Welcome to Sprint

Sprint built the largest all-digital, all-PCS nationwide network with advanced multimedia services, reaching more than 230 million people for clarity you can see and hear. We built our network to give you what we believe you really want from a wireless phone, clear sound, private conversations, and time-saving features.

But with Sprint, you can do something even more far-reaching – simplify your life. Our advanced technology is designed to grow with your communications needs so that one day you'll be able to rely entirely on your PCS Phone to stay connected.

This guide will familiarize you with our technology and your new Vision-enabled PCS Phone through simple, easy-to-follow instructions. If you have already reviewed the Start Here Guide, which was packaged with your new phone, then you're ready to explore the advanced features outlined in this guide.

If you have not read your Start Here Guide, go to Section One - Getting Started. This section provides all the information you need to quickly activate your phone, set up your voicemail, and much more. It also contains information on how to contact Sprint should you have questions about service, wish to check your account balance, or want to purchase additional products or services.

Thank you for choosing Sprint.

Introduction to this User's Guide

This User's Guide introduces you to PCS Service and all the features of your new phone. It's divided into four sections:

- ▶ **Section 1:** Getting Started
- ▶ **Section 2:** Understanding Your Phone
- ▶ **Section 3:** Using PCS Service Features
- ▶ **Section 4:** Safety and Warranty Information

Throughout the guide, you'll find tips that highlight special shortcuts and timely reminders to help you make the most of your new phone and service. The Table of Contents and Index will help you locate specific information quickly.

You'll get the most out of your phone if you read each section. However, if you'd like to get right to a specific feature, simply turn to that page. Follow the instructions in that section and you'll be ready to use your phone in no time.

Tip: You can print this guide to keep on hand or view it online. If you're viewing it online, simply click on a topic in the Table of Contents or Index on any page reference within a section. The PDF will automatically display the appropriate page.

Getting Started

Setting Up Service

In This Section

▶ **Getting Started With PCS Service**

▶ **Setting Up Voicemail**

▶ **Getting Help**

This section walks you through setting up service for your PCS Phone, unlocking your phone, setting up your voicemail, and how to contact Sprint for assistance with your PCS Service.

Getting Started With PCS Service

Determine if Your Phone is Already Activated

If you received your phone in the mail or purchased it at a Sprint Store, it probably has been activated. All you need to do is unlock your phone.

If your phone is not activated, please refer to the Start Here Guide included with your phone.

Unlocking Your Phone

Follow these steps to unlock your phone:

1. Press **END/0** to turn the phone on.
2. Press **Unlock** (left softkey).

Note: The left and right softkey buttons are located directly above the **END/0** and **BACK** buttons, respectively, and they correspond with the softkey actions shown on the bottom line of your phone's display screen. Softkey actions change according to the screen you're viewing and will not appear if there is no corresponding action available.

3. Enter your four-digit lock code. For security purposes, the code is not visible as you type.

Tip: If you can't recall your lock code, try using the last four digits of either your Social Security number or PCS Phone Number or try 0000. If none of these work, call PCS Customer Service Solutions™ at 1-888-211-4PCS (4727).

Activating Your Phone

To activate your phone, follow the directions in the Start Here Guide included with your phone.

Setting Up Your Voicemail

All unanswered calls to your PCS Phone are automatically transferred to voicemail, even if your phone is in use or turned off. Therefore, you will want to set up your voicemail and personal greeting as soon as your PCS Phone is activated.

To set up voicemail:

1. Press and hold **1**.
2. Follow the system prompts to create your pass code, record your greeting, record your name announcement, and choose whether to activate One-Touch Message Access (a feature that lets you access messages simply by pressing and holding **1**, bypassing the need for you to enter your pass code).

Note: The voicemail setup process may vary in certain Affiliate areas.

For more information about using your voicemail, see "Using Voicemail" on pages 150-155.

- ▶ Built-in camera allows you to take a picture. You can also send to your friends and family a photo sharing site for storage, upload pictures to a personal Web site, or send images to a site for printing (pages 131-145).

Turning Your Phone ON and OFF

Turning Your Phone ON

To turn your phone on, press **END/O**.

Once your phone is ON, it displays “Looking for service...” which indicates that your phone is searching for a signal. When your phone finds a signal, it automatically enters standby mode – the phone’s idle state. At this point, you are ready to begin making and receiving calls.

If your phone is unable to find a signal after 15 minutes of searching, a Power Save feature is automatically activated. When a signal is found, your phone automatically returns to standby mode.

In Power Save mode, your phone searches for a signal periodically without your intervention. You can also initiate a search for PCS Service by pressing any key (when your phone is turned ON).

Tip: The Power Save feature helps to conserve your battery power when you are in an area where there is no signal.

Turning Your Phone OFF

Press **END/O** for two seconds until you see the powering down animation on the display screen.

Your screen remains blank while your phone is off (unless the battery is charging).

Using the Battery

Battery Capacity

Your PCS Phone is equipped with a Lithium Ion (LiIon) battery. It allows you to recharge your battery before it is fully drained. The battery provides approximately 2.8 hours of continuous digital talk time (1.4 hours in analog) or approximately 10.7 days of continuous digital standby time (14 hours in analog).

When the battery reaches 5% of its capacity, the battery icon  appears. When there are approximately five minutes of talk time left, the phone sounds an audible alert and then powers down.

Note: Long backlight settings, searching for service, vibrate mode, and browser use affect the battery’s talk and standby times.

Tip: Be sure to watch your phone’s battery level indicator and charge the battery before it runs out of power.

Installing the Battery

Your PCS Phone comes with a LiIon battery. Follow these steps to install it:

1. Place the battery into the space beneath the antenna with the metal contacts at the bottom, facing downward.
2. Gently press down until it’s in place and the battery release latch snaps.

Removing the Battery

To remove your battery, follow these easy steps:

1. Make sure the power is off so that you don’t lose any stored numbers or messages.
2. Push the battery release latch up and hold the battery.
3. Then pull it up and out at a 45-degree angle.

Charging the Battery

Your PCS Phone comes with a rechargeable battery. You should charge the battery as soon as possible so you can begin using your phone.

Keeping track of your battery's charge is important. If your battery level becomes too low, your phone automatically turns off and you will lose all the information you were just working on. For a quick check of your phone's battery level, glance at the battery charge indicator located in the upper-right corner of your phone's display screen. If the battery charge is getting too low, the battery icon  appears and the phone sounds a warning tone.

Always use a Sprint-approved desktop charger, travel charger, or vehicle power adapter to charge your battery.

Warning! Using the wrong battery charger could cause damage to your phone and void the warranty.

Using the Travel Charger

To use the travel charger provided with your phone:

1. Plug the travel charger into a wall outlet.
 2. Plug the other end of the travel charger into the bottom of your phone (with the battery installed).
- ▶ Charging when your phone is turned on:
The battery icon  appears on the display while charging. The battery icon turns to  when charging is complete.
 - ▶ Charging when your phone is turned off:
The battery icon  appears, and the message "BATTERY CHARGING-Power Off." is shown on the display while charging. When the battery is completely discharged, you may wait for several minutes until the message is shown on the display. The battery icon turns to , and message changes to "CHARGING COMPLETE-Power Off." when charging is complete.

It takes approximately 3.5 hours to fully recharge a completely rundown battery. With the Sprint-approved Lilon battery, you can recharge the battery before it becomes completely run down.

Displaying Your Phone Number

Just in case you forget your phone number, your PCS Phone can remind you.

To display your phone number:

1. Press  to access the main menu.
 2. Highlight **Phone Info** and press .
 3. Highlight **Phone# UserID** and press .
- ▶ User ID also appears on the display if you sign in.

Note: To access the phone's main menu, press  from standby mode. Menu items may be selected by highlighting them with the Navigation key and pressing , or you can press the number corresponding to the menu item on your keypad.

Making and Answering Calls

Making Calls

Your PCS Phone offers many different ways to make calls, including PCS Voice Command™ (pages 193-195), Speed Dialing (pages 92-93), and using Call History (pages 71-75).

To make a call using your keypad:

1. Make sure your phone is on.
2. Enter a phone number. (If you make a mistake while dialing, press  to erase one digit at a time. Press and hold  to erase the entire number.)
3. Press . (To make a call when you are roaming and Call Guard is enabled, press , highlight **Roam Call** and press . See "Call Guard" on page 65.)
4. When you're finished, press .

Tip: To redial your last outgoing call, press  twice.

Tip: When making calls off the enhanced Sprint Nationwide PCS Network, always dial using 11 digits (1 + area code + phone number).

Important: When you use your PCS Phone to maximize performance, extend the antenna and do not touch the antenna (see pages 201-202).

Answering Calls

1. Make sure your phone is on. If your phone is off, incoming calls go to voicemail.
2. When a call comes in, answer the call by pressing **TALK**. Depending on your settings, your PCS Phone notifies you of incoming calls in the following ways:
 - ▶ The phone rings or vibrates.
 - ▶ The LED flashes.
 - ▶ The backlight illuminates.
 - ▶ The screen displays an incoming call message.
 - ▶ If available, the phone number of the caller is displayed.
 - ▶ If the phone number is in your Internal Phone Book, the Phone Book entry's name is displayed.

The following options are also displayed by pressing **MENU OK**. To select an option, highlight it and press **MENU OK**.

- ▶ **Call Guard** to answer the call while you are in roaming. See "Call Guard" on page 65.
- ▶ **Answer** to answer the call.
- ▶ **Don't Answer** to hang up the incoming call and return to Web while you are in the Web operation. (This feature appears when PCS Vision access is dormant.)

- ▶ **Screen Call** to answer the call by using pre-recorded announcement. (This feature appears when you are in Sprint Service area or digital roaming area.) See pages 127-129 for setting up.
- ▶ **Quiet Ringer** to mute the ringer. (This feature appears when the ringer is set.)

To answer a call when you are roaming and Call Guard is enabled, you must press **MENU OK**, highlight **Answer** and press **MENU OK** to answer the call. See "Call Guard" on page 65.

Note: If your phone is off, incoming calls go to voicemail.

3. To disconnect the call, press **END/⓪**.

Changing Ringer Volume

To change the ringer volume, adjust the Volume keys when the phone is in Standby mode.

Note: To change the ringer volume from the main menu, see "Adjusting the Phone's Volume Settings" on page 34.

Adjusting Volume During a Conversation

Whether you need to hear more or less of a conversation, adjust the Volume keys or press **▲** or **▼** of the Navigation key during a call.

Muting a Call

There are times when it's necessary to mute a call so that your caller does not hear you or certain background noise.

To use this function during a call:

- ▶ Press **MENU OK**, highlight **Mute** and press **MENU OK**. When the phone is muted, "**Mute**" appears on the display.

To unmute a call:

- ▶ Press **MENU OK**, highlight **Unmute** and press **MENU OK**.

Missed Call Notification

When an incoming call is not answered, your phone displays the Missed Call Notification. You can view the number of Missed Calls and the last caller's name on the screen.

To call the last missed call:

- ▶ Simply press **TALK**.

To display the list of Missed Calls:

Press any key except **TALK**, then press **View** (left softkey).

To make a call from the list, highlight an entry you wish to call and press **TALK**.

- ▶ You cannot return calls to entries listed as No Caller ID.

Note: If the phone is locked, you need to press **Unlock** (left softkey), then enter the lock code and press **View** (left softkey).

Calling Emergency Numbers

You can place calls to 911 (dial **9** **1** **1** and press **TALK**), even if your phone is locked or your account is restricted. Once the dial is made, you will enter Emergency mode. The phone tries to dial to 911 automatically until the dial will be connected. While you are in the Emergency mode, all phone calls can be received.

To exit from the Emergency mode, follow these instructions:

1. Press **END/O**.
2. Press **MENU OK** to display the options.
3. Highlight **Exit Emergency** and press **MENU OK**.

Dialing Options

Dialing options are displayed when you press **MENU OK** after entering numbers in the Standby mode.

To select an option, highlight it and press **MENU OK**.

- ▶ **Call** to dial the phone number. (If you are roaming and have the Call Guard feature activated, you need to take an extra step. See "Call Guard" on page 65.)
- ▶ **Save Phone#** to save the phone number in your Internal Phone Book. (See "Saving a Phone Number" on page 24.)
- ▶ **[H] Hard Pause** to insert a hard pause. (See "Dialing and Saving Phone Numbers With Pauses" on page 25.)
- ▶ **[12] 2-Sec. Pause** to insert a 2-second pause. (See "Dialing and Saving Phone Numbers With Pauses" on page 25.)

TTY Use With PCS Service From Sprint

A TTY (also known as a TDD or Text Telephone), is a telecommunications device that allows people who are deaf or hard of hearing, or who have speech or language disabilities, to communicate via a telephone.

Your phone is compatible with selected TTY devices. Please check with the manufacturer of your TTY device to ensure that it supports digital wireless transmission. Your phone and TTY device will connect via a special cable that plugs into your phone's Headset Jack. If this cable was not provided with your TTY device, contact your TTY device manufacturer to purchase the connector cable.

When establishing your PCS Service, please call PCS Customer Service Solutions™ via the state Telecommunications Relay Service (TRS) by first dialing **7 1 1 TALK**. Then provide the state TRS with this number: 866-727-4889.

To turn TTY mode On or Off:

1. From the Standby mode, press **# # 8 8 9**.
 2. Press **MENU OK**.
 3. Highlight **Save Phone#** and press **MENU OK**.
 4. Highlight **Accessibility** and press **MENU OK**.
 5. Select **TTY On** or **TTY Off** and press **MENU OK**.
- Press **Info** (right softkey) during step 5 above for instruction.

Note: When you connect TTY devices, your phone will display  in TTY mode.

Note: If TTY mode is enabled, the audio quality of non-TTY devices connected to the headset jack may be impaired.

IMPORTANT NOTICE: 911 Emergency Calling

Sprint recommends that TTY users make emergency calls by other means including Telecommunications Relay Services (TRS), analog cellular, and landline communications. Wireless TTY calls to 911 may be corrupted when received by public safety answering points (PSAPs) rendering some communications unintelligible. The problem encountered appears related to TTY equipment or software used by PSAPs. This matter has been brought to the attention of the FCC, and the wireless industry and PSAP community are currently working to resolve this.

