lower case	Upper case
	.,?!' " ' 1 - () @ / : _	.,?!' " ' 1 - () @ / : _
	a b c 2 â á ä å ä å æ ç	A B C 2 Ä Å Ä Å Ä Æ Ç
	d e f 3 è é ê ë	D E F 3 È É Ê Ë
	g h i 4 ì í î ï	G H I 4 Ì Í Î Ï
	j k l 5 £	J K L 5 £
	m n o 6 ñ ò ó ô õ ö ø œ	M N O 6 Ñ Ò Ó Ô Õ Ö Ø Æ
	p q r s 7 ß \$	P Q R S 7 ß \$
	t u v 8 ù ú û ü	T U V 8 Ù Ú Û Ü
	w x y z 9	W X Y Z 9
	Space, 0	Space, 0

Note

- ▶ The characters assigned to the keys and their order of appearance depends on the language selected using the option **Input method**. The table above provides the characters set for English language.

Using the 123 (Number) mode

The 123 mode enables you to enter numbers in a message (a telephone number, for example). Press the keys corresponding to the required digits before manually switching back to the appropriate text entry mode.

Using the symbol mode

The symbol mode enables you to enter various symbols or special characters. To enter a symbol, select **Options** → **Insert** → **Symbol**. Use the navigation and numeric keys to select the desired symbol and press .

Overview of Menu Functions

You can launch a menu by pressing **☰** in the idle screen. Move to the desired item and press **☑** to go into the sub menu.

From the main menu you can also go into a submenu by directly pressing the corresponding numeric key as follows. The main menu consists of the following top menus and sub menus.

Entertainment [Menu 1]

Games & Applications

Menu 1.1

You can easily download games and other applications in this menu. It has two folders, **Games** and **Applications**, as default. Each folder has an embedded link for downloading games or applications. Please note that additional costs may be incurred when using online services. You can create a folder using the left soft key [Options].

Mobile TV

Menu 1.2

You can access Mobile TV by selecting this menu.

Vodafone live! [Menu 2]

Homepage

Menu 2.1

You can launch the web browser and access the homepage of the web service provided by Vodafone.

- ▶ You can also directly access Vodafone live! by pressing the right soft key in idle mode.

Enter URL

Menu 2.2

Enter address

(Menu 2.2.1)

You can manually enter a URL address and access the associated web page.

- ▶ To enter a symbol, press  or press the left soft key [Options] and select **1.Insert symbol** from **Options** menu to display the symbol table
- ▶ To switch input mode, press .

Bookmarks

Menu 2.3

You can store frequently accessed or favourite URLs/Pages. **Open, Send, Add new, Edit, Mark/Unmark** or **Delete**

operations can be performed on **Bookmarks**. Several preconfigured URLs are stored as bookmarks.

Adding a new bookmark

1. Press the left soft key [Options] and select **2.Add new** from **Options** menu.
2. Enter the title and associated URL information.
3. Press  to save.

Connecting to a desired bookmark

Press  to connect a desired bookmark.

Sending the bookmark to others

Select **Send** from **Options** menu. You can send it via **Message** or **Email**.

Deleting a bookmark

Select **Delete** from **Options** menu. You can delete multiple bookmarks using the **Mark/Unmark** option.

Editing a bookmark

Select **Delete** from **Options** menu. Edit the title and associated URL information. Press  to save.

Saved pages Menu 2.4

The phone can save the page on display as an offline file. Up to 20 pages can be saved.

History Menu 2.5

You can view the list of the pages you've already connected.

Browser settings Menu 2.6

You can change the settings for browser connectivity, display, security, and certificates.

Profiles (Menu 2.6.1)

Select the appropriate profile by pressing . This will activate the profile to initiate the browser launch.

Character encoding (Menu 2.6.2)

Sets the browser default character set to one of the following:

Automatic, English(ASCII), English(ISO), English(LATIN), Unicode(UCS2 BE),

Unicode(UCS2 LE), Unicode(UCS2 Auto), Unicode(UTF-16 BE), Unicode(UTF-16 LE), Unicode(UTF-16 Auto), Unicode(UTF-8).

Scrolling control (Menu 2.6.3)

Allows you to set the scroll speed by selecting the number of lines to scroll. Select one from 1 line, 2 lines, 3 lines.

Show image (Menu 2.6.4)

Allows you to enable or disable the image display during browsing.

Note

Enabling this function will delay displaying images until the completion of transmission. Disabling this function will prevent the browser from downloading images from the server, thus allowing faster transmission.

Cache

(Menu 2.6.6)

Enabling Cache allows you to store accessed pages to your phone. Once a page has been stored in the Cache it will greatly enhance the page loading speed on subsequent browsing of the same page.

Cookie

(Menu 2.6.7)

Enabling Cookie allows you to store cookies sent from the server. Disabling this function will prevent cookies from being stored on your phone.

JavaScript

(Menu 2.6.8)

Select whether to turn JavaScript **On** or **Off**.

Reset setting

(Menu 2.6.9)

Select this to reset your phone to its default browser configuration.

Security

(Menu 2.6.2)

Certificates

If stored, a list of root/ca certificates required for WTLS/TLS can be found here.

Certificates can be viewed from the list.

Session clear

Secure (WTLS/TLS) session data can be cleared using this option. Session data should be cleared to establish a new secure session.

Ringtones

Music [Menu 3]

Now playing Menu 3.1

This menu will be activated when there are some tracks currently played.

Recently played Menu 3.2

This menu allows to show the 20 lists of music which is played recently.

My music Menu 3.3

All tracks (Menu 3.3.1)

You can view the entire music files in the phone/external memory.

Playlists (Menu 3.3.2)

You can create your own playlists by choosing tracks from the All tracks menu list.

Artists (Menu 3.3.3)

You can view and play musics which are sorted by Artists.

Albums (Menu 3.3.4)

You can view and play musics which are sorted by Albums.

Genres (Menu 3.3.5)

You can view and play musics which are sorted by Genres.

Shuffle tracks (Menu 3.3.6)

If you want to play the music continuously and randomly, select this menu.

Radio DJ Menu 3.4

This menu enables you to listen to either pre-set radio stations or personalised channels with play lists.

To use the Radio DJ menu, the following requirements must be met:

- ▶ The radio station and the network service must support this service.

My channels (Menu 3.4.1)

The customer creates a new personal channel by selecting specific criteria. Whilst listening to a channel a customer can rate tracks and turn a pre-defined channel into a personal channel.

RDJ channels (Menu 3.4.2)

RDJ channels are created based on detailed criteria by content experts in the Back Office and are NOT limited to a number of tracks.

RDJ Compilations (Menu 3.4.3)

RDJ Compilations are arranged by the Content Team in the back office but are compiled out of a FIXED number of tracks.

My Account (Menu 3.4.4)

You can check the account for each channel.

FM radio Menu 3.5

Title	Descriptions
Frequency	FM frequency and channel number which is now playing
Radio station	Radio station information
Volume	Controlling the volume
Channel	Setting the channel

If you press options, you can view the menus as follow:

- ▶ **Edit channel:** You can edit the selected channel.
- ▶ **Auto scan:** You can search the channel by scanning automatically.
- ▶ **Reset channels:** You can reset the channels.
- ▶ **Listen via:** You can listen the FM radio via speaker or headset.

