SAMSUNG

using this manual

This user manual has been specially designed to guide you through the functions and features of your mobile phone. To get started quickly, refer to "introducing your mobile phone," "assembling and preparing your mobile phone," and "using basic functions."

Instructional icons

Before you start, familiarize yourself with the icons you will see in this manual:

Warning—situations that could cause injury to yourself or others

Caution—situations that could cause damage to your phone or other equipment

Note—notes, usage tips, or additional information

▶ **Refer to**—pages with related information; for example: ▶ p.12 (represents "see page 12")

ii

→ **Followed by**—the order of options or menus you must select to perform a step; for example: Press <**Menu**> → **Messages** → **Text message** → **New message** (represents **Menu**, followed by **Messages**, followed by **New message**)

[ ] **Square brackets**—phone keys; for example: [🖂] (represents the Power/ Menu exit key)

< > **Angled brackets**—softkeys that control different functions at each screen; for example: <**Menu**> (represents the **Menu** softkey)

using this manual

contents

contents

safety and usage information

Comply with the following precautions to avoid dangerous or illegal situations and ensure peak performance of your mobile phone.

⚠️ WARNING Safety warnings

Keep your phone away from small children and pets

Keep your phone and all accessories out of the reach of small children or animals. Small parts may cause choking or serious injury if swallowed.

Protect your hearing

Listening to a headset at high volumes can damage your hearing. Use only the minimum volume setting necessary to hear your conversation or music.

Install mobile phones and equipment with caution

Ensure that any mobile phones or related equipment installed in your vehicle are securely mounted. Avoid placing your phone and accessories near or in an air bag deployment area. Improperly installed wireless equipment can cause serious injury when air bags inflate rapidly.

Handle and dispose of batteries and chargers with care

- Use only Samsung-approved batteries and chargers specifically designed for your phone. Incompatible batteries and chargers can cause serious injuries or damage to your phone.
- Never dispose of batteries or phone in a fire. Follow all local regulations when disposing used batteries or phone.

- Never place batteries or phones on or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.
- Never crush or puncture the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit and overheating.

Avoid interference with pacemakers

Maintain a minimum of 15 cm (6 inches) between mobile phones and pacemakers to avoid potential interference, as recommended by manufacturers and the independent research group, Wireless Technology Research. If you have any reason to suspect that your phone is interfering with a pacemaker or other medical device, turn off the phone immediately and contact the manufacturer of the pacemaker or medical device for guidance.

safety and usage information

3

safety and usage information

Turn off the phone in potentially explosive environments

Do not use your phone at refuelling points (service stations) or near fuels or chemicals. Turn off your phone whenever directed by warning signs or instructions. Your phone could cause explosions or fire in and around fuel or chemical storage and transfer areas or blasting areas. Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the phone, its parts, or accessories.

Reduce the risk of repetitive motion injuries

When sending text messages or playing games on your phone, hold the phone with a relaxed grip, press the buttons lightly, use special features that reduce the number of buttons you have to press (such as templates and predictive text), and take frequent breaks.

4

⚠ Safety precautions
CAUTION

Drive safely at all times

Avoid using your phone while driving and obey all regulations that restrict the use of mobile phones while driving. Use hands-free accessories to increase your safety when possible.

Follow all safety warnings and regulations

Comply with any regulations that restrict the use of a mobile phone in a certain area.

Use only Samsung-approved accessories

Using incompatible accessories may damage your phone or cause injury.

Turn off the phone near medical equipment

Your phone can interfere with medical equipment in hospitals or health care facilities. Follow all regulations, posted warnings, and directions from medical personnel.

Turn off the phone or disable the wireless functions when in an aircraft

Your phone can cause interference with aircraft equipment. Follow all airline regulations and turn off your phone or switch to a mode that disables the wireless functions when directed by airline personnel.