Setting Your Phone's Security

In This Section

- ▶ Accessing the Security Menu
 - ▶ Locking Your Phone
 - ▶ Unlocking Your Phone
 - ▶ Using Special Numbers
 - ▶ Security Features for PCS Vision™
-

By adjusting the security settings on your PCS Phone, you receive peace of mind without sacrificing flexibility. With several options available, you can customize your phone to meet your personal needs.

Accessing the Security Menu

You must enter your lock code to view the Security menu.

To access the Security menu:

1. Press **MENU OK** to access the main menu.
2. Highlight **Settings** and press **MENU OK**.
3. Highlight **Security** and press **MENU OK**.
4. Enter your lock code.

Tip: If you can't recall your lock code, try using the last four digits of either your Social Security number or PCS Phone Number or try 0000. If none of these work, call PCS Customer Service Solutions at 1-888-211-4PCS (4727).

Locking Your Phone

When your phone is locked, you can only receive incoming calls or make calls to 911, PCS Customer Service Solutions, or special numbers.

To lock your phone:

1. From the Security Menu display (See “Accessing the Security Menu” on page 54), highlight **Lock Phone** and press **MENU OK**.
2. Highlight **Lock Now** or **On Power-up** and press **MENU OK**.
3. Depending on your preference, highlight either **Full Lock** or **Except Incom.Calls** and press **MENU OK**.
 - ▶ **Full Lock:** All phone calls except for Emergency#, **x 2** (PCS Customer Service Solutions) or Special #s cannot be made. No phone calls can be received except for Special #s.
 - ▶ **Except Incom.Calls:** All phone calls except for Emergency#, **x 2** (PCS Customer Service Solutions) or Special #s cannot be made, but all incoming calls can be received.

Tip: If you want to cancel the “On Power-up” setting before turning the phone off, select **Unlocked** during step 2 above.

Unlocking Your Phone

To unlock your phone:

1. Press **Unlock** (left softkey).
2. Enter your lock code.

Changing the Lock Code

To change your lock code:

1. From the Security Menu display (See “Accessing the Security Menu” on page 54), highlight **Others** and press **MENU OK**.
2. Highlight **Change Lock** and press **MENU OK**.
3. Enter new lock code, “1234” for example, in the box under **New Code**.
4. Reenter the new code in the box under **Reenter Code**.

Calling in Lock Mode

You can place calls to 911 and to your special numbers when in lock mode.

To place an outgoing call in lock mode:

- ▶ To call an emergency number, special number, or PCS Customer Service Solutions, enter the phone number and press **TALK**.

Restricting Calls

You can restrict which phone numbers you can dial or receive calls from. (The Restrict Calls setting does not apply to 911 or PCS Customer Service Solutions.)

To restrict calls:

1. From the Security Menu display (See “Accessing the Security Menu” on page 54), highlight **Others** and press .
2. Highlight **Limit Use** and press .
3. Select the menu under **Outgoing Calls** or **Incoming Calls** and press .
4. Highlight your desired option and press .

Options:

- ▶ **Allow All:** You can make or receive all calls.
- ▶ **Phone Book Only:** Only Phone Book entries, Voicemail or Special #s (see the next page) are available to make or receive calls.
- ▶ **Special #s Only:** Only three special numbers' entries are available to make or receive calls.
- ▶ To unrestrict all calls, select **Allow All** during step 4 above.

Note: Restricted incoming calls are forwarded to voicemail.

Using Special Numbers

You can save three special numbers in addition to your Internal Phone Book entries (the same number may be in both directories). You can make and receive calls from special numbers even when your phone is locked.

To add or replace a special number:

1. From the Security Menu display (See “Accessing the Security Menu” on page 54), highlight **Others** and press .
 2. Highlight **Special #s** and press .
 3. Highlight the box under the entry number and press .
 4. Enter the number you wish to add and press .
- or -
- Press  (right softkey), then highlight **From Ph. Book** or **Voicemail** and press .

To insert pauses into a number:

1. From step 4 above, enter the phone number and press  (right softkey) for the options.
2. Highlight **Hard Pause**, **2-Sec. Pause**, or **Hyphen** and press .
3. Finish entering the rest of the numbers and press .

Note: During Speed Dial entry, there are no Speed Dial options associated with special numbers.

Erasing the Internal Phone Book

To erase all the names and phone numbers in your Internal Phone Book:

1. From the Security Menu display (See “Accessing the Security Menu” on page 54), highlight **Erase Ph. Book** and press .
2. If you're sure you want to erase your Phone Book, highlight **Yes** and press .

Erasing the Downloads

To erase all data downloaded from the Web:

1. From the Security Menu display (See “Accessing the Security Menu” on page 54), highlight **Erase D/L** and press .
2. If you're sure you want to erase all data downloaded from the Web, highlight **Yes** and press .
- ▶ If you have assigned downloaded data, the function returns to its default setting.

Resetting Your Phone

Resetting the phone restores all the factory defaults, including the ringer types and display settings. The Internal Phone Book, Call History, Scheduler, and Messaging are not affected.

To reset your phone:

1. From the Security Menu display (See “Accessing the Security Menu” on page 54), highlight **Reset Phone** and press .
2. If you're sure you want to reset your phone, highlight **Yes** and press .

Resetting Your Pictures Account

You can use this feature when other people use your phone. With this feature, other people cannot use your account without your password.

To reset your Pictures Account:

1. From the security menu display (See “Accessing the Security Menu” on page 54), highlight **Reset Pictures** and press .
2. If you're sure you want to reset picture account, highlight **Yes** and press .

After resetting, you are prompted to reenter the password when you use Online Pictures.

Note: Your account will be locked if you enter wrong password 10 times after resetting your account. In this case, please contact Sprint Support.

Resetting and Locking Your Phone through SMS

When your phone is lost or stolen, you can erase your important personal information (such as phone book entries, call history, and messages) and lock your phone by sending a special formatted SMS message to your phone.

From your computer, log on to www.sprintpcs.com, and send a message in the following format:

\\RESET **<Passcode>** RESET

<Passcode> – your defined passcode.

Default Passcode is 11-digit ESN (Electronic Serial Number) which is written on the package or phone itself.

The locked phone will display the following message:

“If found, please call PCS Customer Solutions 1-888-211-4727.”

To activate this feature, the following presetting is required:

1. Press  to access the main menu.
2. Highlight **Settings** and press .
3. Highlight **Security** and press .
4. Enter your lock code.
5. Highlight **Others** and press .
6. Highlight **Found Me** and press .
7. Highlight **Reset/Lock** and press .
8. Select **Enable** and press .

To unlock a phone that has been locked through SMS, bring the phone to Sprint Retail Store.

Changing the Passcode

To change the passcode for the special formatted SMS messages:

1. Press  to access the main menu.
2. Highlight **Settings** and press .
3. Highlight **Security** and press .
4. Enter lock code.
5. Highlight **Others** and press .
6. Highlight **Found Me** and press .
7. Highlight **Chg Passcode** and press .
8. Enter new passcode in the box under **New Passcode** (11 digits).
9. Reenter the new passcode in the box under **Reenter Code**.

Controlling Your Roaming Experience

In This Section

- Understanding Roaming
 - Setting Your Phone's Roam Mode
 - Controlling Roaming Charges Using Call Guard
-

Roaming is the ability to make or receive calls when you're off the enhanced Sprint Nationwide PCS Network. Your new dual band/tri mode PCS Phone works anywhere on the enhanced Sprint Nationwide PCS Network and allows you to roam virtually anywhere in the U.S. where compatible wireless service is available.

This section explains how roaming works as well as special features that let you manage your roaming experience.

Understanding Roaming

Recognizing Icons on the Display Screen

Your phone's display screen always lets you know when you're off the enhanced Sprint Nationwide PCS Network and whether your phone is operating in analog or digital mode. The following chart indicates what you'll see depending on where you're using your phone.

Main LCD	Roaming Indicator	
Sprint Nationwide PCS Network		
Other/Analog Networks		

Sub LCD	Roaming Indicator	Analog Indicator
Sprint Nationwide PCS Network		
Other Digital Networks	Digital Roam	
Analog Networks		Analog Roam

Tip: Remember, when you are using your phone off the Sprint Nationwide PCS Network, always dial numbers using 11 digits (1 + area code + number).

Note: You will pay a higher per-minute rate for roaming calls.

Roaming on Digital Networks

When you're roaming on digital networks, your call quality and security will be similar to the quality you receive when making calls on the enhanced Sprint Nationwide PCS Network. You may not be able to access certain features, such as PCS Vision.

Roaming on Analog Networks

When you roam on analog networks, you will experience a similar quality provided by other analog carriers today. Although some features, such as PCS Vision and PCS Voice Command, will be unavailable, you can still make and receive calls and access voicemail. You will experience a few differences:

- ▶ You are more likely to experience static, cross-talk, fade-out, and dropped calls.
- ▶ Some features which are standard on the enhanced Sprint Nationwide PCS Network, such as call waiting, PCS Vision, and direct international dialing, are unavailable.
- ▶ Though callers can leave voicemail messages while you are roaming, you may not receive notification until you return to the Sprint Nationwide PCS Network. While roaming, you can periodically check your voicemail for new messages by dialing 1+area code+your PCS Phone Number. Press  when you hear your greeting and enter your pass code at the prompt.
- ▶ There are security and privacy risks (eavesdropping and cloning) that exist with conventional analog services today.
- ▶ Your battery needs recharging sooner when you use your phone for analog roaming.

Note: If you're on a call when you leave the Sprint Nationwide PCS Network and enter an area where roaming is available (whether digital or analog), your call is dropped. If your call is dropped in an area where you think PCS Service is available, turn your phone off and on again to reconnect to the Sprint Nationwide PCS Network.

Note: When using your phone in analog mode, the handset may feel warm. This behavior is normal for analog operation.

Setting Your Phone's Roam Mode

Your PCS Phone allows you to control your ability to roam. By using the **Roaming** menu option, you can determine which signals your phone accepts.

Set Mode

Choose from three different settings on your dual band/tri mode phone to control your roaming experience:

1. Press **MENU OK** to access the main menu.
2. Highlight **Settings** and press **MENU OK**.
3. Highlight **Roaming** and press **MENU OK**.
4. Highlight **Set Mode** and press **MENU OK**.
5. To select an option, select it and press **MENU OK**.
 - ▶ **Sprint:** This setting allows you to access the enhanced Sprint Nationwide PCS Network only and prevents roaming on other networks.
 - ▶ **Automatic:** This setting seeks PCS Service. When PCS Service is unavailable, the phone searches for an alternate system.
 - ▶ **Analog:** This setting forces the phone to seek an analog roaming system. The previous setting (Sprint or Automatic) is restored the next time the phone is turned on.

Controlling Roaming Charges Using Call Guard

In addition to the roaming icon, Call Guard alerts you when roaming charges apply. This feature makes it easy to manage your roaming charges by reminding you when you make or receive roaming calls. It also requires you to take an additional step before placing or answering a roaming call. This additional step is not required when you make or receive calls while on the enhanced Sprint Nationwide PCS Network.

To Turn Call Guard On or Off:

1. Press **MENU OK** to access the main menu.
2. Highlight **Settings** and press **MENU OK**.
3. Highlight **Roaming** and press **MENU OK**.
4. Highlight **Call Guard** and press **MENU OK**.
5. Select **On** or **Off** and press **MENU OK**.

To Place Roaming Calls With Call Guard On:

1. From standby mode, dial 1 + area code + the seven-digit number. (You can also initiate a call from the Internal Phone Book, Call History, or Messaging.)
2. Press **TALK** or press **MENU OK**, highlight **Call** and press **MENU OK**.
3. A pop-up message will appear notifying you that roaming rate applies. Press **1** to proceed.
- or -
 1. Press any key to erase the pop-up message, then press **MENU OK**, highlight **Roam Call** and press **MENU OK**.

To Answer Incoming Roaming Calls With Call Guard On:

1. Press **TALK**.
2. A pop-up message will appear notifying you that roaming rate applies. Press **1** to proceed.
- or -
 1. Press **MENU OK**, highlight **Answer** and press **MENU OK**.

Remember if the Call Guard feature is set to **On**, you need to take extra steps to make and receive roaming calls, even if you have selected the **Analog** setting (see page 64).

Navigating Through Menus

Managing Call History

In This Section

► Viewing History

► Call History Options

► Making a Call From Call History

► Saving a Phone Number From Call History

► Erasing Call History

The Call History keeps track of incoming calls, calls made from your PCS Phone, and missed calls. This section guides you through accessing and making the most of your Call History.

Viewing History

You'll find the Call History feature very helpful. It is a list of the last 20 phone numbers (or Internal Phone Book entries) for each calls that you placed, accepted, or missed. Call History makes redialing a number fast and easy. It is continually updated as new numbers are added to the beginning of the list and the oldest entries are removed from the bottom of the list.

Each entry contains the phone number (if it is available) and Internal Phone Book entry name (if the phone number is in your Internal Phone Book). Duplicate calls (same number and type of call) may only appear once on the list.

To view a Call History entry:

1. Press **MENU OK** to access the main menu.
2. Highlight **Call History** and press **MENU OK**.
3. Highlight **Outgoing Calls**, **Incoming Calls**, or **Missed Calls** and press **MENU OK**.

Call History Options

For additional information and options on a particular call, highlight a Call History entry and press **MENU OK**.

This feature gives you the option of selecting:

- ▶ **Call** to dial the phone number.
- ▶ **Save Phone#** to save the phone number, if it is not in your Internal Phone Book (if applicable). If the caller's phone number is already stored in the Phone Book, **Alternate** appears instead of **Save Phone#**. (See "Saving a Phone Number From Call History" on pages 73-74.)
- ▶ **Prepend** to add numbers to the beginning of the phone number. (See "Prepending a Phone Number From Call History" on page 74.)
- ▶ **View** to view the caller's information.
- ▶ **Erase** to erase the entry.