Music

My wishlist

Menu 3.6

When listening to Radio DJ, the user is able to add a track to their wishlist to mark it for later purchase and download.

Music store

Menu 3.7

Connects to the Vodafone music download site.

Note

Additional charges may be incurred when downloading music.
Contact your service provider for further information.

Song recognition

Menu 3.8

Selecting this menu starts dialling a number for song recognition. For further information, please contact your service provider.

Camera [Menu 4]

Camera

(One video clip per slide)
3. **Sound:** You can insert a sound file.
(One sound per slide)
4. **Symbols:** You can insert symbols.
After entering the corresponding number keys, press .
5. **Template:** You can insert a text template saved on the phone. After selecting one, press . The selected

template is inserted into the Message window.

6. **Emoticon:** You can insert a emoticon on writing a message,
 7. **Name & number:** After searching the name and the number in phonebook, you can insert the entry.
 8. **New slide:** Select this to add a new slide.
 9. **Subject:** Select this to insert a subject.
- ▶ **Save to drafts:** Select this to save the message to drafts.
- ▶ **Input method:** Select the desired dictionary mode.
- ▶ **Writing languages:** You can select the language for writing a message.
- ▶ **Add to dictionary:** You can add a word to the dictionary.
2. Press the right soft key [Back] to exit the menu or go to previous menu after setting submenus.

Messaging

3. Press the confirmation key [Send] to send the message. The message will automatically be saved in the Sent Items folder. If the message has not been sent, it will remain in the Outbox with a failed status.

Email

(Menu 5.1.2)

To send/receive an email, you should set up the email account. (Refer to page 54-56 for how to set up an Email account.)

1. Enter the email addresses of the recipients in the To, Cc, Bcc fields. You can search the Contacts by pressing .

Note

- Enter the reference email address to forward the email in Cc(Carbon copy) field.
- Enter a hidden reference email address to forward the email without forwarding information in Bcc(Blind Carbon Copy) field.

- Only valid email addresses are allowed for the recipient (To), reference address (Cc) and hidden reference address (BCC) fields. When an email address has been specified, another field where you can specify another address appears. You can specify up to 20 recipients for the To and Cc address fields and 10 recipients for the BCC address field.

2. Move the cursor to the Subject field and key in the subject.

3. You can enter the message contents by moving the cursor to the Message field.

4. Use the following functions by using the left soft key [Options].

- ▶ **Insert:** Select this menu to insert special characters, templates, and contacts. It is also possible to attach multimedia files (pictures, videos and sounds).
- ▶ **Search contacts:** Select this menu to insert email addresses saved in Contacts. (Only shown in Option menu when cursor is located in To/Cc/Bcc fields.)

- ▶ **Recently used:** You can use the latest email address you saved temporarily.
 - ▶ **Save to drafts:** Select this menu to save the message in Drafts.
 - ▶ **View attachment:** Shows the attached files. (This item is only available when some files have been attached.)
 - ▶ **Remove:** Deletes the attachment file.
 - ▶ **Input method:** Select the desired dictionary mode.
 - ▶ **Add to dictionary:** You can add a new word to the dictionary.
 - ▶ **Writing language:** You can change the writing language.
 - ▶ **Set mail priority:** You can configure the priority of the email you wish to send.
5. When you have finished writing an email, press  to send the email.

Postcard

(Menu 5.1.3)

(**Note:** This service is not available in all countries. Please contact your service provider for further information.)

1. Enter the Postcard menu.
2. Press the left soft key [Insert picture]. You can insert a stored image or newly taken picture. If you press the right soft key, you can go back to previous menu.
3. After an image is inserted, the format will be changed to Postcard format by pressing the confirmation key.
4. Fill out the fields: Name, Additional info, Address, Post code, City, State, Country.
5. Press the confirmation [Send] to send the created postcard.

Voice messages

(Menu 5.1.4)

You can send voice message after recording it.

1. Enter the voice message menu.
2. Press the confirmation key to record your voice message.

Messaging

3. Press the confirmation key to stop the recording. For sending the message directly, press the confirmation key once again.
4. If you want to preview the message or save it to drafts, press the left soft key [Options].

Inbox

Menu 5.2

1. You can view saved messages. Select a message and then press  to view the message.
2. You can view the previous or next message by using  / .
3. To view a multimedia message (Notification), select **Retrieve** in the message notification view screen. Then the file is transmitted, and you can view the file when the transmission is complete.

You can use the following functions by using the left soft key [Options] in the Inbox.

- ▶ **Reply:** Creates a reply to the sender or all recipients of the selected message.

- ▶ **Forward:** Forwards the selected message.

Note

Not supported for multimedia message (Notification) and WAP push messages.

- ▶ **Make video call:** You can make a video call.
- ▶ **Delete:** Deletes the current message.
- ▶ **Create new message:** You can write a new message or an Email.
- ▶ **Copy:** In case of SMS, you can copy the message into handset or USIM.

- ▶ **Delete:** Deletes the email.
- ▶ **Create new message:** Creates a new message or Email.
- ▶ **Mark/Unmark:** Use mark/unmark option for multiple deletion.
- ▶ **Set as read/unread:** You can set the selected email to read or unread.
- ▶ **Sort by:** You can sort email according to the conditions.
- ▶ **Message info.:** Brief information on the message including size, type, date, time and filenames.

Viewing an email message

1. Select one of the received emails and press the View key to receive the contents of the email.
2. The contents of the received email are automatically displayed in the View screen.

3. You can view the contents of the previous or next email by using (⏪ / ⏩).

4. In the email View screen, you can select the following functions by using the left soft key [Options].

- ▶ **Reply to:** Creates a reply to the selected email.
- ▶ **Forward:** Forwards the selected email message to others.
- ▶ **Delete:** Deletes the email.
- ▶ **Save address:** Saves the sender's address to Contacts.
- ▶ **Create new message:** Creates a new message.
- ▶ **Extract:** Extracts the number, email address or Web address from email message.
- ▶ **View attachment:** Shows the attached file.
- ▶ **View recipients:** Shows the email addresses of the recipients and reference (Cc).

Messaging

- ▶ **Message info.:** Brief information on the message including size, type, date, time and filenames.

Templates

Menu 5.7

Text templates

(Menu 5.7.1)

You can add, edit, and delete frequently used useful phrases using the left soft key [Options].

Note

Depending on your service provider, useful phrases are saved as a default.

Multimedia templates

(Menu 5.7.2)

You can create, edit and view available templates when creating multimedia messages. Five types of template (Birthday, Greeting, Holiday, Thanks, Sorry) are saved by default.

The following options are available.

- ▶ **Add new:** You can create a new multimedia template.

- ▶ **Write multimedia message:** Creates a multimedia message with the selected template.

- ▶ **Edit:** Edits the selected template.

- ▶ **Delete:** Deletes the selected template. (Not available for default five templates)

- ▶ **Delete all:** Deletes all templates. This menu is not available for default templates.