Protect batteries and chargers from damage

- Avoid exposing batteries to very cold or very hot temperatures (below 0° C/32° F or above 45° C/113° F). Extreme temperatures can reduce the charging capacity and life of your batteries.
- Prevent batteries from contacting metal objects, as this can create a connection between the + and - terminals of your batteries and lead to temporary or permanent battery damage.
- Never use a damaged charger or battery.

Handle your phone carefully and sensibly

- Do not allow your phone to get wet—liquids can cause serious damage. Do not handle your phone with wet hands. Water damage to your phone can void your manufacturer's warranty.

safety and usage information

5

- Avoid using or storing your phone in dusty, dirty areas to prevent damage to moving parts.
- Your phone is a complex electronic device—protect it from impacts and rough handling to avoid serious damage.
- Do not paint your phone, as paint can clog moving parts and prevent proper operation.
- Avoid using the phone's camera flash or light close to the eyes of children or animals.
- Your phone and memory cards may be damaged by exposure to magnetic fields. Do not use carrying cases or accessories with magnetic closures or allow your phone to come in contact with magnetic fields for extended periods of time.

Avoid interference with other electronic devices

Your phone emits radio frequency (RF) signals that may interfere with unshielded or improperly shielded electronic equipment, such as pacemakers, hearing aids, medical devices, and other electronic devices in homes or vehicles. Consult the manufacturers of your electronic devices to solve any interference problems you experience.

CAUTION

safety and usage information

6

✏ Important usage information

Use your phone in the normal position

Avoid contact with your phone's internal antenna.

Allow only qualified personnel to service your phone

Allowing unqualified personnel to service your phone may result in damage to your phone and will void your warranty.

Ensure maximum battery and charger life

- Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- Over time, unused batteries will discharge and must be recharged before use.

- Disconnect chargers from power sources when not in use.
- Use batteries only for their intended purpose.

Handle UIM cards and memory cards with care

- Do not remove a card while the phone is transferring or accessing information, as this could result in loss of data and/or damage to the card or phone.
- Protect cards from strong shocks, static electricity, and electrical noise from other devices.
- Frequent writing and erasing will shorten the life span of memory cards.
- Do not touch gold-coloured contacts or terminals with your fingers or metal objects. If dirty, wipe the card with a soft cloth.

safety and usage information

7

Ensure access to emergency services

Emergency calls from your phone may not be possible in some areas or circumstances. Before travelling in remote or undeveloped areas, plan an alternate method of contacting emergency services personnel.

Specific Absorption Rate (SAR) certification information

Your phone conforms to U.S. Federal Communications Commission (FCC) standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile phones that exceed a maximum exposure level (known as the Specific Absorption Rate, or SAR) of 1.6 watts per kilogram of body tissue.

In normal use, the actual SAR is likely to be much lower, as the phone has been designed to emit only the RF energy necessary to transmit a signal to the nearest base station. By automatically emitting lower levels when possible, your phone reduces your overall exposure to RF energy.

The FCC has granted an Equipment Authorisation for this model phone based on the compliance of all reported SAR levels with the FCC RF exposure guidelines. The authorization can be found on the FCC Office of Engineering and Technology website at http://www.fcc.gov/oet/ea.

introducing your mobile phone

In this section, learn about your mobile phone's layout, keys, display, and icons.

Unpack

Check your product box for the following items:

- Mobile phone
- Battery
- Travel adapter (charger)
- User manual

> The items supplied with your phone may vary depending on the software and accessories available in your region or offered by your service provider.
>
> You can obtain additional accessories from your local Samsung dealer.

assembling and preparing your mobile phone

Get started by assembling and setting up your mobile phone for its first use.

Install the battery

1. Remove the battery cover.
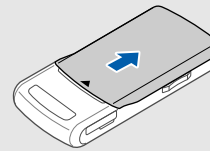

> If the phone is on, press and hold [🔚] to turn it off.