Tip: You can also view the next Call History entry by pressing the right Navigation key or view the previous entry by pressing the left Navigation key.

Making a Call From Call History

To place a call from Call History:

1. Press **MENU OK** to access the main menu.
2. Highlight **Call History** and press **MENU OK**.
3. Highlight **Outgoing Calls**, **Incoming Calls**, or **Missed Calls**.
4. Press **MENU OK**.
5. Highlight the entry you want to call by scrolling through the list.
6. Press **TALK**.
– or –
Press **MENU OK**, highlight **Call** and press **MENU OK**.

Note: You cannot make calls from Call History to entries identified as No ID or Restricted.

Saving a Phone Number From Call History

Your PCS Phone can store up to 300 Internal Phone Book entries. Phone Book entries can store up to a total of 500 phone numbers and each entry's name can contain sixteen characters.

To save a phone number from Call History:

1. Highlight the call history entry you want to save.
2. Press **MENU OK** to display the options.
3. Highlight **Save Phone#** and press **MENU OK**.
4. Highlight appropriate label (Home, Work, Mobile, Pager, Data, Fax, or No Label) and press **MENU OK**.
5. Enter a Name and press **MENU OK**. You can also save the phone number without a name by pressing **MENU OK** from the name entry display, highlight **Yes** and then press **MENU OK**. If you have already stored entries in the Phone Book, you are prompted to select from the following entry modes:
 - ▶ **New Name** to enter a name directory.
 - ▶ **From Ph. Book** to select a name from Phone Book entry list.
6. Press **Save** (left softkey).

After you have saved the number, the new Internal Phone Book entry is displayed. (See “Internal Phone Book Entry Options” on page 78.)

Note: You cannot save phone numbers already in your Internal Phone Book or from calls identified as No ID or Restricted. If the selected entry has already been stored in the phone book, **Alternate** appears. (See “Saving a Phone Number from Call History” on the previous page.)

Prepending a Phone Number From Call History

If you need to make a call from Call History and you happen to be outside your local area code, you can add the appropriate prefix by following these steps:

1. Highlight a call history entry and press .
2. Highlight **Prepend** and press .
3. Enter the digits you want to add to the number.
If you want to save the number, press  and select **Save Phone#** from options. If not, the changes only apply to the current call.

To select an option, highlight it and press .

- ▶ **Call** to dial the phone number.
- ▶ **Save Phone#** to store the phone number in your Internal Phone Book.
- ▶  **Hard Pause** to insert a hard pause. (See “Dialing and Saving Phone Numbers With Pauses” on page 25.)
- ▶  **2-Sec. Pause** to insert a 2-second pause. (See “Dialing and Saving Phone Numbers With Pauses” on page 25.)

Erasing Call History

To erase individual Call History entries, see “Call History Options” on page 72.

To erase Call History:

1. Press  to access the main menu.
 2. Highlight **Call History** and press .
 3. Highlight **Erase History** and press .
 4. Highlight the category you want to erase and press .
 5. Highlight **Yes** and press .
- ▶ You can also select **All Calls** during step 4 above to erase all entries.

Using the Internal Phone Book

In This Section

- ▶ Internal Phone Book Entry Options
 - ▶ Adding a New Internal Phone Book Entry
 - ▶ Finding Internal Phone Book Entries
 - ▶ Selecting a Ringer Type
 - ▶ Dialing PCS Services
-

Now you know the basics that make it easier to stay in touch with people and information. This section helps you make the most of your contacts and time when you are trying to connect with the important people in your life.

Internal Phone Book Entry Options

To access an Internal Phone Book Entry's options, display the entry list, highlight an entry and press **MENU OK**, then select a phone number and press **Options** (right softkey). To select an option, highlight it and press **MENU OK**.

- ▶ **Edit** to edit your desired label.
- ▶ **Call** to dial the phone number. (If you are roaming and have the Call Guard feature activated, you are required to take an extra step to proceed. See "Controlling Roaming Charges Using Call Guard" on page 65.)
- ▶ **Call Alarm** to set the call alarm to the entry (see page 99).
- ▶ **Set Speed Dial** to set the Speed Dial to the entry (see pages 92-93).
- ▶ **Set Voice Dial** to set the Voice Dial to the entry (see page 122).
- ▶ **Prepend** to alter a phone number by adding additional numbers (see page 92).

When you are in edit display, the following options are displayed:

- ▶ **Send PCS Mail** to send an Email (only Email label).
- ▶ **Visit Site** to go to the Web site (only Web label).
- ▶ **Edit** to edit your desired label.
- ▶ **Erase** to erase your desired label.

Tip: You can view the next entry by pressing the right Navigation key or view the previous entry by pressing the left Navigation key.

You can erase the selected entry from the Phone Book list.

1. Press the right Navigation key to display the Phone Book list.
2. Press **Options** (right softkey).
3. Highlight **Erase Entry** and press **MENU OK**.
4. Highlight **Yes** and press **MENU OK**.

Selecting a Character Input Mode

Your PCS Phone provides convenient ways to enter words, letters, punctuation, and numbers whenever you are prompted to enter text (for example, when adding an Internal Phone Book entry).

To change the character input mode:

1. When you display a screen where you can enter text, press the right softkey button.
2. Select a character input mode, highlight it and press **MENU OK**.
 - ▶ **T9 Word** to enter characters using T9 Text Input (see page 80).
 - ▶ **Alphabet** to enter characters by tapping the keypad (see page 81).
 - ▶ **SYMBOL** to enter symbols (see page 82).
 - ▶ **NUMBER** to enter numbers (see page 82).
 - ▶ **CANNED SUFFIX** to enter a canned suffix (see page 83).
 - ▶ **SMILEYS** to enter smiley pictures (see page 83).

Entering Characters Using T9 Text Input

T9 Text Input lets you enter text in your PCS Phone by pressing keys just once per letter. (To select the **T9 Word** mode when entering text, see "Selecting a Character Input Mode" on page 79.)

T9 Text Input analyzes the letters you enter using an intuitive word database and creates a suitable word. (The word may change as you type.) If the word you want does not display after you have entered all the letters, press **Next O** to scroll through additional word selections. To accept a word and insert a space, press **Space#**.

If you make a mistake, press **BACK** to erase a single character. Press and hold **BACK** to delete an entire entry.

Adding a Word to the T9 Database

If a word you want to enter does not display as an option when you are using T9 Text Input, you can add it to the database.

To add a word to the T9 Text Input database:

- 1. Select the **Alphabet** input mode. (See “Selecting a Character Input Mode” on page 79.)
- 2. Enter the word using multi-tap text entry. (See “Entering Characters by Tapping the Keypad” on page 81.) Then press right softkey, highlight **T9Word** and press . The word will appear as an option the next time you scroll through options during T9 Text Input.

For more information about T9 Text Input, visit the Tegic Web site at www.T9.com.

Entering Characters by Tapping the Keypad

To enter characters by tapping the keypad, select the **Alphabet** mode (see “Selecting a Character Input Mode” on page 79). Press the corresponding key until the desired character appears. By default, the first letter of a word is capitalized and following letters are lowercase.

Characters scroll in the following order:

Key	English Sequence	
	Upper Case	Lower Case
1	., @ 1 ? ! * # /	
2	A B C 2	a b c 2
3	D E F 3	d e f 3
4	G H I 4	g h i 4
5	J K L 5	j k l 5
6	M N O 6	m n o 6
7	P Q R S 7	p q r s 7
8	T U V 8	t u v 8
9	W X Y Z 9	w x y z 9
Next 0	0	
Space #	Space	
Shift X	Unshifted One-character- shifted Caps Lock	

In Spanish mode, characters scroll in the following order.

Key	Spanish Sequence	
	Upper Case	Lower Case
1	., @ 1 ¿ ? ¡ * # /	
2	A Á B C 2	a á b c 2
3	D E É F 3	d e é f 3
4	G H I Í 4	g h i í 4
5	J K L 5	j k l 5
6	M N Ñ O Ó 6	m n ñ o ó 6
7	P Q R S 7	p q r s 7
8	T U Ú Û V 8	t u ú ù v 8
9	W X Y Z 9	w x y z 9
Next 0	0	
Space #	Space	
Shift X	Unshifted One-character- shifted Caps Lock	

See page 51 for changing Spanish entering mode.

After a character is entered, the cursor automatically advances to the next space after two seconds or when you enter a character not on the same key.

Using Smart Punctuation

“Smart punctuation” is available while using in T9 mode. It’s a quick and easy way to type email domains, possessive forms and contractions. When you press **1**, T9 displays a period.

However, as you continue to type, T9 determines the appropriate mark based on your word database.

For example, to type “It’s Easy.”

Press **4 8 1 7 Space# 3 2 7 9 1**.

Tip: The upper/lower case can be changed by pressing **Shift**.

Entering Numbers, Symbols, Canned Suffix and Smileys

Entering NUMBER

To enter numbers, select the **NUMBER** mode and press the appropriate key (see “Selecting a Character Input Mode” on page 79).

1. In a text entry field, press the right softkey.
2. Highlight **NUMBER** and press **MENU OK**.
3. Press the corresponding numeric key to enter the number.

Shortcut: Press and hold the corresponding numeric key to enter the number directly.

Entering SYMBOL

To enter symbols, select the **SYMBOL** mode. (See “Selecting a Character Input Mode” on page 79.)

 - ▶ You should have pictures or downloaded data to set Image.

Secret Internal Phone Book Entries

You can hide an entry's phone number(s) by making them secret, which requires your lock code to edit the entry. The entry name is still displayed, but the entry's phone numbers are replaced by "(Secret)".

To make an entry secret:

1. Press ► of the Navigation key.
2. Scroll to the Internal Phone Book entry you want to tag Secret.
3. Press **Options** (right softkey) to display the menu options.
4. Highlight **Set Secret** and press **MENU OK**.
5. Enter the 4-digit lock code.
6. Select **On** and press **MENU OK**.
 - To make an entry public, select **Off** during step 6 above.

Tip: If you can't recall your lock code, try using the last four digits of either your Social Security number or PCS Phone Number, or try 0000. If none of these work, call PCS Customer Service Solutions at 1-888-211-4PCS (4727).

Dialing PCS Services

You must be in digital mode to access PCS Services.

To dial a service:

1. Press **MENU OK** to access the main menu.
2. Highlight **Phone Book** and press **MENU OK**.
3. Highlight **Services** and press **MENU OK**.
4. Highlight **Cust Solutions**, **Dir Assist**, **Account Info**, **Sprint Oper.**, or **VoiceCommand** and press **MENU OK**.
5. Press **TALK**.
 - or –
 - Press **MENU OK**, highlight **Call** and press **MENU OK**.

Storing Special Numbers in the Phone Book

Using the Pause Feature

Generally, when you call an automated system like voicemail boxes or credit card companies, you are required to enter a password or calling card number. Rather than entering the numbers manually each time, you can store the numbers in your Internal Phone Book, separated by special characters called "pauses".

Using Two Different Types of Pauses

There are two different types of pauses that you can use when storing a number in your Internal Phone Book.

- **Hard Pause** causes the phone to stop dialing until you select **Send Tone** or press **TALK**. To display **Send Tone**, press **MENU OK**, highlight **Send Tone** and press **MENU OK**.
- **2-Sec. Pause** waits two seconds before sending the next string of digits.

To insert pauses into a number:

1. Enter the number you want to dial.
2. Press **MENU OK** to display the menu options.
3. Highlight:
 - **Hard Pause** for a hard pause.
 - **2-Sec. Pause** for a timed pause.
 - **Hyphen** for a hyphen (see following section).
4. Press **MENU OK** to insert a pause or manual hyphen.
5. Finish entering the rest of the numbers, then dial or save the entered number. See page 24 for saving.

Using Hyphens

You can add hyphens to your Internal Phone Book numbers, however they are mainly for show. You can insert hyphens manually where you like, or choose automatic hyphenation, which inserts hyphens according to the North American Numbering Plan. Entering a manual hyphen suspends any automatic hyphenation for that number.

Using Different Dialing Methods

Prepend Dialing

Prepend dialing allows you to alter a phone number in your Phone Book by adding additional numbers. For example, if your Internal Phone Book entry was entered without an area code and you are out of town, you can prepend that entry with the appropriate area code.

1. Highlight the phone number stored in Phone Book entry or call history using one of the previously described methods.
2. Press **Options** (right softkey) to display the menu options.
3. Highlight **Prepend** and press **MENU OK**.
4. Enter the digits you want to prepend.
5. Press **TALK**.
– or –
Press **MENU OK** to display the menu options, highlight **Call**, and press **MENU OK**.

Using Speed Dial

With this feature you can dial Internal Phone Book entries with one key press for locations 2-9. Save your memory locations 2-9 for speed dialing or your most commonly used phone numbers. Speed Dial numbers must be stored in your Phone Book to use this feature.

To store a Speed Dial number:

1. Press ► of the Navigation key.
2. Highlight your desired entry by scrolling through the phone book list and press **MENU OK**.
3. Highlight the phone number you want to set as a Speed Dial, and press **Options** (right softkey).
4. Highlight **Set Speed Dial** and press **MENU OK**.
5. Highlight an unassigned number and press **MENU OK**.
– or –

1. Press **MENU OK** to access the main menu.
2. Highlight **Phone Book** and press **MENU OK**.
3. Highlight **Speed Dial #s** and press **MENU OK**.
4. To select a corresponding Speed Dial number from 2-9, highlight an unassigned number and press **MENU OK**.
5. Highlight the entry from the list and press **MENU OK**.
6. Highlight the phone number you want to set as a Speed Dial and press **MENU OK**.

To use Speed Dial:

1. From the Standby mode, press and hold the appropriate key that corresponds to the memory location for approximately two seconds.
– or –
From the Standby mode, press the appropriate key and press **TALK**.

The display confirms that the number has been dialed when it shows **Connecting**.