Emoticons

Menu 5.8

You can add, edit and delete emoticons. You can insert the emoticon which you preferred on writing a message. If you press confirmation key, you can view the icon.

live! Studio

Menu 5.9

(Note: This service is not available in all countries. Please contact your service provider for further information.)

Accesses the remote media album.

Messaging settings

Menu 5.0

Text message (Menu 5.0.1)

You can configure text message related options.

1. **Text message centre:** Input the address of the Text message centre.
2. **Delivery report:** By enabling this option, you can verify whether your message has been sent successfully.
3. **Validity period:** This network service allows you to set how long your text messages will be stored at the message centre.
4. **Message types: Text, Voice, Fax, X.400, Email**

Usually, the type of message is set to **Text**. You can convert your text into alternative formats. Contact your service provider for the availability of this function.

5. **Character encoding: Auto/ Default alphabet/ Unicode.**
 - ▶ **Auto(default):** Message with single byte character is normally encoded in Default alphabet(GSM7). Message with

double-byte character is automatically encoded in unicode(UCS2).

- ▶ **Default alphabet:** Message with even double byte character is encoded in single byte. Please note that double byte characters with accent may be converted into single byte character without accent.
 - ▶ **Unicode:** Message is encoded in double byte. Please note that you may be charged double.

- ▶ **Set repeat:** Once, Daily, Weekly, Monthly, Annually, User setting

- ▶ **Set alarm:** No alarm, On time, 15 mins before, 30 mins before, 1 hour before, 1 day before, 3 days before, 1 week before

Delete schedule

1. Delete elapsed schedules

You can delete all elapsed schedules using this function.

2. Delete all

You can delete all saved schedule contents using this function.

Set up and release holiday

You can set up or release user holidays. Press the left soft key [Options] and select **Set holiday**. The selected date will be displayed in red.

To release the holiday, press the left soft key [Options] and select **Clear holiday**.

Schedule notification

If the user has configured the alarm setting, the specified alarm sound will ring. If the notification time is before the schedule start time, you can set up the alarm again.

Tasks

Menu 7.4

You can view, edit and add tasks to do. Tasks are displayed in time order. Tasks that have been completed or not completed are displayed in different ways.

Add

To add a task, press the right soft key [Options] in the Tasks list management screen and select the add new event option. Then input the date, description and priority for the task.

When you have finished entering the data, press the center key [Save] to save the new task.

Detailed view and Edit

To view detailed task contents, locate the cursor on the desired item in the Tasks list, and then press **⏏**. You can edit and delete a task using the left soft key [Options]. You can also delete multiple or all tasks at once using the **Mark/Unmark** option.

Set job status

Tasks set as finished are displayed as crossed out below the unfinished tasks in the Tasks list. You can set Finished tasks to Not finished by selecting **Option**.

Memo

Menu 7.5

Using the memo management function, you can view and manage saved memo contents, and add new memo.

Add memo

To add a new memo, press the left soft key [Add] or [Options]. Enter the contents of the memo. You can save the memo to the list by pressing the center key [Save].

Edit and delete memo

Highlight the desired memo and press  to view its contents. You can edit or delete the contents of a memo using the left soft key [Options]. You can return to the memo management screen by pressing right soft key [Back]. You can select Multiple or All memos using the Mark/Unmark option and then delete a memo using the Delete option.

Voice recorder

Menu 7.6

1. Press the left soft key [Option] to display the option pop up menu before recording.
2. Move to the desired menu item using  /  and press .
 - ▶ **Duration:** You can set the recording duration to MMS msg. size, 30 secs, or 1 min.
 - ▶ **Quality:** You can select a recording quality from **Super Fine**, **Fine** and **Normal**.
 - ▶ **Go to my sounds:** Opens the Voice recordings folder in My Files.
3. Pressing  starts recording. When a recording is started, the recording time appears on the LCD. To cancel the recording, press the Back.

Organiser & Tools

4. When you finish the recording, press  to exit. The recorded file is automatically saved in the Voice recordings folder in My files.
5. When no recording is in progress, pressing  starts recording on a new file.
Select one from Message, Email, or Bluetooth using  /  and press .
6. Press the left soft key to select the various options after the voice recording.
7. Select the desired menu using  /  and press .
 - ▶ **Play:** You can play the voice.
 - ▶ **Send:** To send the recorded file. Select one from Message, Email and Bluetooth using  /  and press .
 - ▶ **File:** You can change the name of file and view the information.
 - ▶ **Delete:** Select this menu to delete a recorded file.
 - ▶ **Use as:** You can set the recorded file as the **Voice Ringtone**, **Video Ringtone**.

▶ **Go to my sounds:** Opens the Voice recordings folder in My Files.

8. Press the right soft key to close the sub-menu popup window.

Calculator

Menu 7.8

The calculator module allows you to perform basic arithmetic functions such as addition, subtraction, multiplication, and division as well as some scientific functions. (sin, cos, tan, log, ln, exp, sqrt, deg, rad)

1. Press the left soft key [Options].
2. Select the appropriate function.

You can enter numbers by using the number keys, and the operators by using  / ,  / . You can enter a decimal point by pressing . Whenever you press , characters are sequentially deleted in reverse order. Whenever you hold  down, all the characters are deleted in reverse order in one go.

When calculation is complete and the result is displayed on the screen, pressing a number clears the previous result and the calculator waits for new input, even if you did not press the right soft key [AC]. When calculation is complete and the result is displayed on the screen, pressing a symbol saves the result into the symbol, and continues calculation.

Converter

Menu 7.9

Using this menu, users can convert Currency, Surface, Length, Weight, Temperature, Volume and Velocity.

Currency

(Menu 79.1)

1. Select the Currency menu.
2. Users can set a currency exchange rate using option menu "Change currency".
3. Enter currency rates for up to 6 currencies equivalent to GBP and then press [Save]. Then you can convert from one currency to another.
4. You can view the value of up to 6 currency units.

5. Press [Reset] to clear the current input Field.
6. To exit the currency conversion function, press the [Back] key.

Surface

(Menu 79.2)

1. Select Surface menu.
2. Select the desired unit to convert using [List].
3. Enter the standard unit and view the converted value.
4. Press [Reset] to clear the current input Field, and locate the cursor in the input field.
5. To exit the Surface conversion function, press [Back] key.

Length

(Menu 79.3)

1. Select the length menu.
2. Select the desired unit to convert using [List].
3. Enter the standard unit and view your converted value.

Organiser & Tools

4. Press [Reset] to clear the current input field and locate the cursor in the input field.
5. To exit the length conversion function, press the [Back] key.

Weight

(Menu 79.4)

1. Select the Weight menu.
2. Select the desired unit to convert using [List].
3. Enter the standard unit and view the converted value.
4. Press [Reset] to clear the current input Field, and locate the cursor in the input field.
5. To exit the Weight conversion function, press the [Back] key.

Temperature

(Menu 79.5)

1. Select the Temperature menu.
2. Position the cursor on the desired unit by using the up or down arrow keys.

3. Enter the standard unit and view the converted value.
4. Press [Reset] to clear the current input field and locate the cursor in the input field.
5. To exit the Temperature conversion function, press the [Back] key.
6. You can insert negative values by selecting [-].