15

2. Insert the UIM card.
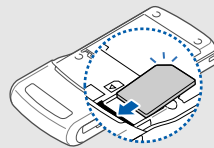

Place the card in the phone with the gold-coloured contacts facing down.

3. Insert the battery.

4. Replace the battery cover.

assembling and preparing your mobile phone
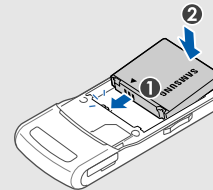

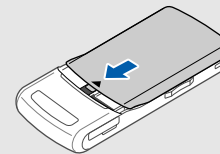

Charge the battery

Before using the phone for the first time, you must charge the battery.

1. Open the cover to the multifunction jack and plug the small end of the travel adapter.
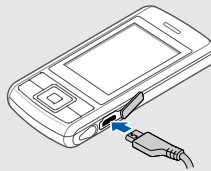

> Improperly connecting the travel adapter can cause serious damage to the phone. Any damages by misuse are not covered by the warranty.

2. Plug the large end of the travel adapter into a power outlet.

3. When the battery is fully charged (the icon is no longer moving), unplug the travel adapter from the power outlet.

4. Unplug the travel adapter from the phone.

5. Close the cover to the multifunction jack.

> **About the low battery indicator**
>
> When your battery is low, the phone will emit a warning tone and a low battery message. The battery icon will also be empty and blinking. If the battery level becomes too low, the phone will automatically power off. Recharge your battery to continue using your phone.

Insert a memory card (optional)

To store additional multimedia files, you must insert a memory card. Your phone accepts microSD™ memory cards up to 4 GB (depending on memory card manufacturer and type).

1. Open the cover to the memory card slot on the side of the phone.

2. Insert a memory card with the label side facing up.
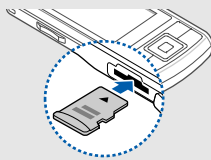

3. Push the memory card in the memory card slot until it locks in place.

assembling and preparing your mobile phone

18
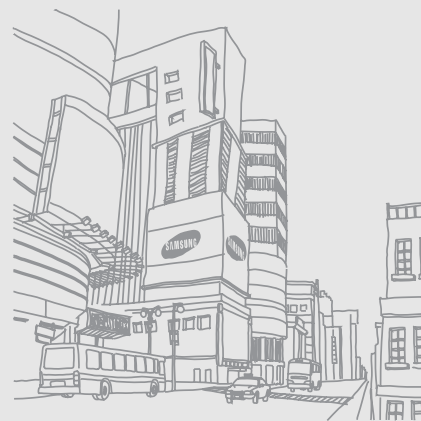

using basic functions

Learn how to perform basic operations and use the main features of your mobile phone.

Turn your phone on and off

1. Slide open the phone.
2. Press and hold [☏].

To turn your phone off, press and hold [☏].

Switch to Flight mode

By switching to **Flight mode**, you can use your phone's non-network services in areas where wireless devices are prohibited, such as aeroplanes and hospitals.

To switch to **Flight mode**, press <**Menu**> → **Settings** → **Call settings** → **Flight mode** → **Mode on/off** → **On**.

> Follow all posted warnings and directions from official personnel when in areas where wireless devices are prohibited.

using basic functions

Access menus

To access your phone's menus,

1. Press a softkey for the menu you want.
2. Use the navigation key to scroll to a menu or option.
3. Press [**OK**] to confirm the highlighted option.
4. Press [**C**] to move up one level; Press [⌕] to return to Idle mode.

Customise your phone

Get more from your phone by customising it to match your preferences.

Adjust the volume of the key tones

In Idle mode, press the Volume key up or down to adjust the key tone volume.

Select a key tone

In Idle mode, press <**Menu**> → **Sounds** → **Key tones/others** → **Keypad tone** → a key tone.

Switch to or from Silent mode

In Idle mode, press and hold [**#**] to silence or unsilence your phone.