My PCS Phone Number

To display your phone number:

1. Press **MENU OK** to access the main menu.
2. Highlight **Phone Book** and press **MENU OK**.
3. Highlight **My Phone#** and press **MENU OK**.

Downloading Files

Your PCS Phone has two methods of downloading: from your PC or through the Wireless Web. To use the former, the Multimedia Master is required (sold separately). And also, the PCS Wireless Connection Kit (sold separately) is required to connect the SCP-8100 and a PC. See the following instructions for details on using these two methods for downloading.

Downloading from Your PC with Multimedia Master

You can download images or ringers from your PC by using the Multimedia Master (sold separately). Also, the PCS Wireless Connection Kit (sold separately) is required to connect the SCP-8100 and a PC. By using the SCP-8100 PC Sync menu, you need to set the phone's status to accept the download. See the Multimedia Master User guide for detailed information. You can set the downloaded data to the Phone Book Entry (page 89), Ringer Setting (pages 30-33) or Display Setting (pages 39-40 and 42).

To download the ringer or image file via Multimedia Master:

1. Make sure your phone is in standby mode.
2. For connecting your SCP-8100 to a PC, a USB Cable is included in the PCS Wireless Connection Kit.
3. Confirm the USB port to which the SCP-8100 is attached. Then follow the Multimedia Master User guide.

To end the download

1. Wait for the download to complete.
2. A message prompt appears on the display.
3. Press **END/0**.
4. Highlight **Yes** and press **MENU OK**.
 - ▶ See the Multimedia Master User guide for detailed information.

Using Your Phone's Voice Services

In This Section

- Using Voice-Activated Dialing
- Voice Memos

This section explains the features associated with your phone's Voice Services. The easy-to-follow instructions explain how to use voice-activated dialing and how to record and manage voice memos.

Using Voice-Activated Dialing

In addition to PCS Voice Command™ (see pages 193-195), you can use a Voice Dial tag to automatically dial a phone number in your Internal Phone Book. Your phone can store up to 30 Voice Dial tags. (To create a Voice Dial tag, see “Programming Voice Dial Tag to Your Phone” on page 122.)

To use a Voice Dial tag to call a phone number:

1. Press **TALK** shortly.
2. Follow the voice prompts and recite the entry’s Voice Dial tag into your phone’s microphone.

Note: Record Voice Dial tags in a quiet environment and without the aid of an accessory (for example, a headset or hands-free car kit).

Programming Voice Dial Tag to Your Phone

To program a Voice Dial tag:

1. Press **MENU OK** to access the main menu.
2. Highlight **Voice Service** and press **MENU OK**.

-

Your PCS Phone gives you the ability to take full-color digital pictures, view your pictures using the phone's display, and instantly share them with your family and friends. It's fun and as easy to use as a traditional point-and-click camera – just take a picture, view it on your phone's display, and send it to up to ten people, right from your phone. Your pictures may also be uploaded to a Picture Mail Web site for storage or sent to another Web site for your personal use. Picture quality is similar to what you see on your computer screen.

This section explains the features and options of your phone's built-in PCS Camera.

Taking Pictures

Taking pictures with your phone's built-in PCS Camera is as simple as choosing a subject, pointing the lens, and pressing a key. You can activate Camera mode and take pictures whether the phone is open or closed.

To Take a Picture With the Phone Open:

1. Press  to access the main menu.
2. Highlight **Pictures** and press  to access the Pictures menu.
3. Highlight **Camera** and press  to activate Camera mode.
(Additional user options are available through the Camera mode **Options** menu. See "Camera Mode Options" on page 134 for more information.)

Shortcut: To activate Camera mode, you can also press  twice or just press the Side Camera key (see diagram on page 10).

4. Using the phone's Main LCD as a viewfinder, aim the camera lens at your subject.
5. Hold the camera steady. To take the picture, press , , or the Side Camera key.
6. Press **Keep** (left softkey) to save the picture. Press **Discard** (right softkey) to erase the picture and return to Camera mode.
 - ▶ Once you have kept/saved a picture, you will be in Review/Share mode. You will now be able to share or upload the picture.
 - ▶ To return to Camera mode to take another picture, press .

To Take a Picture With the Phone Closed:

1. Press and hold the Side Camera key to activate Camera mode.
2. Point the camera lens at your subject. You can check the picture framing through the Sub LCD.

Note: When taking a picture with the phone closed, the subject image appears in reverse on the Sub LCD. When you take a picture, it will be saved correctly, that is, not reversed.

3. Press the Side Camera key to take the picture.

4. Press the Side Camera key to save the picture.

Note: The picture will be saved automatically after 30 seconds.

Note: While you are taking a picture, the backlight turns on even if your backlight is set to **Always Off**.

Note: In some cases, the screen may flicker and the stripes may appear on the display under fluorescent lighting.

Creating Your Picture MailSM Password

The first time you use any of the Picture Mail management options involving the Picture Mail Web site you will need to establish a Picture Mail password through your PCS Phone. This password will also allow you to log in to the Picture Mail Web site at www.picturemail.sprintpcs.com to access and manage your uploaded pictures.

To create your Picture Mail password:

1. Press  to access the main menu.
2. Highlight **Pictures** and press .
3. Highlight **Review/Share** and press .

4. Press **Options** (right softkey), highlight **Upload**, and press .
5. Highlight **Upload This** or **Upload All** and press . You will be prompted to create a Picture Mail password.

Note: To access Picture Mail Web site in another way, highlight **Online Pics** and press  from step 3 above.

6. Enter a 4-digit, alpha-numeric password and press .

Tip: Write down your Picture Mail password in a secure place.

7. Please wait while the system creates your account.

Once you have received confirmation that your account has been successfully registered you may upload and share pictures and access the Picture Mail Web site.

Camera Mode Options

When the phone is open and in Camera mode, several user options are available.

- ▶ **Review:** Press **Review** (left softkey) to enter Review/Share mode. From there you can view the captured pictures, view a running count of stored pictures, and more. (See “Review/Share Mode” on pages 138-140.)

Pressing **Options** (right softkey) displays additional user options:

- ▶ **Self-timer:** Activate the camera’s timer function. (See “Setting Self-timer” on page 135 for details.)
- ▶ **Fun Frames:** Select your favorite fun picture frame to decorate your picture and press **MENU OK**.
- ▶ **Color Tone:** Select **Normal**, **Sepia**, **Black & White** or **Negative**. (Default setting is **Normal**.)
- ▶ **Brightness:** Select **Auto** or **Manual** brightness control. If you select **Manual**, press the Navigation key right (Higher) or left (Lower) to select a setting and press **MENU OK** or **OK** (left softkey) to apply the desired setting. (Default setting is **Auto**.)
- ▶ **Shutter Sound:** Select **Default**, **Say “Cheez”** or **Off**. If your phone’s ringer is set to **Silence All**, Shutter Sound is set to **Off**. (Default setting is **Default**.)

Tip: You can also select fun frames from Camera mode by using the left/right Navigation key.

Note: After taking a picture, **Self-timer** and **Fun Frames** settings return to their default settings.

Note: Press the up or down Navigation key to display a picture count at the bottom of the Main LCD. On the same line of the LCD display, **C B** appears if you set a **Color Tone** and **B** appears if you set a **Brightness**.

Setting Self-timer

To activate the Self-timer and get yourself in on the picture:

1. With the phone open and in Camera mode, press **Options** (right softkey).
2. Highlight **Self-timer** and press **MENU OK**.
3. Highlight the length of delay you want the timer to use (**10 seconds** or **5 seconds**) and press **MENU OK**. To deactivate the Self-timer, highlight **Off** and press **MENU OK**.
4. Press **Start** (left softkey) when you are ready to start the timer. **⌚** and a numeric countdown appear on the lower left portion of the Main LCD during the Self-timer countdown.
5. Get ready for the picture. When the timer is down to three seconds, the Self-timer icon will turn red and the phone will begin to beep.
 - ▶ To cancel the Self-timer after it has started, press **Cancel** (right softkey).

Note: While the Self-timer is active, all keys are disabled except **BACK**, **END/⓪** or **Cancel** (right softkey).

Tip: To view a brief summary of Camera, Review/Share, and Picture Wallet use, press **Info** (right softkey) from the Pictures main menu.

Sharing Picture Mail

Once you've taken a picture, you can use the messaging capabilities of your PCS Phone to instantly share it with family and friends. You can send a picture to up to ten people at a time using their email addresses or their Vision-enabled PCS Vision Phone numbers. (You can also share Picture Mail from your phone through your online Picture Mail account. See "Sharing Online Picture Mail" on page 143 for details.)

Sharing Picture Mail from Review/Share Mode

1. From standby mode, press  to access the main menu.
2. Highlight **Pictures** and press  to display the Pictures menu.

Shortcut: Instead of steps 1 and 2 above, press .

3. Highlight **Review/Share** to enter Review/Share mode.
4. From Review/Share mode, use the left/right Navigation key to select the picture you'd like to send and press  (left softkey). Your contact list (phone book) will display.

Note: The first time you share Picture Mail, you will be prompted to establish a Picture Mail Web site account and password. See "Creating Your Picture Mail Password" on page 133 for information.

5. Use the Navigation key to select a recipient and press  to add the selected recipient to the Picture Mail. This will check the box next to the recipient's name.

 - VoiceMemo Erase** to delete the Voice Memo from the Picture Mail (if applicable).
10. Press  (left softkey) to send the Picture Mail.

Sharing Picture Mail from Messaging

You can also share your pictures from your PCS Phone's Messaging menu.

1. Press **MENU OK** to access the main menu.
2. Highlight **Messaging** and press **MENU OK**.
3. Highlight **Share Picture** and press **MENU OK**. (The most recent picture saved to Review/Share mode displays.)

Shortcut: Press the up Navigation key to enter Picture Mail Review/Share menu.

4. Use the left/right Navigation key to select the picture you wish to send and press **Select** (left softkey).

Tip: To display thumbnail pictures, press **Options** (left softkey), highlight **Thumbnail**, and press **MENU OK**.

5. To complete and send the Picture Mail, follow steps 5-10 in "Sharing Picture Mail from Review/Share Mode" on pages 136-137.

Storing Pictures

Your phone can store pictures in two ways:

- ▶ **Review/Share Mode** (see below)
- ▶ **Picture Wallet** (see pages 140-141)

Review/Share Mode

Your phone can store approximately 11 pictures in Review/Share mode, depending on available memory.

When a picture is taken and kept, it is saved to Review/Share mode. You can enter Review/Share mode from the Pictures menu by selecting **Review/Share**. You may also enter Review/Share mode from Camera mode by pressing **Review** (left softkey). (When you take a picture and press **Keep** (left softkey), your phone automatically enters Review/Share mode.) In Review/Share mode, you can view all the pictures you have kept, store selected images in your phone, send pictures to the Picture Mail Web site, delete pictures and access additional picture options.

Press **Options** (right softkey) to display the following options:

- ▶ **Camera** to switch to Camera mode.
- ▶ **Save to Wallet** to save a picture to the Picture Wallet. (See "Picture Wallet" on pages 140-141.)
- ▶ **Upload** to select **Upload This** or **Upload All** to upload a single picture or all pictures saved in Review/Share mode to the Picture Mail Web site. Depending on your settings, you may be prompted to accept a PCS Vision connection.

Note: Saving to Wallet and Uploading each copy pictures from your phone's Review/Share mode to your Picture Wallet or your online Picture Mail account. Pictures which have been saved to your wallet or uploaded to your online account will remain available in Review/Share mode until you erase them.

Note: If this is the first time you have accessed the Picture Mail account, you will be prompted to create your Picture Mail password. See "Creating Your Picture Mail Password" on page 133.

- ▶ **Erase** to select **Erase This** or **Erase All** to erase a single picture or all pictures saved in Review/Share mode.

Note: Erasing pictures will free up memory space in your phone to enable you to take more pictures. Once erased, pictures cannot be uploaded to your online Picture Mail account or saved to the Picture Wallet.

- ▶ **Color Tone** to select a color tone (**Sepia**, **Black & White**, or **Negative**) for the picture.

Note: Once you have changed a picture's color tone, it cannot be returned to its original tone.

- ▶ **Edit Caption** to edit the picture's caption. (Up to 14 characters. See "Selecting a Character Input Mode" on page 79.)
- ▶ **Picture Info** to display information on the selected picture, such as caption, time/date, size, etc.
- ▶ **Thumbnail** to switch the display from full-screen to thumbnail view (up to four pictures per screen). (If the display is already in Thumbnail view, the option will appear as **Expand** to switch from thumbnail to full-screen view.)

Tip: Press the up or down Navigation key to view a picture's caption and number/count (for example 1/14 is the first of 14 stored pictures) at the bottom of the display screen. The Save to Wallet  and Uploaded  icons also appear, if applicable.

Picture Wallet

Your Phone can store up to 60 pictures in the Picture Wallet, depending on available memory.

To save a picture to the Picture Wallet:

1. From Review/Share mode (see “Review/Share Mode” on pages 138-140), use the left/right Navigation key to select a picture you wish to save the Picture Wallet.
2. Press **Options** (right softkey). The Review/Share mode options will display.
3. Highlight **Save to Wallet** and press . A copy of the picture will be saved to the Picture Wallet.

To view pictures stored in the Picture Wallet:

1. Press  to access the main menu.
2. Highlight **Pictures** and press .
3. Highlight **Picture Wallet** and press .
4. Press **Thumbnail** (left softkey). Thumbnail pictures will display (up to four pictures per screen).

5. Using the Navigation key, select a desired picture.
6. To expand the selected picture, press  or **Expand** (left softkey).
7. Press **Options** (right softkey) to display a list of options for the selected picture. To select an option, highlight it and press .
 - ▶ **Incoming Calls** to display the selected picture for all incoming calls.
 - ▶ **Screen Saver** to display the picture as an LCD screen saver.
 - ▶ **Phone Book** to display the picture for incoming calls from a specific internal phone book entry.
 - ▶ **Erase** select **Erase This** or **Erase All** to erase the selected picture or all pictures saved in the Picture Wallet.