Volume

(Menu 79.6)

1. Select the Volume menu.
2. Select the desired unit to convert using [List].
3. Enter the standard unit and view the converted value.
4. Press [Reset] to clear the current input field and locate the cursor in the input field.
5. To exit the volume conversion function, press the [Back] key.

Velocity

(Menu 79.7)

1. Select the Velocity menu.
 2. Select the desired unit to convert using [List].
 3. Enter the standard unit and view the converted value.
 4. Press [Reset] to clear the current input field and locate the cursor in the input field.
 5. To exit the Velocity conversion function, press the [Back] key.
3. You can apply to Daylight Saving time using the left soft key Options → Daylight saving.
 4. You can Select the Analog clock mode Options → Analog clock.

World time

Menu 7.0

The World clock function provides time information on major cities worldwide.

1. You can select a desired city as a base using the left soft key Options → Add city or Options → Add city → Map.
2. You can Change the city using the left soft key Options → Change city or Change current city.

Contacts [Menu 8]

Add new

Menu 8.1

You can register a new contact address. You can enter the name, different phone numbers and email addresses of a new contact. You can also assign the contact to groups, include an image or avatar, assign a specific ringtone and even enter a memo for the contact. Other available fields include Home page URL, Home address, Company name, Job title and company address. You can enter and manage contact addresses depending on the memory usage.

Contacts list

Menu 8.2

Performs the contact address search function. The search operation is performed based on a name as a default. The current search method and results found are displayed in the Search window. You can make a phone call or send a message to the selected phone number. A Contacts search can be performed based on the phone number or group information.

Groups

Menu 8.3

Using this menu you can manage group information (both stored in the Handset and the USIM). In the handset memory, there are 4 default groups: Family, Friends, Colleagues and School. You can add, edit and delete groups. When a ringtone for a number is not specified, a call from the number sounds the group ringtone assigned to the number for the group.

Speed dials

Menu 8.4

Using this menu you can manage speed dials. Speed dials are configured between 2-9. You can register speed dials for a specific contact address up to 5 different numbers, and a contact address may have multiple speed dials.

Service dial numbers

Menu 8.5

You can view the list of Service Dialling Numbers (SDN) assigned by your service provider (if supported by the USIM card).

Such numbers include emergency, directory enquiries and voice mail numbers. After selecting a service number, press  to dial the service.

Own number Menu 8.6

Allows you to display your phone number in the USIM card. You can save own numbers being used in the USIM card.

My business card Menu 8.7

You can create your own business card by pressing the left soft key Add. After entering the name, number, email and image, you can use it as a business card when sending the message.

Settings Menu 8.8

View contacts from (Menu 8.8.1)

Select which contact information shall be displayed (from handset memory, from USIM card or both). **All** is the default setting.

Show image/avatar (Menu 8.8.2)

Select whether to display image/avatar or not.

Copy all (Menu 8.8.3)

You can copy contacts from the phone memory to the USIM or from the USIM to the phone memory. You can copy all items or one at a time.

Move all (Menu 8.8.4)

You can move contacts from the phone memory to the USIM or from the USIM to the phone memory. You can move all items or one at a time.

Clear contacts (Menu 8.8.5)

Clears all contact information. You can delete all contacts saved in the mobile phone memory as well as on the USIM card.

Calls [Menu 9]

You can check the record of missed, received, and dialled calls only if the network supports Calling Line Identification (CLI) within the service area.

The number and name (if available) are displayed together with the date and time at which the call was made. You can also view call times.

All calls Menu 9.1

Allows you to view the missed, received, and dialled call records. You can make a call, or send a message to the number you have selected from the records. You can also save the number in Contacts.

Dialled calls Menu 9.2

Allows you to view dialled call records, make a call, send a message, and save the number in Contacts.

Received calls Menu 9.3

Allows you to view received call records, make a call, send a message, and save the number in Contacts.

Missed calls Menu 9.4

Allows you to view missed call records, make a call, send a message, and save the number in Contacts.

USIM Tool Kit [Menu *]

Depending on whether you have SAT support services or not (i.e. USIM Application Toolkit) on the USIM card, this menu (Menu *) may be different.

If the USIM card supports SAT services, this menu will be the operator-specific service name stored on the USIM card, for instance “Special”. Please refer in that case to the information provided with your USIM card for further information on how to use the related options.

If the USIM card does not support SAT services, this menu will be **Alarms**. For the **Alarms** menu feature, please refer to page 63.

Video call [Menu 0]

You can make a video call using this menu.

1. Enter the number you want to dial.
 - ▶ You can key in the number.
 - ▶ You can select the number from Search contacts using the left soft key [Options]
 - ▶ You can find the number from call logs by pressing  [Video call].
2. Press the ceter key [Video call] or [Send] to make a video call.

During a video call

When you are in a video call, the screen will show the contact's name and duration of call, contact's image, volume indicator, video control panel, and your image.

You can access the following option menus by pressing the left soft key [Options].

- ▶ Mute/Unmute
- ▶ Speaker (On /Off)
- ▶ Bluetooth/Handset talk (When the Bluetooth headset is connected)

- ▶ Hold/Resume
- ▶ Capture
- ▶ View sender number
- ▶ Go to contacts
- ▶ Go to messages
- ▶ Settings
- ▶ End call

Incoming video call

When a video call is received, the caller's information is displayed as following.

- ▶ **Picture/Animation:** Displays picture ID, graphic image configured in Contacts, or default animation indicating the incoming call.
- ▶ **Caller's name and number:** Shows incoming caller's number. If the number is stored in Contacts, displays the name of the contacts.

Picture ID and animation setting is used in the order of Contacts, video file used in Group ringtone, and video file used in Profile.

Also, sound can be set for the incoming video call. The sound setting is used in the order of Contacts, Group ringtone, and Profile.

You can accept the incoming call by pressing the center key [Accept]. Also you can accept the incoming call and show the private image by pressing the left soft key [Private].

The incoming call ringing can be silenced by pressing the right soft key [Silent]. It can be also silenced by long press on  on the left side of the phone.

When ringing is silenced, press the right soft key [Reject] to reject the call.

Settings [Menu #]

Profile

Menu #.1

You can select ringtone or vibration for an incoming call and configure the sound and volume of the ringtone, key tone, and sound effect, according to a profile. The profiles provided include [Normal], [Silent], [Vibrate only], [Outdoor], [Headset], [Customised 1], [Customised 2], and [Customised 3]. Select a profile, and press  to activate the profile. After pressing the left soft key [Options], select the Edit menu for the [Normal], [Outdoor], [Headset], [Customised 1], [Customised 2] and [Customised 3] profile to change the configuration. A different list of options is available for each profile that has been selected for editing.

▶ Alert by

This option determines the incoming call notification mode. You can select from [Ring], [Vibration], [Silent], [Ring & vibration], [Ring after vibration], [Max Ring & Vibration].

▶ Voice ringtone

You can select the ringtone for incoming voice calls.