Change your ringtone

1. In Idle mode, press <**Menu**> → **Sounds** → **Ringtone**.
2. Select a ringtone category → a ringtone.

Activate SSR mode

In Idle mode, press and hold the navigation key up. Your phone will alert you to incoming calls by vibrating itself and ringing at the highest volume in noisy places.

Select a wallpaper (Idle mode)

1. In Idle mode, press <**Menu**> → **Display** → **Wallpaper** → **Stand-by** → **Background image**.

2. Select an image category → an image.

Lock your phone

1. In Idle mode, press <**Menu**> → **Settings** → **Password/Lock Settings**.

2. Enter the default phone password, **0000**.

3. Select **Select lock method** → **On** or **Once**.

Use basic call functions

Learn to make or answer calls and use basic call functions.

Make a call

1. In Idle mode, enter an area code and a phone number.

2. Press [ ] to dial the number.

3. To end the call, press [ ].

Answer a call

1. When a call comes in, press [ ].

2. To end the call, press [ ].

Adjust the volume

To adjust the volume during a call, press the Volume key up or down.

Record a call conversation

1. During a call, press and hold [**1**] to start recording.

2. When you are finished, press [**OK**] to save.

Use the headset

By plugging the supplied headset into the headset jack, you can make and answer calls:

21

using basic functions

- To redial the last call, press and hold the headset button.
- To answer a call, press and hold the headset button.
- To end a call, press and hold the headset button.

Send and view messages

Learn to send and view text (SMS) and multimedia (MMS) messages.

Send a text message

1. In Idle mode, press <**Menu**> → **Messages** → **Text message** → **New message**.
2. Enter your message text and press [**OK**].
   ▶ Enter text
3. Press [**OK**].
4. Enter a destination number and press [**OK**].
5. Press [**OK**] to send the message.

Send a multimedia message

1. In Idle mode, press <**Menu**> → **Messages** → **Multimedia message** → **New message**.
2. Press <**Edit**>.
3. Enter a subject and press [**OK**].
4. Scroll down to **Message** and press <**Edit**>.
5. Enter your message text and press [**OK**].
6. Scroll down to **Picture/Video**.
7. Press <**Options**> and select an image.
8. Scroll down to **Sound**.
9. Press <**Options**> and select a sound.
10. Press [**OK**].
11. Scroll down and enter a destination number or an email address.
12. Press [**OK**].
13. Press [**OK**] to send the message.

22

Enter text

- When entering text, press <**Mode**> and select a text input mode.
- Press and hold [✱] to switch to Symbol mode.
- Press [✱] to change case in T9 English or ABC modes.

Enter text in one of the following modes:

Mode	Function
T9 English	1. Press the appropriate alphanumeric keys to enter an entire word. 2. When the word displays correctly, press [#] to insert a space. If the correct word does not display, press [**0**] to select an alternate word.
ABC	Press the appropriate alphanumeric key until the character you want appears on the display.

Mode	Function
Hinglish	Press the appropriate alphanumeric key to enter a Hinglish word, which is made by combining of Hindi and English according to Hindi grammar.
123	Press the appropriate alphanumeric key to enter a number.
Symbol	Press the appropriate alphanumeric key to select a symbol.

View text or multimedia messages

1. In Idle mode, press <**Menu**> → **Messages** → **Text message** or **Multimedia message** → **Inbox**.

2. Select a text or multimedia message.

using basic functions

23

Add and find contacts

Learn the basics of using the **Contacts** feature.

Add a new contact

1. In Idle mode, enter a phone number and press [**OK**].

2. Select **New entry**.

3. Press <**Edit**>, and enter the contact's name and press [**OK**].

4. To save the contact to the phone memory, scroll right and select a number type.

5. Enter contact information.

6. Press [**OK**] to add the contact to memory.

Find a contact

1. In Idle mode, press <**Menu**> → **Contacts** → **Search**.
   You can also press <**Search**> in Idle mode.

24

2. Enter the first few letters of the name you want to find.

3. Select the contact's name from the search list.

Once you have found a contact, you can:
- call the contact by pressing [ ]
- edit the contact's information by pressing [**OK**]

Use basic camera functions

Learn the basics to capture and view photos and videos.