Note: Pictures may be assigned to more than one task.

Note: Press the up/down Navigation key to view a picture's file name and picture count at the bottom of the display screen. The Assigned  icon also appears, if applicable.

Managing Picture MailSM

Using the Picture Mail Web Site

Once you have uploaded pictures from your phone to your online Picture Mail account (see “Review/Share Mode” on pages 138-140), you can use your personal computer to manage your pictures. From the Picture Mail Web site you can share pictures, edit album titles and picture captions, organize and move images, and do much more.

You will also have access to picture management tools to improve and customize your pictures. You'll be able to lighten, darken, crop, antique, add comic bubbles and cartoon effects, and use other features to transform your pictures.

To access the Picture Mail Web site:

1. From your computer's Internet connection, go to www.picturemail.sprintpcs.com.
2. Enter your PCS Phone number and Picture Mail password to register. (See “Creating Your Picture Mail Password” on page 133.)

Managing Online Picture Mail From Your PCS Phone

You can use your phone to manage, edit, or share pictures you have uploaded to the Picture Mail Web site. (See “Review/Share Mode” on pages 138-140 for information about uploading.)

Using PCS Service Features

PCS Service Features: The Basics

In This Section

- ▶ Using Voicemail
 - ▶ Using Caller ID
 - ▶ Responding to Call Waiting
 - ▶ Making a Three-Way Call
 - ▶ Using Call Forwarding
-

Now that you've mastered your phone's fundamentals, it's time to explore the calling features that enhance your PCS Service.

Using Voicemail

Setting Up Your Voicemail

All unanswered calls to your PCS Phone are automatically transferred to voicemail, even if your phone is in use or turned off. Therefore, you will want to set up your PCS Voicemail and personal greeting as soon as your PCS Phone is activated.

To set up voicemail:

1. Press and hold .
2. Follow the system prompts to create your pass code, record your greeting, record your name announcement, and choose whether to activate One-Touch Message Access (a feature that lets you press one key to access messages and bypasses the need for you to enter your pass code).

Note: The voicemail setup process may vary in certain Affiliate areas.

Voicemail Notification

There are several ways your PCS Phone alerts you:

- ▶ By displaying a message on the screen.
- ▶ By sounding the assigned ringer type.
- ▶ By the LED blinking red.
- ▶ By displaying  at the top of your screen for voicemail messages or  for Messages.

New Voicemail Message Alerts

When you receive a new voice message, your phone alerts you and prompts you to call your voicemail. To call your voicemail, press . To display your Voicemail menu, press  or  (left softkey).

Important: When you are roaming off the enhanced Sprint Nationwide PCS Network, you may not receive notification of new voicemail messages. It is recommended that you periodically check your voicemail by dialing 1 + area code + your PCS Phone Number. When your voicemail answers, press  and enter your pass code. You will be charged roaming rates when accessing voicemail while roaming off the enhanced Sprint Nationwide PCS Network.

Note: Your phone accepts messages even when it is turned off. However, you are only notified of new messages when your phone is turned on and you are in a PCS Service Area.

Retrieving Your Voicemail Messages

You can review your messages directly from your PCS Phone or from any other touch-tone phone. To dial from your PCS Phone, you can either Speed Dial your voicemail or use the menu keys.

Using One-Touch Message Access:

- ▶ Press and hold . Follow the system prompts.

Using the Menu Keys on Your PCS Phone to Access Your Messages:

1. Press  to access the main menu.
2. Highlight **Voicemail** and press .
3. Highlight **Call Voicemail** and press .

Note: You are charged for airtime minutes when you are accessing your voicemail from your PCS Phone.

Using a Phone Other Than Your PCS Phone to Access Messages:

1. Dial your PCS Phone Number.
2. When your voicemail answers, press .
3. Enter your pass code.

Tip: When you call into voicemail you first hear the header information (date, time, and sender information) for the message. To skip directly to the message, press  during the header.

1. Press and hold **[1]** to access your voicemail. If your voicemail box contains any new or saved messages, press **[x]** to access the main voicemail menu.
2. Following the system prompts, press **[3]** to change your Personal Options.
3. Press **[2]** for Administrative Options.
4. Press **[5]** for Group Distribution Lists.
5. Follow the voice prompts to create, edit, rename, or delete group lists.

PCS Callback

Return a call after listening to a message without disconnecting from voicemail.

1. After listening to a message, press **[8]**.
2. Once the call is complete, you're returned to the voicemail main menu.

Voicemail-to-Voicemail Message

Record and send a voice message to other PCS Voicemail users.

1. From the main voicemail menu, press **[2]** to send a message.
2. Follow the voice prompts to enter the phone number.
3. Follow the voice prompts to record and send your voice message.

Voicemail-to-Voicemail Message Reply

Reply to a voice message received from any other PCS Voicemail user.

1. After listening to a voice message, press **[2]**.
2. Follow the voice prompts to record and send your reply.

Voicemail-to-Voicemail Message Forwarding

Forward a voice message, except those marked "Private," to other PCS Voicemail users.

1. After listening to a message, press **[6]**.
2. Follow the voice prompts to enter the phone number.
3. Follow the voice prompts to record your introduction and forward the voice message.

Voicemail-to-Voicemail Receipt Request

Receive confirmation that your voice message has been listened to when you send, forward, or reply to other PCS users.

1. After you have recorded a message, press **[1]** to indicate you are satisfied with the message you recorded.
2. Press **[4]** to mark receipt requested.
3. Press **[1]** to send your voicemail message.

Continue Recording

- ▶ Before pressing **[1]** to indicate you are satisfied with the message you recorded, press **[4]** to continue recording.

Extended Absence Greeting

When your phone is turned off or you are off the enhanced Sprint Nationwide PCS Network for an extended period, this greeting can be played instead of your normal personal greeting.

1. From the main voicemail menu, press **3** for Personal Options.
2. Press **3** for Greetings.
3. Press **3** to record an Extended Absence Greeting.

Clearing the Message Icon

Your phone may temporarily continue to display the message icon after you have checked your voice and text messages.

To clear the icon from the display screen:

1. Press **MENU OK** to access the main menu.
2. Highlight **Voicemail** and press **MENU OK**.
3. Highlight **Clear Count** and press **MENU OK**.
4. Highlight **Yes** and press **MENU OK**.

Using Caller ID

Caller ID lets people know who's calling by displaying the number of the person calling.

To block your phone number from being displayed for a specific outgoing call:

1. Press **✕ 6 7**.
2. Enter the number you want to call, and press **MENU OK**.
 - ▶ To permanently block your number, call PCS Customer Service Solutions.

Responding to Call Waiting

When you're on a call, Call Waiting alerts you to incoming calls by sounding beeps. Your phone's screen informs you that another call is coming in and displays the caller's phone number (if it is available and you are in digital mode).

To respond to an incoming call while you're on a call:

- ▶ Press **TALK** (or press **MENU OK**, highlight **Flash** and press **MENU OK**). This puts the first caller on hold and answers the second call.
- ▶ To switch back to the first caller, press **TALK** (or press **MENU OK**, highlight **Flash** and press **MENU OK**) again.

Tip: For those calls where you don't want to be interrupted, you can temporarily disable Call Waiting by pressing **✕ 7 0** before placing your call. Call Waiting is automatically reactivated once you end the call.

Making a Three-Way Call

With Three-Way Calling, you can talk to two people at the same time. When using this feature, the normal airtime rates will be charged for each of the two calls.

1. Enter a number you wish to call and press **TALK**.
2. Once you have established the connection, press **TALK** (or press **MENU OK**, highlight **Three-Way Call** and press **MENU OK**) to put the first caller on hold.
3. Enter the second number you wish to call and press **TALK** (or press **MENU OK**, highlight **Call** and press **MENU OK**).
4. When you're connected to the second party, press **TALK** again (or press **MENU OK**, highlight **Flash** and press **MENU OK**) to begin your three-way call.

If one of the people you called hangs up during your call, you and the remaining caller stay connected. If you initiated the call and are the first to hang up, all three callers are disconnected.

Tip: You can also begin a Three-Way Call by displaying a phone number stored in your Internal Phone Book, Call History, or Messaging. To call the third party, press **MENU OK** during step 3 above.

Note: Call Waiting and Three-Way Calling may not be available while roaming off the enhanced Sprint Nationwide PCS Network.

Using Call Forwarding

Call Forwarding lets you forward all your incoming calls to another phone number – even when your phone is turned off. You can continue to make calls from your phone when Call Forwarding is activated.

To Activate Call Forwarding

1. Press **✕ 7 2**.
2. Enter the area code and phone number to which your future calls should be forwarded.
3. Press **TALK**. You will hear a tone to confirm the activation of Call Forwarding.

To Deactivate Call Forwarding

1. Press **✕ 7 2 0**.
2. Press **TALK**. You will hear a tone to confirm the deactivation.

Note: You are charged a higher rate for calls you have forwarded.

PCS VisionSM brings you clarity you can see and hear with always-on, advanced multimedia services. These features, including email, pictures, and games are easy to learn and use and the rich, colorful graphic experience is visually comparable to your home or office computer. Clearly, it's a whole new way to look at wireless.

Web

With Web on your PCS Phone, you will be able to browse full-color graphic versions – not just text versions – of your favorite Web sites, making it easier than ever to stay informed while on the go. Check sports scores, trade stocks, and shop all on your PCS Phone.

Launching the Web

To launch the Web:

1. Press **Web** (left softkey).
- or –
1. Press **MENU OK** to access the main menu.
2. Highlight **Web** and press **MENU OK**.

Net Guard

When you first connect to the Internet, the Net Guard will appear to confirm that you want to connect. This feature helps you avoid accidental connections. You can disable the Net Guard in the future by selecting **Always Auto-Connect** when the Net Guard is displayed.

To change your Net Guard settings:

1. Press **MENU OK** to access the main menu.
2. Highlight **Settings** and press **MENU OK**.
3. Highlight **Vision** and press **MENU OK**.
4. Highlight **Net Guard** and press **MENU OK**.
5. Select **On** or **Off** and press **MENU OK**.
 - ▶ **On** to make the Net Guard appear when connecting to the Internet.
 - ▶ **Off** to avoid the Net Guard when connecting to the Internet.

Note: When enabled, the Net Guard appears only once per session. The Net Guard does not appear if the phone is merely re-connecting due to a time-out.

Your User Name

When you use PCS Vision services, your User name is submitted to identify you to the enhanced Sprint Nationwide PCS Network. The User name is also useful as an address for email as a way to personalize Internet services, and as an online virtual identity.

A User name is typically based on the customer's name and a number, followed by "@sprintpcs.com." For example, the third John Smith to sign up for PCS Vision services might have **jsmith003@sprintpcs.com** as his User name. If you want a particular User name, you can visit www.sprintpcs.com and get the name you want – as long as nobody else has it!

Note: If you already have a PCS Mail User name, that will automatically become your PCS Vision User name.

Your User name will be automatically programmed into your PCS Phone. You don't have to enter it.

Updating Your User Name

When you change the programmed User name and select a new one, you have to update your User name through your PCS Phone.

To update your User name:

1. Press **MENU OK** to access the main menu.
2. Highlight **Settings** and press **MENU OK**.
3. Highlight **Vision** and press **MENU OK**.
4. Highlight **Update Profile** and press **MENU OK**.
5. After the updating processing, your new User name will appear on the display.
 - ▶ If you want to cancel, press **END/0** while processing.

You can sign out of PCS Vision services without turning off your phone; however, you will not have access to all PCS Vision services, including Web and messaging. Signing out will avoid any charges associated with PCS Vision services. While signed out, you can still place or receive phone calls, check voicemail, and use other voice services. You may sign in again at any time.

To sign out of PCS Vision services:

1. Press **MENU OK** to access the main menu.
2. Highlight **Settings** and press **MENU OK**.
3. Highlight **Vision** and press **MENU OK**.
4. Highlight **Disable Vision** and press **MENU OK**.
5. A message will appear. Press **Disable** (right softkey) to confirm that you want to sign out.

To sign in to PCS Vision services:

1. Press **MENU OK** to access the main menu.
2. Highlight **Settings** and press **MENU OK**.
3. Highlight **Vision** and press **MENU OK**.
4. Highlight **Enable Vision** and press **MENU OK**.

Browsing the Web

Browsing the Web is easy once you've learned a few basics. Here are some tips for browsing the Web with PCS Vision:

Softkeys

When browsing the Web, the bottom line of your phone's display contains one or more softkeys. These keys are shortcut controls for navigating around the Web, and they correspond to the softkey buttons directly below the phone's display screen. Depending on which Web sites you visit, the labels on the softkeys may change to indicate their function.

To use softkeys, simply press the desired softkey button. If an additional pop-up menu appears when you press the softkey button, select the menu items using either the up or down of the Navigation key or by highlighting the option and pressing **MENU OK**.

Scrolling

As with other parts of your phone's menu, you'll have to scroll up and down to see everything on some Web sites.

- ▶ Press the Navigation key up and down to scroll line by line or press the Volume keys on the side of the phone to scroll one page at a time.

Selecting

Once you've learned how to use softkeys, you can start navigating Web sites.

- ▶ Select on-screen items by using the Navigation key to highlight the desired item, then press the desired softkey button.

You'll find that the left softkey is used primarily for selecting items. This softkey is often labeled "OK." You can also press **MENU OK** for selecting items.

- ▶ If the items on a page are numbered, you can use your keypad (number keys) to select an item.

Links, allow you to jump to different Web pages, select special functions, or even place phone calls.

- ▶ Select links by highlighting the link and then selecting the appropriate softkey.

Tip: The tenth item in a numbered list may be selected by pressing the **0** key on your phone's keypad, even though the number 0 doesn't appear on the screen.

Going Back

- ▶ To go back one page, press **BACK** on your phone. Note that **BACK** is also used for deleting text when you are entering text.

Going Home

- ▶ To return to the Home Page from any other Web page, highlight **Home** and press **OK** (left softkey).