▶ Video ringtone

You can select the ringtone for incoming video calls.

▶ Volume

Set the ringtone volume.

▶ Message alert

You can set how often the phone is to inform you of a received message until it is read.

▶ Message tone

You can select a file from among your own personal files or from the default files, to be played by the phone upon receiving a message.

▶ Key tone

You can set the key tone to be played when pressing the keys.

▶ Key tone volume

You can set the volume of the chosen key tone, choosing from 7 available levels.

▶ Slide tone

Select the desired tone the phone will emit when you slide up/down the phone.

▶ Confirmation tone

You can set the confirmation tone to be played by the phone to confirm actions.

▶ Start up sound

You can set the effect to be played when the phone is switched on.

▶ Select start up sound

You can select which file will be played when the phone is switched on.

▶ Power off sound

You can set the effect to be played when the phone is switched off.

▶ Select power off sound

You can select which file will be played when the phone is switched off.

Phone settings

Menu #.2

Date & time

(Menu #.2.1)

Although the current time is automatically configured when the phone is registered to the network, users can configure the time and date directly using this menu. The time configured by the user is valid only while the phone is turned on.

Time

1. Select the **Time** item from the Date & time list, and then press .
2. Move to your desired field, **Hour**, **Minute**, or am/pm field using the navigation keys. (When you have selected **12 hour as Time format**)
3. Enter **Hour**, and **Minutes** using the number keys.
4. Select the time format using .
5. Scroll down to select the hour indicator format i.e. Off, Cuckoo clock or Chime bell.

Settings

6. Press the right soft key [Done] to set the time with the specified value.

Date

1. Select the **Date** item from the Date & time list, and then press .
2. Select the date format using .
3. Enter **Day**, **Month** and **Year** using the number keys.
4. Press the right soft key [Done] to set the date with the specified value.

Auto update date/time

When Auto Update is configured to **On**, the time and date are automatically updated according to the current time zone. If **Confirm first** is selected, the time and date update is confirmed before it is updated automatically.

Daylight saving

Select whether to activate the daylight saving function or not. You can set the Summer time difference of selected home city for 1 hour or 2 hours.

Language

(Menu #.2.2)

Select the display language. You can select **Automatic** language option to change display language to the USIM card supported language.

Auto key lock

(Menu #.2.3)

If you activate this function, the keypad will be locked automatically in standby mode without requesting the action of key.

Flight mode

(Menu #.2.4)

If you activate the Flight mode, you can use the phone without connecting the 3G wireless network. 3G wireless phone and FM radio signals from the phone or Bluetooth connections are prevented, but you can still do tasks which do not require the use of wireless network. With flight mode you cannot make any calls including emergency calls or use other features that require network service.

Security

(Menu #.2.5)

PIN code request

When this is set to On, you are requested to enter your PIN each time you switch the phone on.

Note

- ▶ Press the right soft key in the PIN code entry window to return to the previous step.
- ▶ 3 incorrect PIN code entries would invalidate the PIN code. And you have to enter the PUK (PIN Unblock Key) code to configure the PIN code again.
- ▶ The maximum number of times you may enter the PUK code is 10. (Note: If you enter an incorrect PUK code 10 times, the USIM card will be blocked and must be replaced.)
- ▶ If the PIN code request cannot be disabled by operator settings, you will not be able to choose this menu item.

Handset lock

You can lock your phone. The following 4 lock functions are available.

When switching on: Locks the handset whenever the handset is switched on.

If USIM changed: Locks the handset when the phone's USIM card has been changed.

Immediate: Locks the handset immediately.

None: Deactivates the lock function.

You are requested to enter the security code to confirm the selection.

- ▶ To unlock the handset, you need to enter the security code.

Change codes

You can change the PIN, PIN2, and the mobile phone password.

PIN code

PIN is the abbreviation for Personal Identification Number, and is used to restrict use by an unauthorised user.

Settings

PIN code change procedure

1. Select 'PIN code' from the 'Change codes' list and then press .
2. Enter the current PIN code, and press .
3. Enter the new PIN code, and press .
4. Enter the new PIN code once again, and press .
- ▶ If the PIN code is different from that of step 3, the procedure is restarted from step 3.
5. When the PIN code is changed properly, a **Changed** message is displayed. If you enter an incorrect PIN code in step 2, the procedure is restarted from step 2, and the number of attempts you have left to enter the number decreased by 1.
6. Press the right soft key in the PIN code entry window to return to the previous step.

Note

- ▶ Three incorrect PIN code entries in the PIN code entry window would invalidate the PIN code. In this case, you have to enter the PUK (PIN Unblock Key) code to configure the PIN code again. The maximum number of times you may enter the PUK code is 10. (Note: If you enter an incorrect PUK code 10 times, the USIM card will be blocked and must be replaced.)

PIN2 code

PIN2 is the abbreviation for Personal Identification Number 2, and is used to restrict use by unauthorised users as with the PIN. The PIN2 code change procedure is the same as the one for the PIN code. 3 incorrect PIN2 code entries would invalidate the PIN2 code. In this case, you have to enter the PUK2 code in order to use the PIN2 code again. The maximum number of times you may try to enter the PUK2 code is 10, like PUK1. 10 incorrect PUK2 code entries would invalidate the PIN2 code.

Security code

The security code is used to change the mobile phone password. The maximum number of attempts to enter the security code is not limited as it is with PIN and PIN2.

Auto key lock

If you select **Off**, the keypad can be activated only when the slide is open. If you select **On**, you can activate the keypad by pressing  on the left side of the phone.

Power save (Menu #.2.6)

Decide whether to activate the power save mode or not.

Memory status (Menu #.2.7)

Common memory

This function shows the status of the user memory of the mobile phone. Since this function scans the overall file system for statistics, a few seconds are required.

Reserved memory

This function shows the status of the User reserved memory. The usual contents are Text messages, Contacts, Calendar, Tasks, Memo. And it gives a clear illustration of the actual amount compared with the total amount for each item.

USIM memory

This function shows the status of the USIM card user memory.

External memory

This function shows the status of the External card user memory. This function displays the In-use and free memory usage statistics.

Primary storage setting (Menu #.2.8)

You can select the storage to download the file: Handset memory or External memory.

Settings

Handset Information (Menu #.2.9)

This function shows the USIM card telephone number, model name and software version of the mobile phone.

Reset settings (Menu #.2.10)

Select this to reset your phone to its default configuration. You are requested to enter the security code.

Display settings Menu #.3

This menu allows you to personalise the display options of the screens and of the menu's entire graphic interface.

Main Display (Menu #.3.1)

You can set the screen theme to be displayed on the main screen.

Home screen

- ▶ **Wallpaper:** You can select an image to be displayed on the main screen.

- ▶ **Homescreen items:** You can select which items to display on the screen: Calendar + Clock, Calendar, Clock, Clock + Key guide, Dual clock, Key guide or Do not show.

- ▶ **Clock type:** You can select the type of clock.

- ▶ **Clock font colour:** You can select the colour of displaying the clock.

Outgoing call picture

You can select the image to be displayed while dialling a number.