Capture photos

1. In Idle mode, press and hold [ ] to turn on the camera.

2. Aim the lens at the subject and make any adjustments.

3. Press [**OK**] or [ ] to take a photo.

4. Press <**Save**> to save the photo.

View photos

In Idle mode, press [📷] → **My album** → **Gallery** → a photo file.

Capture videos

1. In Idle mode, press and hold [📷] to turn on the camera.

2. Press [**1**] → **Video cam** to switch to Recording mode.

3. Aim the lens at the subject and make any adjustments.

4. Press [**OK**] or [📷] to start recording.

5. Press <■> or [📷] to stop recording.

6. Press <**Save**> to save the video.

View videos

In Idle mode, press [📷] → **My album** → **Gallery** → a video file.

Listen to music

Learn how to listen to music via the music player or FM radio.

Listen to the FM radio

1. Plug the supplied headset into the phone's headset jack.

2. In Idle mode, press <**Menu**> → **Multimedia** → **FM radio**.

3. Press <**On**> to start the radio.

4. Scroll left or right to select a radio station.

5. To turn the FM radio off, press <**Off**>.

using basic functions

25

Listen to music files

Start by transferring files to your memory card:

- Download from the wireless web. ▶ Browse the web
- Copy to your phone or a memory card. ▶ p. 31

After transferring music files to your memory card,

1. In Idle mode, press <**Menu**> → **Multimedia** → **MP3** → **MP3 files**.

2. Press <**Options**> → **Add to play list**.

3. Press [**OK**] to select the files you want and press <**Add**>.

4. Press [**OK**] to begin playback.

5. Control playback using the following keys:

Key	Function
OK	Pause or resume playback
Volume	Adjust the volume up or down
Navigation	• Left: Skip backward; Scan backward in a file (press and hold) • Right: Skip forward; Scan forward in a file (press and hold) • Up: Open the playlist • Down: Stop playback
<**A-B**>	Mark the beginning and end of a section you want to repeat

You can access other functions while playing music in background: press <**Menu**> → **Multimedia** → **MP3** → **MP3 settings** → **Backgroundplaying**.

using basic functions

Browse the web

Learn to access and bookmark your favourite web pages.

Browse web pages

1. In Idle mode, press [**OK**] to launch your service provider's homepage.
2. Navigate web pages using the following keys:

Key	Function
Navigation	Scroll up or down on a web page
OK	Select an item
C	Return to the previous page
<**Menu**>	Access a list of browser options

Bookmark your favourite web pages

1. In Idle mode, press [**OK**].
2. Press <**Menu**> → **Bookmarks** → <**Menu**> → **New Bookmark**.
3. Enter a page title and a web address (URL).
4. Scroll down to **Save** and press [**OK**].

using advanced functions

Learn how to perform advanced operations and use additional features of your mobile phone.

Use advanced call functions

Learn about your phone's additional calling capabilities.

View and dial missed calls

Your phone will display calls you have missed on the display. To dial the number of a missed call,

1. Press [OK].

2. Scroll to the missed call you want to dial.

3. Press [ ] to dial.

Call a recently dialled number

1. In Idle mode, press [ ] to display a list of recent numbers.

2. Scroll to the number you want and press [ ] to dial.

Answer a second call

If your network supports this function, you can answer a second call during a call:

Press [🖝] to answer the second call. The first call is automatically placed on hold.

Call an international number

1. In Idle mode, press and hold [**0**] to insert the international call code.

2. Enter the complete number you want to dial (country code, area code, and phone number), and then press [🖝] to dial.

Call a contact from Contacts

You can call numbers directly from **Contacts** using stored contacts. ▶ p. 24

1. In Idle mode, press <**Menu**> → **Contacts** → **Search**.

You can also press <**Search**> in Idle mode.