Going to a Specific Web Site

To go to a particular Web site by entering a URL (Web site address):

1. Launch the Web and press the right softkey.
2. Select **Go to URL** and press the left softkey.
3. Select **Address** and press the left softkey.
4. Press the right softkey, use your keypad to enter the URL of the Web site you wish to go to, and press the left softkey.
5. Press the left softkey to go to the Web site.

Note: Not all Web sites are viewable on your phone.

Creating a Bookmark

Bookmarks allow you to store the address of your favorite Web sites for easy access at a later time.

To create a bookmark:

1. Launch the Web page you want to mark.
2. Press the right softkey to go to the Browser menu.
3. Select **Mark this page** and press the left softkey.

Note: Bookmarking a page does not store the page contents, just its address.

Note: Some pages cannot be bookmarked. Whether a particular Web page may be marked is controlled by its creator.

Accessing a Bookmark

To access a bookmark:

1. Launch the Web and press the right softkey.
 2. Select **Browser Menu** and press the left softkey.
 3. Select **View Bookmarks** and press the left softkey.
 4. Highlight the bookmark you'd like to access and press the left softkey button or  to go to the Web site.
- ▶ You may skip step 2, depending on the page you select.

Editing a Bookmark

1. Launch the Web and press the right softkey.
2. Select **View Bookmarks** and press the left softkey.
3. Select the bookmark you wish to edit and press the right softkey.
4. Select **Edit Address** or **Edit Title**, and press the left softkey.
5. Press the right softkey, use your keypad to edit the address or title, and press the left softkey.
6. To save the bookmark, press the left softkey.

Deleting a Bookmark

1. Access the **View Bookmarks** menu as outlined above in steps 1–2.
 2. Highlight the bookmark you wish to erase and press the right softkey.
 3. Select **Delete** and press the left softkey.
 4. Press the right softkey.
- ▶ If you want to delete all bookmarks, select **Delete All** during step 3 above.

Reloading a Web Page

1. Launch the Web.
 2. To reload (refresh) the current Web page, press the right softkey.
 3. Select **Browser Menu** and press the left softkey.
 4. Select **Refresh this page** and press the left softkey.
- ▶ You may skip step 3, depending on the page you select.

Restarting the Web Browser

If the Web browser appears to be malfunctioning or stops responding, you can usually fix the problem by simply restarting the browser.

1. Launch the Web.
 2. To restart the Web browser, press the right softkey.
 3. Select **Browser Menu** and press the left softkey.
 4. Select **Restart Browser** and press the left softkey.
- ▶ You may skip step 3, depending on the page you select.

Setting Up a Web Connection

Getting Started

Your PCS Phone can connect to a laptop PC to send and receive email, access the Internet or your company's network, and more – without searching for a wall-mounted telephone jack. In just three steps, you can use your connectivity:

1. First, you'll need a PCS Connection Kit™ (sold separately).
 2. Connect your laptop PC to your PCS Phone using a USB port.
 3. Finally, take a few minutes to install the PCS Connection Manager™ Software onto your computer using the CD.
- For complete details on how to install and use the software, refer to the user guide in the PCS Connection Kit™ you purchased.

Placing a Data Call

To place a data call when you're connected to the Web:

1. First, make sure the cable is connected properly.
 2. Open the PCS Connection Manager™ Software on your computer and place the call.
- Once the call successfully connects, your phone displays information on the status of the data call.

Using Special Features During a Web Call

Your phone gives you the ability to use special features while you're on a Web call. They are outlined below:

- **Call Waiting:** If someone tries to reach you while you're connected to the Web, your phone behaves like it is turned OFF. Depending on your service, callers may get your voicemail. Call Waiting is automatically deactivated whenever you place or receive a Web connection call.
- **Accessing Features:** You can still access most of your phone's features while you're connected on a Web connection call. You can navigate the phone's menu system to change or view your phone's features or Internal Phone Book entries. You can also read messages or view the Caller ID records that you received before placing the call.

Ending a Web Call

It's important to note that some of the normal ways to end a call won't work with Web connection calls. You should always close the connection through the application on your computer. Your phone will then return to standby mode.

Messaging

Now you can chat and send and receive email on select PCS Phones. When you chat, you can have a conversation without talking. Join in a Web-based chat room to exchange information on a specific topic or read conversations that others have posted – you can even launch a one-on-one chat for a more in-depth conversation.

Message Types

There are many types of Text Messaging available on your phone. (PCS Voicemail provides voicemail-to-mailbox messaging. For information on using your phone's voicemail feature, see “Using Voicemail” on pages 150-155.)

Messages

These appear on your screen as **Notifications** and include numeric messages (pages), Messages, Updates, and Mail.

New Messages

When you receive a new Message, your phone alerts you. Press **View** (left softkey) to display the message details.

- ▶ Press **Call** (left softkey) to dial the phone number.
- ▶ Press **Go** (left softkey) to go to the Web site.
- ▶ Press **Cancel** (right softkey) to return to the message folder list.

Message Storage

Your PCS Phone can store up to 200 Messages. When the message memory is 90% full, a warning message prompts you to erase messages to obtain additional memory space.

Note: Unread messages will not be automatically deleted when message capacity has been reached. If your phone has 200 messages, any new text messages will be returned.

Displaying Messages

To display a Message from the message notification alert, see “New Messages” on page 168.

To display a Message from the main menu:

1. Press **MENU OK** to access the main menu.
2. Highlight **Messaging** and press **MENU OK**.
3. Highlight **Notifications** and press **MENU OK** (the folder list appears).
4. Highlight **Unfiled** or your defined folder and press **MENU OK**.
5. Highlight the header of the message you want to see and press **MENU OK**.

An icon appears at the left side of each message header. The icons are as follows.

-  New message
-  Urgent message
-  Read message
-  Read Urgent message

If the sender's information has already been stored in the phone book, the corresponding name or phone number appears as the header of the message. If nothing has been stored, the phone number or text that was included in the message appears as a header of the message.

To read other messages:

- ▶ Press the left Navigation key to read the previous message.
- ▶ Press the right Navigation key to read the next message.

Changing the Displaying Font Size of a Message

After you display a Message, press **MENU OK** to display message options.

To adjust the displaying font size:

1. Highlight **Font Size** by scrolling and press **MENU OK**.
2. Highlight your desired font size and press **MENU OK**.

Note: To erase an individual message, see "Message Options" on page 170.

Signing Up for Updates

With Updates, you can have news and information sent directly to your PCS Phone at the times you choose.

To select the information you want to send to your PCS Phone:

1. From your computer, log on to the Internet.
2. Go to the site from which you want to receive information. A few of the sites you can visit are America Online®, Yahoo!®, MSN® and eBay®. (The location where you request updates within each site will vary.)
3. Where indicated on the site, input your 10-digit PCS Phone Number followed by "@messaging.sprintpcs.com." For example: 5551234567@messaging.sprintpcs.com.

Upon completing the registration process, you should begin receiving updates on your PCS Phone as requested.

Short Mail

Using Short Mail

With Short Mail, you can use a person's wireless phone number to send instant text messages from your Vision-enabled PCS Phone to their messaging-ready phone – and they can send messages to you. When you receive a new message, you'll automatically be notified with a one-way text message.

In addition, Short Mail includes a variety of pre-set messages, such as "I'm running late, I'm on my way," that make composing messages fast and easy. You can also customize your own pre-set messages, up to 100 characters, from your PCS Phone or at www.sprintpcs.com.

To send a Short Mail message:

1. Press **MENU OK** to access the main menu.
2. Select **Messaging** and press **MENU OK**.
3. Select **Short Mail** and press **MENU OK**. The browser will launch and go to the Short Mail page.
4. Select **Compose** and press left softkey.
5. Select **To**, enter the wireless phone number of the person to whom you wish to send a message (you can also scroll down to select an existing recipient), and select **Add**.

Note: You must use the right softkey to select the **NUMBER** mode input mode to enter the addressee's phone number.

6. Select **Done** (or add additional recipients and select **Done**).
7. Compose a message or use the pre-set messages or icons.
 - ▶ To type a message, highlight the **Message** box and use your keypad to type a message. Use the right softkey to select a character input mode.
 - ▶ To use a pre-set message or "emoticon," highlight **Insert** and select **Pre-set Msgs** or **Icons**. Select **Go**, then select the message or emoticon you'd like to insert and select **OK**.
8. Review your message and select **SEND** (left softkey).

To read a Short Mail message:

1. When you receive a short mail message, you will see “New” on your display screen. Press **View** (right softkey).
2. You will then see “New Short Mail. Select “Go” to read it.” on your display screen. Press **Go** (left softkey). The browser will launch.
3. Scroll to the new short mail message and press left softkey. Unread short mail messages will be marked with an asterisk (*).

Note: The last four digits from the PCS Phone Number of the person who sent you a short mail message appear before the message text.

To reply to a Short Mail message:

1. While the message is open, select **Reply**.
2. Compose your reply or use the pre-set messages or icons.
 - ▶ To type a reply, highlight the **Message** box and use your keypad to type a message. Use the right softkey to select a character input mode.
 - ▶ To use a pre-set message or “emoticon,” highlight **Insert** and select **Pre-set Msgs** or **Icons**. Select **Go**, then select the message or emoticon you’d like to insert and select **OK**.
3. Review your reply and select **SEND** (left softkey).

To add and/or edit Pre-Set Messages:

1. Press **MENU OK** to access the main menu.
2. Select **Messaging** and press **MENU OK**.
3. Select **Short Mail** and press **MENU OK**.
4. Select **Setting** and press the left softkey.
5. Select **Pre-set Messages** and press the left softkey.
6. From the Pre-set Messages menu, select **(Add New)** or the message you wish to edit.
7. Enter your new message or changes and select **Save** (left softkey).

Note: You may also add or edit Pre-Set Messages in the “Manage My Account” area at www.sprintpcs.com.

PCS Mail

Using PCS Mail

With PCS Mail, you can set up an account at no additional charge and perform many of the typical email functions from your PCS Phone that you can from your personal computer.

You can manage your PCS Mail Account from your PCS Phone or from your personal computer at www.sprintpcs.com. You can also access other select email providers from the Web.

Accessing PCS Mail Messages

To access PCS Mail Messages:

1. Press **MENU OK** to access the main menu.
2. Select **Messaging** and press **MENU OK**.
3. Select **PCS Mail** and press **MENU OK**. If you’re a first-time user, your phone will prompt you to set up your email account by establishing a User name and password.
4. To view your messages, select **Inbox** and press **OK** (left softkey).
5. Scroll to select the message you wish to read and press the left softkey.
6. Once you’ve read a message, use the quick actions at the end of each message (**Erase**, **Reply**, **Reply All**, or **Next Message**) or select **Menu** for a full list of options.

Composing PCS Mail Messages

To compose PCS Mail Message:

1. From the PCS Mail menu (see steps 1-3 above), select **Compose**.
2. Select **Add Name** to enter the address of the person to whom you’re sending a message and press the left softkey.
3. Select **Next** to enter the subject and your message.
4. Select **Send** when your message is ready to be sent.

Chat

PCS Vision gives you the ability to join wireless chatrooms from your PCS Phone. Send text messages and icons to chatroom participants or launch a one-on-one (private) chatroom.

To access a chatroom from the browser:

1. Press **MENU OK** to access the main menu.
2. Highlight **Web** and press **MENU OK**.
3. Select **Messaging**.
4. Select **CHAT**.
5. Select **Enter**. You will see a disclaimer for Wireless Chat. Select **I Agree** to enter the Chat menu.
6. Select a chat room from the menu (for example, “Friends” or “Singles”).
7. Use your keypad to enter a nickname and select **Enter**. Once in the chatroom, you may scroll through the postings to read messages from other chatroom participants.

Note: To avoid inadvertent data usage charges, you should log out of chatrooms when you are ready to exit.

To post a message:

1. Select **Add text**.
2. Enter your message.
3. Select **Send**.

To set up a private chatroom:

1. Select **1->1**.
2. Select a chatter with whom you’d like to launch a private chatroom.

To exit a chatroom:

- ▶ Select **Leave Room**.

Pictures

Your phone gives you the ability to capture images, view images using the phone’s display, and instantly send images to your friends and family. It’s as easy to use as a traditional point-and-click camera. Besides sending your pictures to friends and family, you can also send them to a Pictures Web site for storage, upload them to a personal Web site. Cameras can take and store images. This service requires a special camera phone. See your PCS Representative for further details.

Taking and Viewing Pictures

1. Use your camera phone to take a picture.
2. View pictures on your phone. Select the pictures you would like to share and transfer to the Pictures Web site.
3. Upload your images to your Pictures vault for future reference.

Sending Pictures to Others From Your PCS Phone

1. Press **MENU OK** to access the main menu.
2. Highlight **Pictures** and press **MENU OK**.
3. Highlight **Online Pics** and press **MENU OK**. The first time you go to the site, you will need to register.
4. Select **InBox** and scroll to select the desired picture.
5. Type in the email address and add your personal message, then press **MENU OK**.

Accessing the Site From Your Desktop Computer

- ▶ From your computer, log on to www.pictures.sprintpcs.com. (You will need to register through your PCS Phone to view the Pictures Web site.)

From the Web site, you can share pictures, edit album titles and picture captions, organize and move images, and much more.

Picture management tools are also available to improve or customize your pictures. You’ll be able to lighten, darken, crop, antique, add comic bubbles and cartoon effects, and use other features to transform your pictures.

Downloading Games, Ringers, and Screen Savers

With PCS Vision and your new PCS Phone, you have access to a wide variety of downloadable ringers, screen savers, and games. While each type of download involves a different file type, the basic method for accessing and downloading files is the same.

Accessing the Download Menus

To access the PCS Vision download menus:

1. Press **MENU OK** to access the main menu.
2. Highlight **Downloads** and press **MENU OK**.
3. Highlight the type of file you wish to download (**Games, Ringers, or Screen Savers**) and press **MENU OK**.
4. Highlight **Get New** and press **MENU OK**. The browser will launch and take you to the corresponding download menu.