Start up picture

You can select the image to be displayed while the phone is being switched on.

Power off picture

You can select the image to be displayed while the phone is being switched off.

Menu style (Menu #.3.2)

You can select the desired menu style from Grid style and One by one style.

Font (Menu #.3.3)

You can set the font style, dialling font size, and dialling font colour using (☰ / ☰).

Backlight (Menu #.3.4)

You can set the backlight duration and the brightness on the Home screen and the duration on the Keypad. individually.

Welcome message (Menu #.3.5)

After selecting On, you can write a welcome message.

Call settings Menu #.4

Call durations (Menu #.4.1)

You can view call time by types. Press the left soft key [Options] to choose either partial initialisation or entire initialisation. Also press right soft key [Clear] to initialise a selected duration type. Initialization will require your Security code.

The following timers are available:

- ▶ **Last call:** Shows the latest call time in units of hours/minutes/seconds.
- ▶ **Received calls:** Shows incoming call time.
- ▶ **Dialled calls:** Shows outgoing call time.
- ▶ **All calls:** Shows total call time.

Call barring (Menu #.4.2)

Call barring menus for Voice and Video calls are provided.

The menu consists of **Voice calls**, **Video calls** and **Deactivate all**. The Voice calls and Video calls menus have the following submenus.

The **Call barring** menu consists of **All outgoing**, **Outgoing international**, **Outgoing international calls except home country**, **All incoming** and **Incoming when abroad** submenus.

The **All outgoing** menu bars dialling all outgoing calls, the **Outgoing international** menu bars dialling outgoing international calls, and the **Outgoing international calls**

except home country menu bars dialling outgoing international calls except for the Home PLMN country. **All incoming** rejects all incoming calls and the **Incoming when abroad** menu rejects incoming calls when roaming.

Voice calls

Video calls

All outgoing

1. When  is selected, it receives the Barring password from user, and activates the barring service on the network. A requesting message and animation appears. When the network answers, the result of the operation is displayed.
2. When the Options menu is selected, it activates the Outgoing calls menu. Select the Options menu from the soft menus on the lowest menu. Then Deactivate, Deactivate all, View status and Change password menus appear. The **Deactivate** menu deactivates the barring service after the user's Barring

password is entered. The **Deactivate all** menu deactivates all barring services configured in the network after the user's Barring password has been entered. The **View status** menu enables users to view the current network configuration. Selecting **View status** menu displays the Requesting message with animation and the result of the operation when the network answers. **Change password** menu enables users to change the current barring password.

Outgoing international

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the International calls menu. It operates in the same way as the **Outgoing calls** menu.

Outgoing international calls except home country

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.

2. When the Options menu is selected – It activates and operates the **International except home country** menu. It operates in the same way as the **Outgoing calls** menu.

All incoming

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the Incoming calls menu. It operates in the same way as the **Outgoing calls** menu.

Incoming when abroad

1. When  is selected, it operates in the same way as the **Outgoing calls** menu.
2. When the Options menu is selected, it activates and operates the Incoming calls when abroad menu. It operates in the same way as the **Outgoing calls** menu.

Fixed dial numbers (Menu #.4.3)

- ▶ **FDN ON/OFF:** Select whether to activate FDN or not. PIN authentication is required.

- ▶ **FDN List:** Displays the current FDN list. You can edit, add, or delete fixed dial numbers. PIN2 authentication is required to edit the list. And the configuration information is saved on the USIM. The information saved on the USIM is used when FDN restricts outgoing calls.

Data volume (Menu #.4.4)

Allows you to check the sent, received and all data volume transferred.

Press the left soft key [Options] to choose for partial initialization or entire initialization. You can also use the right soft key [Clear] for the initialization of the selected volume type. Initialization will require your Security code.

Call costs (Menu #.4.5)

1. This function displays the call costs of the Last call and All calls.
2. To initialise, press the center key [Clear] and enter the PIN2 code.

Settings

3. You can select either **Units** or **Currency** in **Set call cost**. According to your setting, the call cost is displayed during a call (If USIM and Network support Advice Of Charge(AOC)).
4. In the **Set limit** configuration, select **On** to configure the cost limit. When a cost limit is configured, and the call costs reach the limit, making a call will not be allowed.

Diverts

(Menu #.4.6)

Call divert menus for voice and video calls are provided.

If you press , you can activate call divert menu.

Voice calls

All voice calls

When busy

No answer

Not reachable

1. **When the number list is not existed**
Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook. If you press  [Divert], the phone will send the request to service provider after entering the number. While waiting for the result from the network, a Requesting message and animation appears.
2. **When the number list is existed**
Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.
3. **Option menu**
After activating All voice calls menu, selecting the Options menu at the bottom of the menus displays the Deactivate, Deactivate all, View status and clear list menus.
The View status menu shows the settings on the network. If you select this menu, Requesting. message and animation appear. Then the network settings are

displayed when the information is received from the network. If you select the Deactivate menu, the call divert numbers registered in the network are deleted after user confirmation.

Clear list menu will delete all divert number list.

Video calls

All video calls

1. When the number list is not existed

Converts to an editor for entering a divert number. You can input the number to divert a call directly or search it in phonebook. If you press  [Divert], the phone will send the request to service provider after entering the number. While waiting for the result from the network, a Requesting message and animation appears.

2. When the number list is existed

Displays To other number menu including of the number list. While waiting for the result from the network, a Requesting message and animation appears.

3. Option menu

After activating the All video calls menu, selecting the Options menu at the bottom of the menu displays the Deactivate, Deactivate all, View status and clear list menus.

If you select the Deactivate menu, the call divert numbers registered in the network are deleted after user confirmation.

Selecting the Cancel all menu will display the operation result after showing the Requesting message and animation. Clear list menu will delete all divert number list.

When busy

1. When the number list is not existed

It operates the same as All voice calls menu.

2. When the number list is existed

It operates the same as All voice calls menu.

3. When Option menu is selected

It activates and operates If busy menu. It operates the same as All voice calls menu.

Settings

No answer

1. When the number list is not existed

It operates the same as All voice calls menu.

2. When To a number is selected

It operates the same as All voice calls menu.

3. When Option menu is selected

Activates and operates No answer menu. It operates the same as All voice calls menu except that users can configure delay time in the Set waiting time menu in the menu list.

Not reachable

1. When the number list is not existed

It operates the same as All voice calls menu.

2. When the number list is existed

It operates the same as All voice calls menu.

3. When Options menu is selected

Activates and operates If out of reach menu. It operates the same as All voice calls menu.

Call waiting

(Menu #.4.7)

▶ **Activate:** Activates waiting service.

Selecting this item, displays requesting message and animation. When the network answers, the result of the operation is displayed.

▶ **Deactivate:** Deactivates Call waiting service. Selecting this item displays requesting message and animation. When the network answers, the result of the operation is displayed.

▶ **View status:** Displays activated Call waiting service group item of the network. Selecting this item displays requesting message and animation. When the network answers, the result of the operation is displayed.

Voicemail

(Menu #.4.8)

You can add or modify voice mail centre.

Video call (Menu #.4.9)

You can set the screen display when making /receiving a video call.