2. Scroll to the number you want to dial and press [🖝] to dial.

Call an emergency number

You can save emergency numbers, and then call the numbers even if your phone is locked or the UIM card is not inserted.

1. In Idle mode, press <**Menu**> → **Settings** → **Password/Lock Settings**.

2. Enter the password and press [**OK**].

3. Select **Emergency number**.

4. Scroll to a number and press [**OK**].

5. Enter a new number and press [**OK**].

> The default emergency numbers will still be available even if you replace them with other numbers.

using advanced functions

Use advanced Contacts functions

Learn to set speed dial numbers and create groups of contacts.

Set speed dial numbers

1. In Idle mode, press <**Menu**> → **Contacts** → **Speed dial**.

2. Scroll to a number you want to set (1-99) and press [**OK**].

3. Select a contact → a number (if necessary) to assign to the number.

> You can now call this contact from Idle mode by pressing and holding the assigned speed dial number.

Create a group of contacts

1. In Idle mode, press <**Menu**> → **Contacts** → **Groups**.

2. Press <**Options**> → **Add**.

3. Enter a group name and press [**OK**].

4. To set the caller ID image, scroll to the image field and press <**Edit**> → an image category → an image.

5. To set a group ringtone, scroll to the ringtone field and select a ringtone category → a ringtone.

6. Press [**OK**].

using advanced functions

Use advanced messaging functions

Learn to use templates to create new messages.

1. To start a new message, press <**Menu**> → **Messages** → a message type → **New message**.

2. From the text field, press <**Options**> → **Canned msg** → a template.

Use advanced music functions

Learn to prepare music files and store radio stations.

Copy music files to your phone or a memory card

1. Insert a memory card (if necessary).

2. Using an optional PC data cable, connect the multifunction jack on your phone to a PC.

3. In Idle mode, press <**Menu**> → **Multimedia** → **Connect to PC**.

4. Enter your phone password and press [**OK**].

5. Copy files from the PC to your phone or the memory card.

6. When you are finished, press [**OK**] to exit.

7. Press [**OK**].

Customise your music player settings

1. In Idle mode, press <**Menu**> → **Multimedia** → **MP3** → **MP3 settings**.

2. Adjust the settings to customise your music player.

using advanced functions

31

Store radio stations automatically

1. Plug the supplied headset into the phone's headset jack.

2. In Idle mode, press <**Menu**> → **Multimedia** → **FM radio**.

3. Press <**On**> to start the radio.

4. Press <**Options**> → **Self tuning**.

5. Press <**Yes**> to confirm.
   The radio scans and saves available stations automatically.

32
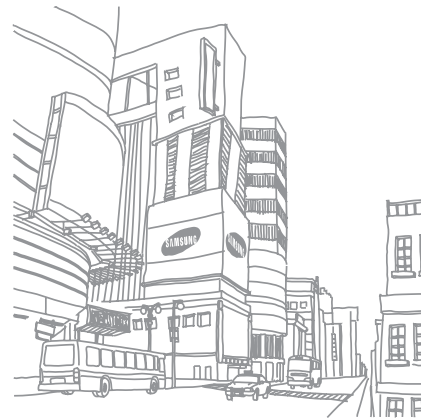

using tools and applications

Learn how to work with your mobile phone's tools and additional applications.

Use the Bluetooth wireless feature

Learn about your phone's ability to connect to other wireless devices for exchanging data and using hands-free features.

Turn on the Bluetooth wireless feature

In Idle mode, press <**Menu**> → **Multimedia** → **Bluetooth** → **Bluetooth on/off** → **On**.