To access the PCS Vision download menus from the Web browser:

- ▶ From the home page, select **Games, Ringers, or Screen Savers** to go to the corresponding download menu. (For more information on navigating the Web, see “Browsing the Web” on pages 162-165.)

Selecting an Item to Download

From the download menus, items available for download may be selected from three folders:

- ▶ **Today** displays a rotating selection of featured items.
- ▶ **All** displays all of the currently available downloads arranged in alphabetical order. (There may be several pages of downloads in the list; select **Next 10** to see additional listings.)
- ▶ **Genre** displays a list of download themes, such as “Movie/TV Themes” for Ringers and “College Logos” for Screen Savers, along with the number of items available within each genre. Select a genre to view the items.

You may also search for an item by selecting the  (search) icon and using the keypad to enter your search criteria (for example, enter “Mi” to find Michigan).

Downloading an Item

Once you’ve decided on an item to download, highlight it and press **MENU OK** or **OK** (left softkey). You will see a summary page for the item including its title, the vendor, the download detail, the file size, and the cost. Links allow you to view the **License Details** page, which outlines the price, license type, and length of license for the download, and the **Terms of Use** page, which details the Premium Services Terms of Use and your responsibility for payment.

To download a selected item:

1. From the information page, select **Buy** (or **Get It** in the case of a free item). If you have not previously purchased an item, you will be prompted to enter your account password and create your purchasing profile.
2. You will see a **Confirmation** screen confirming your purchase and informing you that the charge will be added to your next PCS Invoice. You will also be informed that the downloaded item has been stored in the **MyVault** page.
3. Select **Download** to initiate the download of the item.
4. You will see a series of browser screens, ending with the **Download** screen. This screen lists the item name, vendor, version, size, and type. Press **Next** (right softkey) to download the item.
5. You will see another series of screens detailing the download initiation, progress (in kilobytes), and saving process. When the **Completed** screen appears, the item has been successfully downloaded to your phone.
 - ▶ Press **Use** (left softkey) to assign the downloaded item (or to play, in the case of a game).
 - ▶ Press **Shop** (right softkey) to look for other items to download.
 - ▶ Press **END/O** to quit the browser and return to standby mode.

Games

You can play a variety of entertaining and graphically-rich games on your PCS Phone. New games are easy to download and play.

Tip: For complete instructions on downloading, see “Downloading Games, Ringers, and Screen Savers” on pages 182-183.

Downloading Games

1. Press **MENU OK** to access the main menu.
2. Highlight **Downloads** and press **MENU OK**.
3. Highlight **Games** and press **MENU OK**.

8. From the Download screen, press **Next** (right softkey) to download the ringer. When the Completed screen appears, the ringer has been successfully downloaded to your phone.

Note: You may store total of 512KB downloaded data on your phone. Additional downloads will be stored in your personal vault.

Assigning Downloaded Ringers

Downloaded ringers may be assigned directly from the Downloads menu and are also available through the Settings menu.

To assign a downloaded ringer through the Settings menu, see “Selecting Ringer Types for Voice Calls” on page 30, “Selecting Ringer Types for Voicemail” on page 31, “Selecting Ringer Types for Messages” on page 31, “Selecting Ringer Types for Calendar” on page 32, “Setting a Start-up/Power-off Tone” on page 33 or “Selecting a Ringer/Image Type for an Entry” on page 89.

To assign a downloaded ringer from the Downloads menu:

1. Press **MENU OK** to access the main menu.
2. Highlight **Downloads** and press **MENU OK**.
3. Highlight **Ringers** and press **MENU OK**.
4. Highlight the downloaded data you want to confirm and press **MENU OK**.
5. Select **Assign** from the options and press **MENU OK**.
6. Highlight **Voice Calls**, **Voicemail**, **Messaging**, **Calendar**, **Start-up Tone**, **Power-off Tone**, or **Phone Book**, and press **MENU OK**. The following two items require an extra step:
 - ▶ **Voice Calls:** highlight **With Caller ID** or **No Caller ID**, and press **MENU OK**.
 - ▶ **Phone Book:** highlight your desired entry and press **MENU OK**.
7. A message appears confirming the data has been assigned.

Note: You may assign a ringer to more than one type of call.

Purchasing Ringers

You can purchase ringers directly from your phone by following the instructions on page 183 or through www.sprintpcs.com.

Note: Your personal vault saves items for up to 90 days. Once an item has been downloaded to your phone, you may keep the file for as long as you like.

Screen Savers

Tip: For complete instructions on downloading, see “Downloading Games, Ringers, and Screen Savers” on pages 182-183.

Downloading Screen Savers (Images)

To download an available Screen Saver (Image) to your phone:

1. Press **MENU OK** to access the main menu.
2. Highlight **Downloads** and press **MENU OK**.
3. Highlight **Screen Savers** and press **MENU OK**.
4. Highlight **Get New** and press **MENU OK**. The browser will launch and take you to the Screen Savers download menu.
5. Use your Navigation key to highlight and select a Screen Saver you wish to download. (For more information on navigating the Web, see “Browsing the Web” on pages 162-165.)
6. From the item information page, select **Buy**. If you have not previously purchased an item, you will be prompted to enter your account password and create your purchasing profile.
7. A confirmation page will notify you that the Screen Saver has been purchased and is stored in the **My Vault** folder. To download the Screen Saver, select **Download**.
8. From the Download screen, press **Next** (right softkey) to download the Screen Saver. When the Completed screen appears, the Screen Saver has been successfully downloaded to your phone.

Note: You may store total of 512KB downloaded data on your phone, depending on the file sizes. Additional downloads will be stored in your personal vault.

Assigning Downloaded Screen Savers (Images)

Downloaded Screen Savers may be assigned directly from the Downloads menu and are also available through the Settings menu.

To assign a downloaded Screen Saver through the Settings menu, see “Changing the Display Screen” on page 39, “Changing the Display for Incoming Calls” on page 40, “Changing the Screen Saver” on page 42 or “Selecting a Ringer/Image Type for an Entry” on page 89.

To assign a downloaded Screen Saver from the Downloads menu:

1. Press **MENU OK** to access the main menu.
2. Highlight **Downloads** and press **MENU OK**.
3. Highlight **Screen Savers** and press **MENU OK**.
4. Highlight the downloaded data you want to confirm and press **MENU OK**.
5. Select **Assign** from the options and press **MENU OK**.
6. Highlight one of **Incoming Calls**, **Screen Saver** or **Phone Book**, **Standby**, **Outgoing Calls**, or **Service Search**, and press **MENU OK**.
The following item needs an extra step:
▶ **Phone Book:** highlight your desired entry and press **MENU OK**.
7. A message appears confirming the data has been assigned.

Note: Depending on the data, you can select where to assign the data:
Image data: **Incoming Calls**, **Screen Saver**, or **Phone Book**.
Animation data: **Standby**, **Outgoing Calls**, or **Service Search**.

Note: You may assign a Screen Saver to more than one task.

Purchasing Screen Savers

You can purchase Screen Savers directly from your phone by following the instructions on page 183, or through www.sprintpcs.com.

Note: Your personal vault saves items for up to 90 days. Once an item has been downloaded to your phone, you may keep the file for as long as you like.

PCS Business ConnectionSM Personal Edition

PCS Business ConnectionSM Personal Edition is designed to offer secure wireless access to both Microsoft[®] Outlook[®] and Lotus Notes[®].

PCS Business Connection Personal Edition delivers the following features:

- ▶ **Business email access:** Read, reply to, forward, delete, and compose your company email.
- ▶ **Company directory and contacts:** Search, view, call, and email contacts from your company's directory. Do all this and add/edit your personal contacts.
- ▶ **Work calendar:** Accept and decline meetings, view daily summaries and details, and navigate to various dates.
- ▶ **Files/information on your PC:** Browse folders, download, and view documents from any device using a PC browser or Pocket Internet Explorer.

To use PCS Business Connection Personal Edition, install PCS Business Connection Personal Edition software on your work PC. This allows data to be securely retrieved in real-time by your wireless device when connected to the enhanced Sprint Nationwide PCS Network. There is a monthly charge for PCS Business Connection and usage charges will also apply.

When your work PC isn't on, you can share connections with your co-workers so that you always have access to your email, calendar, and contacts. Your data remains secure behind the corporate firewall and any changes you make on your wireless device are instantly updated on your company server without the need to synchronize.

Additional PCS Business Connection solutions are available for your company. For more details, visit businessconnection.sprintpcs.com.

PCS Vision FAQs

How will I know when my phone is ready for PCS Vision service?

Your User name (for example, bsmith001@sprintpcs.com) will display on your phone's display screen.

How do I sign-in for the first time?

You are automatically signed in to access PCS Vision services when you turn on your phone.

How do I know when my phone is connected to PCS Vision services?

Your phone automatically connects when PCS Vision Service is used or an incoming message arrives. Your phone will also display the  icon. (Connecting takes about 10-12 seconds.)

Can I make calls and use PCS Vision services at the same time?

You cannot use voice and PCS Vision services simultaneously. If you receive a call while PCS Vision service is active, the call will be forwarded to voicemail.

When is my data connection active?

Your connection is active when data is being transferred. Incoming calls go directly to voicemail. When active, the  (Sending) or  (Receiving) indicator flashes on your phone's display screen.

When is my data connection dormant?

If no data is received for 10 seconds, the connection goes dormant. When the connection is dormant, voice calls are allowed. (The connection may become active again quickly.) If no data is received for an extended period of time, the connection will terminate.

Can I sign out of data services?

You can sign out without turning off your phone, however you will not be able to browse the Web or use other PCS Vision services. While signed out, you can still place or receive phone calls, check voicemail, and use other voice services. You may sign in again at any time. To sign out, go to **Settings > Vision > Disable Vision** in your phone's menu.

PCS Voice CommandSM

 - ▶ **Creating Your Own Address Book**
 - ▶ **Making a Call with PCS Voice Command**
 - ▶ **Accessing Information Using PCS Voice Command**
-

With Sprint, the first wireless provider to offer innovative PCS Voice Command technology, reaching your friends, family, and co-workers has never been easier – especially when you're on the go. You can even listen to Web-based information such as news, stock quotes, weather, sports, and much more. Your voice does it all with PCS Voice Command.

Getting Started With PCS Voice Command

With PCS Voice Command:

- ▶ You can store all your contacts' phone numbers, so you can simply say the name of the person you want to call.
- ▶ There's no need to punch in a lot of numbers, memorize voicemail passwords, or try to dial while you're driving.
- ▶ You can call anyone in your address book – even if you don't remember their phone number.

It's Easy to Get Started

Just dial **✕ TALK** from your PCS Phone to activate the service and listen to brief instructions directly from your phone. There is a monthly charge for PCS Voice Command.

Creating Your Own Address Book

You can program up to 500 names into your personal address book with each name having up to five phone numbers. That's 2,500 phone numbers – and with the advanced technology of PCS Voice Command – you can have instant access to all of them.

There are four ways to update your address book:

- ▶ **Use Voice Recordings:** Simply dial **✕ TALK** and say, "Add name." You will then be asked to say the name and number you want to add to your personal address book. Your address book can store up to 20 voice recorded names at once.
- ▶ **On the Web:** Go to www.talk.sprintpcs.com and receive a fully functional Web-based address book to create and update your contacts.
- ▶ **Use an Existing Address Book:** Automatically merge address books from desktop software applications with Sprint Sync™ Services for no additional charge. Simply click on the "Click to synchronize" button within your PCS Voice Command personal address book at www.talk.sprintpcs.com.

- ▶ **Call Directory Assistance:** If you don't have a computer or Internet access handy, you can have PCS Directory Assistance look up phone numbers for you and automatically add them to your address book. Just say "Call operator" and we'll add two names and numbers to your address book for our standard directory assistance charge.

Making a Call With PCS Voice Command

1. Once you've signed up for PCS Voice Command and created your address book, all you do is press **✕ TALK**. You'll hear a tone followed by the prompt "Ready."
2. After the "Ready" prompt, simply say in a natural voice "Call" and the name of the person or the number you'd like to call. For example, you can say, "Call Jane Smith at work," "Call John Baker on the mobile phone," "Call 555-1234," or "Call Bob Miller."
3. Your request will be repeated and you will be asked to verify. Say "Yes" to call the number or person. Say "No" if you wish to cancel.
4. The number will automatically be dialed. Keep in mind that PCS Voice Command recognizes not only your voice, but any voice, so that others can experience the same convenience if they use your phone.

For more helpful hints on PCS Voice Command, including a list of recognized commands and an interactive tutorial, visit www.talk.sprintpcs.com.

Accessing Information Using PCS Voice Command

1. Press **✕ TALK**.
2. Say "Call the Web." (To access, listen to and respond to email, once email has been set up, say "Call My Email.")
3. Choose from a listing of information categories like news, weather, sports, and more.

Note: PCS Voice Command is not available while roaming off the enhanced Sprint Nationwide PCS Network.

Part of getting the most out of your PCS Phone is learning how the phone works and how to care for it. This section outlines performance and safety guidelines that help you understand the basic features of your phone's operation.

Getting the Most Out of Your Reception

Keeping Tabs on Signal Strength

The quality of each call you make or receive depends on the signal strength in your area. Your phone informs you of the current signal strength by displaying a number of bars next to the signal strength icon. The more bars displayed, the stronger the signal. If you're inside a building, being near a window may give you better reception.

Understanding the Power Save Feature

If your phone is unable to find a signal after 15 minutes of searching, a Power Save feature is automatically activated. If your phone is active, it periodically rechecks service availability or you can check it yourself by pressing any key. Anytime the Power Save feature is activated, a message displays on the screen. When a signal is found, your phone returns to standby mode.

Understanding How Your Phone Operates

Your phone is basically a radio transmitter and receiver. When it's turned on, it receives and transmits radiofrequency (RF) signals. When you use your phone, the system handling your call controls the power level. This power can range from 0.01μ watts to 0.2 watts in digital mode.

Knowing Radiofrequency Safety

The design of your PCS Phone complies with updated NCRP standards described below.