- ▶ **Use private image:** Determine whether to show the private image or not.
- ▶ **Select private image:** Select the still image to be displayed.
- ▶ **Mirror:** Select to activate the mirror effect or not.
 - **On:** Displays the image flipped side to side.
 - **Off:** Displays the image as it is.
- ▶ **My image size:** Select my image size to be displayed.
- ▶ **My image position:** Select the position where your image will be displayed.

Common settings (Menu #.4.0)

Call reject

You can set whether to reject incoming calls.

1. Select **On** in Reject menu to activate call reject. The Reject list menu appears.
2. Set the desired call reject option in the Reject list menu.
 - ▶ **All calls:** Rejects all calls.
 - ▶ **Contacts:** Rejects the calls from the number stored in Contacts.
 - ▶ **Groups:** You can specify call rejects by group units stored in Contacts.
 - ▶ **Unregistered:** Rejects calls from the number not stored in Contacts.
 - ▶ **No caller ID:** Reject calls which do not have CLI information.

Send my number

- ▶ **Set by network:** Configures with the default settings determined by the service provider.

Settings

- ▶ **On:** Configures to send my phone number when making an outgoing call.
- ▶ **Off:** Configures not to send my phone number when making an outgoing call.

Auto redial

Allows you to set the auto redial function when a call attempt has failed.

Answer mode

Allows you to set the answering method. You can choose between **Press send key**, **Slide up** and **Press any key**.

Minute minder

Determines whether to sound a 1 minute tone every 1 minute when you are on the phone.

BT answer mode

- ▶ **Hands-free:** You can answer a call using the Bluetooth headset, when the Bluetooth is connected.
- ▶ **Handset:** If you press  on the handset to answer a call, you can talk on the

handset. If you press the Bluetooth headset key to answer a call, you can talk using the Bluetooth headset.

This is the initial answer mode selection. And while talking, you can switch from handset to headset or from headset to handset.

Save new number

In this menu, you can save the phone number when ending a call if the phone number is not saved in a phonebook.

Slide close setting

when the slide is down, you can set the call is ended or not.

Messaging settings Menu #.5

For detailed information, please refer to page 51.

Contact settings Menu #.6

For detailed information, please refer to 72. (Menu 8.7)

Connectivity

Menu #.7

Bluetooth

(Menu #.7.1)

Bluetooth connection

Your phone has built-in Bluetooth wireless technology which makes it possible for you to connect your phone wirelessly to other Bluetooth devices such as a handsfree, PC, PDA or other phones.

You can, for example, have a conversation via a cordless Bluetooth handsfree or browse the Internet, wirelessly connected via a mobile phone. You can also exchange, for example, business cards, calendar items and pictures.

Note

- ▶ We recommend that your phone and the Bluetooth device you are communicating with be within a range of 10 meters. The connection may be improved if there are no solid objects between your phone and the other Bluetooth device.

1. Getting started

- Menu → #. Settings → 7. Connectivity → 1. Bluetooth → 1. Turn on/off

To use the Bluetooth function, you must first set **Turn on**.

2. Configuring Bluetooth settings

- Menu → #. Settings → 7. Connectivity → 1. Bluetooth → 2. Settings

- **My visibility:** Set [My handset's visibility] to [Show to all] so that other devices can detect your phone when they are searching for a Bluetooth device. If you select [Hidden], other devices will not be able to detect your phone when they are searching for a Bluetooth device.
- **My name:** You can name or rename your phone as it will appear on other devices. Your phone's name will be shown on other devices only when [My handset's visibility] is set to [Show to all].
- **Bluetooth usage:** To use the Bluetooth function, set it to [On]. Otherwise, set it to [Off].

Note

- ▶ When user uses Bluetooth Device in the handset, the security of the handset is at risk. Therefore, we recommend that Bluetooth visibility be set to **Hidden** after configuration or device pairing. For incoming files via Bluetooth regardless of paired devices, you can choose to accept or reject the connection, after checking the sender details.

3. Supported services device

Pairing Devices(Pairing with a device)

If a paired Bluetooth device already exists.

- **Menu** → #. **Settings** → **7. Connectivity** → **1. Bluetooth** → **1. Paired devices** → **Option** → **Add new device**

If there is no paired Bluetooth device.

- **Menu** → #. **Settings** → **7. Connectivity** → **1. Bluetooth** → **1. Paired devices** → **Add new device**

Option

▶ **Connect**

1. If you want to open the connection to the selected device, select the **Connect**.
2. If you want to close the connection to the selected device, select the **Disconnect**.

- ▶ **Add new device:** Using this menu, you can pair a new Bluetooth device with your phone.

- ▶ **Delete:** Using this menu, you can delete the paired Bluetooth device.

- ▶ **Delete all:** Using this menu, you can delete all of the paired Bluetooth devices.

<Pairing devices>

1. To search for a Bluetooth device to pair, press **Add new device** .
2. Screen shows **Searching for devices**. Bluetooth devices within a range of 10m will be found.

3. If Bluetooth devices are found, these devices are listed on the screen. If no Bluetooth device is found, you will be asked if you want to search again.

4. Pairing procedure

- Press . A window will appear on the screen asking you to enter your password.
- After creating a password (of 1 to 16 digits), the user of the other device must enter the password for pairing. The user of the other device must know the password in advance for authentication.

<Deleting devices>

1. Select a device to delete from the Paired devices screen.
2. You can delete a device by pressing the Delete key or by selecting Options > Delete. To delete all paired devices, select Options > Delete All.

<Transmitting data using Bluetooth>

1. To transmit data from your phone to another Bluetooth device, first select the application where the target data is saved. For example, to send data in the My Files to another device, select Menu → 6. My Files → 1. Pictures / 2. Sounds / 3. Videos/ 5. Bluetooth data / 6. Other files / 7. External memory → Select data to transmit > Send → 3. Bluetooth
2. Transmitting data
 - 1) Last device found is displayed. If the desired device does not exist in the list, select [More devices].
 - 2) Select the device to which you want to transmit data from the devices on the screen and press .
 - 3) If the other party selects [Yes] for [Connection request], the data is transmitted.

<Receiving data using Bluetooth>

Menu → #. Settings → 7. Connectivity → 1. Bluetooth → 1. Paired devices

If another party attempts to transmit data, the [Connection request] question will appear on the screen. If you select [Yes], the data will be transmitted to your phone. During data transmission, the Bluetooth icon flashes.

<Bluetooth data storage folder>

You can check the received data by selecting Menu → 6. My Files → 5. Bluetooth data.

4. Device

<Connecting a headset>

Menu → #. Settings → 7. Connectivity → 1. Bluetooth

1. Connect the headset according to the procedures described in the Pairing Devices section.
2. To use the headset, select the headset from the registered devices, press the Option key and then select 3.Connect.

3. To check that the selected headset has been connected successfully, press the Option key. If it is properly connected, 3.Disconnect will appear. If it is not connected, 3.Connect will appear.