Find and pair with other Bluetooth-enabled devices

1. In Idle mode, press <**Menu**> → **Multimedia** → **Bluetooth** → **Search new devices**.

2. Scroll to a device and press <**Register**>.

3. Enter a PIN for the Bluetooth wireless feature or the other device's Bluetooth PIN, if it has one, and press [**OK**].

using tools and applications

33

When the owner of the other device enters the same code or accepts the connection, pairing is complete.

4. Edit the device name (if necessary) and press [**OK**].

Send data using the Bluetooth wireless feature

1. In Idle mode, press <**Menu**> → **Multimedia** → **Bluetooth** → **Data transfer** → **Send files**.

2. Select a memory type.

3. Select a data category → a file → <**Put file**>.

4. Scroll to a device and press <**Connect**>.

Get data using the Bluetooth wireless feature

1. In Idle mode, press <**Menu**> → **Multimedia** → **Bluetooth** → **Data transfer** → **Get files**.

2. Scroll to a device and press <**Connect**>.

3. Select the files or items you want to get and press <**Get file**>.

Activate and send an SOS message

When you have an emergency, you can send an SOS message asking for help.

1. In Idle mode, press <**Menu**> → **Messages** → **SOS message** → **SOS on/off** → **On**.

2. Press <**Options**> → **Search** to search for contacts.

3. Select a contact and press <**Done**>.

34

4. When you are finished selecting contacts, press <**Save**> to save the recipients.

5. Press <**Yes**>.

To send an SOS message, press the Volume key four times with the phone closed and the keys locked.

> Once you send an SOS message, all phone functions will be suspended until you press [☎].

Record and play voice memos

Learn to operate your phone's voice recorder.

Record a voice memo

1. In Idle mode, press <**Menu**> → **Multimedia** → **Voice functions** → **Voice memo.**

2. Select **Record** to start recording.

3. Speak your memo into the microphone.

4. When you are finished speaking, press [**OK**] → **Save**.

5. Enter a file name and press [**OK**].

Play a voice memo

1. In Idle mode, press <**Menu**> → **Multimedia** → **Voice functions** → **Voice memo** → **Voice memo folder**.

2. Scroll to a file and press [**OK**].

Use the voice answering feature

Learn to use the voice answering feature.

Turn on the voice answering feature

1. In Idle mode, press <**Menu**> → **Multimedia** → **Voice functions** → **Voice answer** → **Settings**.

troubleshooting

If you are having trouble with your mobile phone, try these troubleshooting procedures before contacting a service professional.

Your phone displays "No service" or "Not done."

- When you are in areas with weak signals or poor reception, you may lose reception. Move to another area and try again.
- You cannot access some options without a subscription. Contact your service provider for more details.

You enter a number, but the call is not dialled.

- Ensure that you have pressed the Dial key: [ ].
- Ensure that you have accessed the right cellular network.

- Ensure that you have not set call barring for the phone number.

Another caller cannot reach you.

- Ensure that your phone is turned on.
- Ensure that you have accessed the right cellular network.
- Ensure that you have not set call barring for the phone number.

Another caller cannot hear you speaking.

- Ensure that you are not covering the built-in microphone.

a

- Ensure that the microphone is close to your mouth.
- If using a headset, ensure that it is properly connected.

The phone beeps and the battery icon flashes.

Your battery is low. Recharge or replace the battery to continue using the phone.

The audio quality of the call is poor.

- Ensure that you are not blocking the phone's internal antenna.
- When you are in areas with weak signals or poor reception, you may lose reception. Move to another area and try again.

You select a contact to call, but the call is not dialled.

- Ensure that the correct number is stored in the contact list.

b

- Re-enter and save the number, if necessary.

The battery does not charge properly or sometimes the phone turns itself off.

- The battery terminals may be dirty. Wipe both gold-coloured contacts with a clean, soft cloth and try charging the battery again.
- If the battery will no longer charge completely, dispose of the old battery properly and replace it with a new battery.

Your phone is hot to the touch.

When you use several applications at once, your phone requires more power and may heat up.

This is normal and should not affect your phone's lifespan or performance.