In 1991-92, the Institute of Electrical and Electronics Engineers (IEEE) and the American National Standards Institute (ANSI) joined in updating ANSI's 1982 standard for safety levels with respect to human exposure to RF signals. More than 120 scientists, engineers and physicians from universities, government health agencies and industries developed this updated standard after reviewing the available body of research. In 1993, the Federal Communications Commission (FCC) adopted this updated standard in a regulation. In August 1996, the FCC adopted a hybrid standard consisting of the existing ANSI/IEEE standard and the guidelines published by the National Council of Radiation Protection and Measurements (NCRP).

Maintaining Your Phone's Peak Performance

There are several simple guidelines to operating your phone properly and maintaining safe, satisfactory service.

- ▶ Hold the phone with the antenna raised, fully-extended, and over your shoulder.
- ▶ Try not to hold, bend, or twist the phone's antenna.
- ▶ Don't use the phone if the antenna is damaged.
- ▶ Speak directly into the mouthpiece.
- ▶ Avoid exposing your phone and accessories to rain or liquid spills. If your phone does get wet, immediately turn the power off and remove the battery. If it's inoperable, return it to a SprintStore or call PCS Customer Service Solutions™ for service.

Note: For the best care of your phone, only Sprint authorized personnel should service your phone and accessories. Faulty service may void the warranty.

Maintaining Safe Use of and Access to Your Phone

FAILURE TO FOLLOW THE INSTRUCTIONS OUTLINED MAY LEAD TO SERIOUS PERSONAL INJURY AND POSSIBLE PROPERTY DAMAGE

Using Your Phone While Driving

Talking on your phone while driving (or operating the phone without a hands-free device) is prohibited in some jurisdictions. Laws vary as to specific restrictions. Remember that safety always comes first.

When using your phone in the car:

- ▶ Get to know your phone and its features, such as speed dial and redial.
- ▶ When available, use a hands-free device.
- ▶ Position your phone within easy reach.
- ▶ Let the person you are speaking to know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions.
- ▶ Do not take notes or look up phone numbers while driving.

- ▶ Dial sensibly and assess the traffic; if possible, place calls when stationary or before pulling into traffic.
- ▶ Do not engage in stressful or emotional conversations that may divert your attention from the road.
- ▶ Dial **9 1 1 TALK** to report serious emergencies. It's free from your wireless phone.
- ▶ Use your phone to help others in emergencies.
- ▶ Call roadside assistance or a special non-emergency wireless number when necessary.

Tip: Purchase an optional hands-free car kit at your local Sprint Store. You may also call the PCS Accessory Hotline at 1-800-974-2221 or by dialing **# 2 2 2 2** on your PCS Phone.

Following Safety Guidelines

To operate your phone safely and efficiently, always follow any special regulations in a given area. Turn your phone off in areas where use is forbidden or when it may cause interference or danger.

Using Your Phone Near Other Electronic Devices

Most modern electronic equipment is shielded from radiofrequency (RF) signals. However, RF signals from wireless phones may affect inadequately shielded electronic equipment.

RF signals may affect improperly installed or inadequately shielded electronic operating systems and/or entertainment systems in motor vehicles. Check with the manufacturer or their representative to determine if these systems are adequately shielded from external RF signals. Also check with the manufacturer regarding any equipment that has been added to your vehicle.

Consult the manufacturer of any personal medical devices, such as pacemakers and hearing aids, to determine if they are adequately shielded from external RF signals.

Note: Always turn off the phone in health care facilities and request permission before using the phone near medical equipment.

Turning Off Your Phone Before Flying

Turn off your phone before boarding any aircraft. To prevent possible interference with aircraft systems, the U.S. Federal Aviation Administration (FAA) regulations require you to have permission from a crew member to use your phone while the plane is on the ground. To prevent any risk of interference, FCC regulations prohibit using your phone while the plane is in the air.

Turning Off Your Phone in Dangerous Areas

To avoid interfering with blasting operations, turn off your phone when in a blasting area or in other areas with signs indicating that two-way radios should be turned off. Construction crews often use remote-control RF devices to set off explosives.

Turn off your phone when you're in any area that has a potentially explosive atmosphere. Although it's rare, your phone or its accessories could generate sparks. Sparks could cause an explosion or a fire resulting in bodily injury or even death. These areas are often, but not always, clearly marked. They include:

- ▶ Fueling areas such as gas stations.
- ▶ Below deck on boats.
- ▶ Fuel or chemical transfer or storage facilities.
- ▶ Areas where the air contains chemicals or particles such as grain, dust or metal powders.
- ▶ Any other area where you would normally be advised to turn off your vehicle's engine.

Note: Never transport or store flammable gas, liquid, or explosives in the compartment of your vehicle that contains your phone or accessories.

Restricting Children's Access to your Phone

Your PCS Phone is not a toy. Children should not be allowed to play with it because they could hurt themselves and others, damage the phone or make calls that increase your phone bill.

Caring for the Battery

Protecting Your Battery

The guidelines listed below help you get the most out of your battery's performance.

- ▶ Use only Sprint-approved batteries and desktop chargers. These chargers are designed to maximize battery life. Using other batteries or chargers voids your warranty and may cause damage.
- ▶ In order to avoid damage, charge the battery only in temperatures that range from 32° F to 113° F (0° C to 45° C).
- ▶ Don't use the battery charger in direct sunlight or in high humidity areas, such as the bathroom.
- ▶ Never dispose of the battery by incineration.
- ▶ Keep the metal contacts on top of the battery clean.
- ▶ Don't attempt to disassemble or short-circuit the battery.
- ▶ The battery may need recharging if it has not been used for a long period of time.
- ▶ It's best to replace the battery when it no longer provides acceptable performance. It can be recharged hundreds of times before it needs replacing.
- ▶ Don't store the battery in high temperature areas for long periods of time. It's best to follow these storage rules:
 - Less than one month:
4° F to 140° F (-20° C to 60° C)
 - More than one month:
4° F to 113° F (-20° C to 45° C)

Disposal of Lithium Ion (LiIon) Batteries

For safe disposal options of your LiIon batteries, contact your nearest Sprint-authorized service center.

Special Note: Be sure to dispose of your battery properly. In some areas, the disposal of batteries in household or business trash may be prohibited.

Note: For safety, do not handle a damaged or leaking LiIon battery.

Acknowledging Special Precautions and the FCC Notice

FCC Notice

The phone may cause TV or radio interference if used in close proximity to receiving equipment. The FCC can require you to stop using the phone if such interference cannot be eliminated.

Vehicles using liquefied petroleum gas (such as propane or butane) must comply with the National Fire Protection Standard (NFPA-58). For a copy of this standard, contact the National Fire Protection Association, One Batterymarch Park, Quincy, MA 02269, Attn: Publication Sales Division.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ Reorient or relocate the receiving antenna.
- ▶ Increase the separation between the equipment and receiver.
- ▶ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ Consult the dealer or an experienced radio/TV technician for help.

Cautions

Any changes or modifications to your phone not expressly approved in this document could void your warranty for this equipment, and void your authority to operate this equipment. Only use approved batteries, antennas and chargers. The use of any unauthorized accessories may be dangerous and void the phone warranty if said accessories cause damage or a defect to the phone.

Although your phone is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending or sitting on it.

Body-Worn Operation

To maintain compliance with FCC RF exposure requirements, Body-worn operations are restricted to belt-clips, holsters or similar accessories that have no metallic component in the assembly and that provide at least 0.7 inch (1.8 cm) separation between the device, including its antenna whether extended or retracted, and the user's body. Use of non-Sprint approved accessories may violate FCC RF exposure requirements.

For more information about RF exposure, please visit the FCC website at www.fcc.gov.

Specific Absorption Rates (SAR) for Wireless Phones

The SAR is a value that corresponds to the relative amount of RF energy absorbed in the head of a user of a wireless handset.

The SAR value of a phone is the result of an extensive testing, measuring and calculation process. It does not represent how much RF the phone emits. All phone models are tested at their highest value in strict laboratory settings. But when in operation, the SAR of a phone can be substantially less than the level reported to the FCC. This is because of a variety of factors including its proximity to a base station antenna, phone design and other factors. What is important to remember is that each phone meets strict federal guidelines. Variations in SARs do not represent a variation in safety.

All phones must meet the federal standard, which incorporates a substantial margin of safety. As stated above, variations in SAR values between different model phones do not mean variations in safety. SAR values at or below the federal standard of 1.6 W/kg are considered safe for use by the public.

The highest reported SAR values of the SCP-8100 are:

AMPS mode (Part 22) - Head: 1.42W/kg; Body-worn: 0.79W/kg
CDMA mode (Part 22) - Head: 1.37W/kg; Body-worn: 0.76W/kg
PCS CDMA mode (Part 24) - Head: 1.34W/kg; Body-worn: 1.33W/kg

FCC Radiofrequency Emission

This phone meets the FCC Radiofrequency Emission Guidelines. FCC ID number: AEZSCP-81H. More information on the phone's SAR can be found from the following FCC Web site:
<http://www.fcc.gov/oet/fccid>.

Owner's Record

The model number, regulatory number and serial number are located on a nameplate inside the battery compartment. Record the serial number in the space provided below. This will be helpful if you need to contact us about your phone in the future.

Manufacturer's Warranty

Customer Limited Warranty

SPRINT SPECTRUM, L.P., (Sprint) offers you a limited warranty that the enclosed subscriber unit (Product), including accessories in the product package, will be free from defects in material or workmanship as follows:
SUBSCRIBER UNIT:

A. SPRINT ONE (1) YEAR LIMITED WARRANTY: For a period of one (1) year from the date of purchase, Sprint will, at its option, either pay the parts and labor charges to any authorized PCS® Phone service facility to repair or replace a defective product (with new or rebuilt parts/replacements). After this one (1) year period, you must pay all parts, shipping and labor charges.

B. REPAIRS: For a period equal to the remainder of the original limited warranty period on an original Product or for the 180 days after the date of repair/replacement, whichever is longer, Sprint will repair or replace (with new or rebuilt replacement) defective parts or Product used in the repair or replacement of the original Product under this Limited Warranty.

Proof of purchase in the form of a bill of sale or receipted invoice warranty repair document which is evidence that the Product is within the warranty period must be presented to obtain warranty service. This limited warranty is not transferable to any third party, including but not limited to any subsequent purchaser or owner of the Products.

Transfer or resale of a Product will automatically terminate warranty coverage with respect to the Products.

This limited warranty does not cover and is void with respect to the following: (i) Products which have been improperly installed, repaired, maintained or modified (including the antenna); (ii) Products which have been subjected to misuse (including Products used in conjunction with hardware electrically or mechanically incompatible or used with accessories not supplied by Sprint), abuse accident, physical damage, abnormal operation, improper handling and storage, neglect, exposure to fire, water or excessive moisture or dampness or extreme changes in climate or temperature; (iii) Products operated outside published maximum ratings; (iv) cosmetic damage; (v) Products on which warranty stickers or Product serial numbers have been removed, altered, or rendered illegible; (vi) customer instruction; (vii) cost of installation, removal or reinstallation; (viii) signal reception problems (unless caused by defect in material and workmanship); (ix) damage as the result of fire, flood, acts of God or other acts which are not the fault of Sprint and which the Product is not specified to tolerate, including damage caused by mishandling and blown fuses; (x) consumables (such as fuses); or (xi) any Products which have been opened, repaired, modified or altered by anyone other than Sprint or a Sprint authorized service center.

This warranty does not cover customer education, instruction, installation, set up adjustments, or signal reception problems.

This warranty is valid only in the United States.

USE WITH ACCESSORIES NOT SUPPLIED BY SPRINT OR OTHERWISE NOT EXPRESSLY AUTHORIZED BY SPRINT MAY BE DANGEROUS.

SPRINT SPECIFICALLY DISCLAIMS LIABILITY, AND SHALL HAVE NO OBLIGATION TO PROVIDE TO BUYER ANY OTHER REMEDY, FOR ANY AND ALL DIRECT, INDIRECT, SPECIAL, GENERAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO LOSS OF PROFITS, LOST SALES, LOSS OF USE OF THE PRODUCT, OR ANTICIPATED PROFITS ARISING OUT OF USE OF OR INABILITY TO USE ANY PRODUCT (FOR EXAMPLE, WASTED AIRTIME CHARGES DUE TO THE MALFUNCTION OF A PRODUCT), DAMAGE DUE TO IMPROPER OPERATION OR MAINTENANCE, INSTALLATION, CONNECTION TO IMPROPER VOLTAGE SUPPLY. OR ATTEMPTED REPAIR OF THE PRODUCT BY ANYONE OTHER THAN A FACILITY AUTHORIZED BY SPRINT. THIS WARRANTY DOES NOT COVER PRODUCTS SOLD AS IS OR WITH ALL FAULTS, OR CONSUMABLES, (SUCH AS FUSES). THIS WARRANTY DOES NOT APPLY WHEN THE MALFUNCTION RESULTS FROM USE OF THE PRODUCT IN CONJUNCTION WITH ACCESSORIES, PRODUCTS OR ANCILLARY OR PERIPHERAL EQUIPMENT NOT SUPPLIED BY OR EXPRESSLY AUTHORIZED FOR USE BY SPRINT, AND WHERE IT IS DETERMINED BY SPRINT THAT THERE IS NO FAULT WITH THE PRODUCT ITSELF.

REPAIR OR REPLACEMENT, AS PROVIDED UNDER THE WARRANTY, IS YOUR SOLE AND EXCLUSIVE REMEDY FOR BREACH OF THE LIMITED WARRANTY. TO THE EXTENT PERMITTED BY APPLICABLE LAW,

SPRINT MAKES NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, WITH RESPECT TO THE PRODUCTS FOR A PARTICULAR PURPOSE OR AGAINST INFRINGEMENT WITHIN THE TIME PERIOD SPECIFIED IN THE LIMITED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ON THIS PRODUCT IS LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY.

Some States do not allow the exclusion or limitation of incidental or consequential damages, or allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.

This limited warranty gives you specific legal rights, and you may have other rights which vary from State to State.