<Connecting a handsfree kit>

1. Menu → #. Settings → 7. Connectivity → 1. Bluetooth

2. Connect the handsfree kit according to the procedures described in the Pairing Devices section.
3. To use the handsfree kit, select the handsfree kit from the registered devices, press the Option key and then select 3.Connect.
4. To check that the selected handsfree kit has been connected successfully, press the Option key. If it is properly connected, 3.Disconnect will appear. If it is not connected, 3.Connect will appear.

Synchronisation (Menu #.7.2)

Synchronisation (Menu #.7.2)

(Note: This service is not available in all countries. Please contact your service provider for further information.)

If Sync service is supported by your network operator, this service function synchronizes the data in a phone and the data on a server such as Contacts, Calendar, and Tasks via a wireless network.

Connect

1. Select the Connect item and then press .
2. Connect to the server with the selected server profile and the synchronization animation is displayed while the synchronization is performed.

Logs

Select the Logs item and then press  to view the log for the last synchronization operation performed.

Server synch. centre

1. Select the Server synch. centre item and then press .
2. This menu allows you to configure the profile for a synchronization server.
 - ▶ **Profile name:** Input the name for the profile.
 - ▶ **Host address:** Contact your service provider.
 - ▶ **SyncML proxy:** Contact your service provider.
 - ▶ **User name:** Enter your user ID for synchronization server.
 - ▶ **Password:** Input your password.
 - ▶ **Contacts:** Select whether to synchronise Contacts or not.
 - ▶ **Contact name:** Input the contacts database name for server access.
 - ▶ **Calendar:** Select whether to synchronise Calendar or not.
 - ▶ **Calendar name:** Input the calendar database name for server access.

Settings

- ▶ **Tasks:** Select whether to synchronise Tasks or not.
- ▶ **Tasks name:** Input the Tasks database name for server access.
- ▶ **Memo:** Select whether to synchronise Memo or not.
- ▶ **Memo name:** Input the Memo database name for server access.
- ▶ **Sync type:** Select the synchronization type below.
 - Normal
The phone and the server are required to exchange information about the modified data.
 - Backup
The phone sends all the data from a database to the server. The server is expected to replace all data in the target database with the data sent by the phone. This means the phone overwrites all the data in the server database.
 - Restore
The server sends all its data from a database to the phone. The phone is expected to replace all data in the target database with the server sent by the server. This means the server overwrites all data in the phone database.
- ▶ **Access point:** Select an access point to use for the data connection.
- ▶ **Sync mode:** Select the synchronization mode below.
 - Manual
The synchronisation will only occur when explicitly initiated by the user.
 - Automatic
The application will automatically initiate a sync, based on the preferences defined (either a regular reminder or after changes have been made.)
 - Sync frequency
Select the automatic sync preference when you choose automatic sync mode.

Network

(Menu #.7.4)

Select Network

Select between **Automatic** and **Manual**.

- ▶ **Automatic:** Automatically searches for the network and registers the handset to the network. This is recommended for best service and quality.
- ▶ **Manual:** All the currently 2G(GSM) and 3G(UMTS) available networks are shown and you can select one of them for registration. If the registration of the network has failed, all the currently available networks are listed again and you can select any other one for registration.

Network mode

You can set a type of network to search for

- ▶ **Automatic:** Searches all the networks connectable.
- ▶ **UMTS:** Searches only networks supporting 3G.
- ▶ **GSM 900/1800:** Searches only networks supporting GSM 900/1800 band.

- ▶ **GSM 1900:** Searches only networks supporting GSM 1900 band.

Preferred lists

If the network is searching automatically, you can add a preferable network to be connected to. And the following options are available.

- ▶ **Add new:** You can add a new network using the followings.
 - **Search:** You can select one from the network list stored in the phone.
 - **Enter new network:** You can enter the country code (MCC), the network code (MNC) and RAT to add.
- ▶ **Delete:** Deletes the selected network.
- ▶ **Edit:** You can modify the information of the selected network.
- ▶ **Move up:** Moves the selected network upward.
- ▶ **Move down:** Moves the selected network downward.

Settings

Access points (Menu #.7.5)

This menu shows the access point list. You can create new profiles, delete or edit them by using the Option Menu. However, you cannot delete or edit default configurations depending on country variant.

You can edit the following configuration items by selecting the **left soft key** and **Edit**.

Connection title	Access Point profile name.
Bearer	Choose the bearer from the list. (Default is UMTS.)
Authentication	Choose the authentication from the list. (Default is No auth)
User name	Information provided by service provider.
Password	Information provided by service provider.
APN	APN name to access network. Information provided by service provider.

- ▶ Press **Select** key to save any configuration changes.

Browser settings (Menu #.7.6)

Profiles

Select the appropriate profile by pressing . This will activate the profile to initiate browser launch.

Character encoding

Sets the browser default character set to one of the following.

- ▶ Automatic, English(ASCII), English(ISO), English(LATIN), Unicode(UCS2 BE), Unicode(UCS2 LE), Unicode(UCS2 Auto), Unicode(UTF-16 BE), Unicode(UTF-16 LE), Unicode(UTF-16 Auto), Unicode(UTF-8).

Scrolling control

Allows you to set the scroll speed by selecting the number of lines to scroll. Select one from 1 line, 2 lines, 3 lines.

Show Image

Allows you to enable or disable image display during browsing.

Cache

Enabling Cache allows you to store accessed pages to your phone. Once a page has been stored in cache it will greatly enhance the page loading speed on subsequent browsing of the same page.

Cookie

Enabling Cookie allows you to store cookies sent from the server. Disabling this function will prevent cookies from being stored on your phone.

JavaScript

Select whether to switch JavaScript On or Off.

Reset setting

Select this to reset your phone to its default configuration.

Security

If user presses Certificates, certification information is shown.

User can clear secure session information by pressing Session clear.

Certificates

If stored, a list of root/ca certificates required for WTLS/TLS can be found here. Certificates can be viewed from the list.

Session clear

Secure (WTLS/ TLS) session data can be cleared using this option. Session data should be cleared to establish a new secure session.

Streaming

(Menu #.7.7)

If you want to set different network setting to play streaming content, you can set different network settings.

Java settings

Menu #.8

Activating a profile

1. Move the cursor to the profile you would like to activate.
2. Press .

Settings

Adding a new profile

1. Select **Add new** from the **Options** menu.
The following items need to be configured.

Service name	Enter an account name for the profile.
Connection mode	Choose from the given list of connection modes. (Default is TCP with Proxy or TCP without Proxy)
IP address	Enter the WAP Gateway IP address provided by the operator. (e.g. 195. 115. 025. 129)
Proxy server port	Port details are provided by the operator, depending upon the Connection mode.
Access point	Choose from the given list of access points. (For more details on adding or editing a new access point, refer to page 98.)

2. Press the  [Done] to save any configuration changes.

You can edit and delete a profile by selecting **Edit** and **Delete** from the **Options** menu.

Accessories

There are various accessories for your mobile phone. You can select these options according to your personal communication requirements.

Travel Adapter

This charger allows you to charge the battery while away from home or your office.

Standard Battery

Data cable/CD

You can connect your phone to PC to exchange the data between them.

Hands free ear-microphone and music player controller combo
