1. Your Phone

1.1 For your safety

Switch off in aircraft

Mobile phone can cause interference.
Using them on aircraft is both illegal and dangerous.

Road safety comes first

Do not use hand-held phone while driving ;
park vehicle first. Remember that some countries,
it is illegal to use hand-held phone while driving.

Use only in the normal position.

Don't touch the antenna unnecessarily.

Only qualified personnel may install

or repair phone equipment. (KEY IMAGE)

Use only approved accessories and batteries.

Do not connect incompatible products.

Your phone is not water-resistant.

Please keep it dry.

1.2 Unpacking

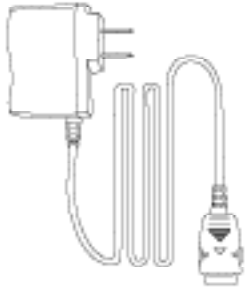
Your package contains the following items:

Mobile Phone

Slim & Standard Battery

Desktop Charger

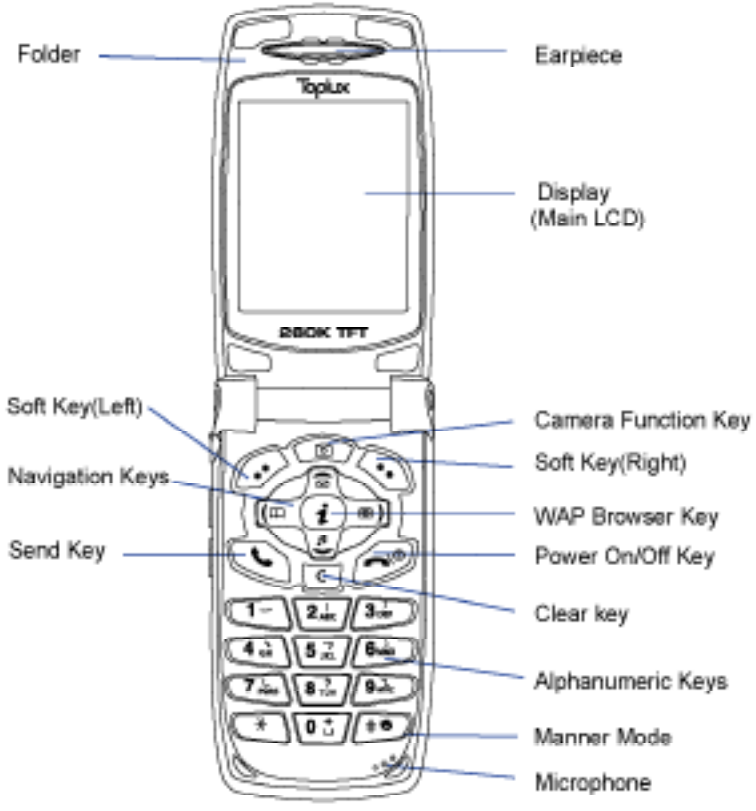
Handstrap

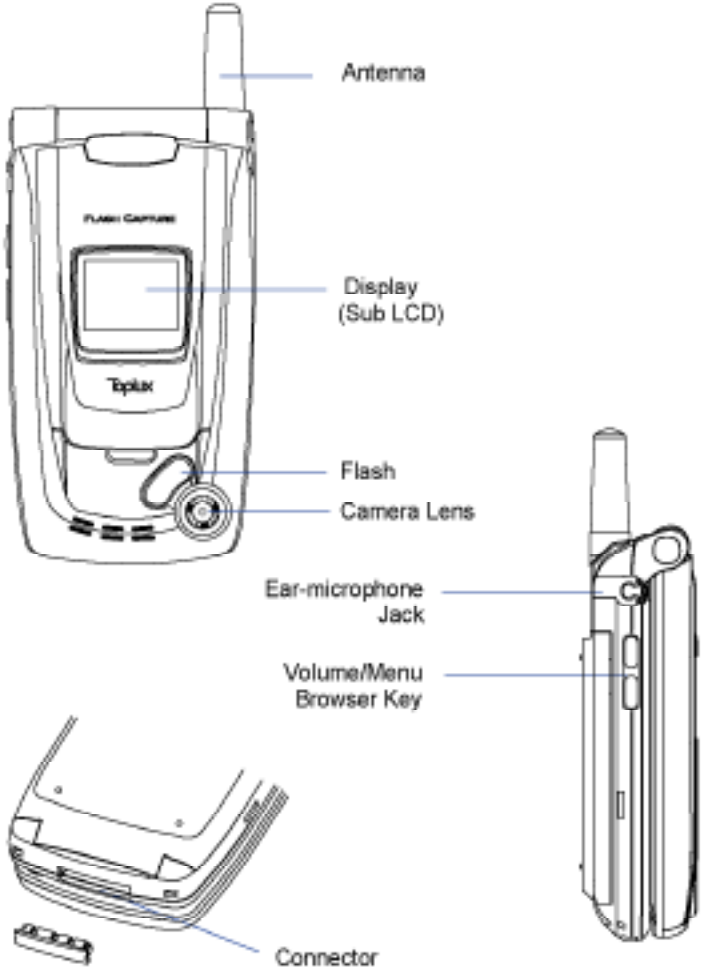


Travel Adapter

*: The appearance of the travel adapter varies depending on country.

1.3 Phone Layout





1.4 Icon description

Show the received signal strength. The greater the number of bars, the stronger the signal.

Appear when a call is in progress.

Appear when a new text message is received.

Appear when you set an alarm.

Appear when manner mode is active.

Appear when you connect internet.

Show the level of your battery.

2. Getting Started

2.1 Battery

How to insert the battery

1. Place the battery back to match the tabs on it to the holes at the bottom the phone.
2. Press the battery up towards the catch until it locks into place or you hear a "click" sound.

How to remove the battery

1. Press and hold down the catch above the battery on the back of the phone.
2. Lift up the battery.

2.2 SIM card

How to insert the SIM card

1. Remove the battery from the mobile phone.
2. Insert a SIM Card into the SIM Card holder, ensuring that the cut corner faces top right and the gold contacts of the card face into the phone.

How to remove the SIM card

1. Remove the battery from the mobile phone.
2. Push the SIM card up to the right.

2.3 Power On / Off

Power On

1. Open the folder
2. Hold down [END] key until the phone switches on.

Power Off

1. When you wish to switch the phone off, hold down [END] key until the power-off image is dispalyed.

3. SIM Card Services

In addition to the functions available in the phone, your SIM card is capable of providing additional services that you can access through Menu 0, SIM Services. Menu 0 will be shown only if your SIM card supports it. The items and contents of the menu depend entirely on the SIM card.

3.1 PIN (Personal Identification Number) - 4 to 8 digits

PIN code, supplied with your SIM card, is used to safeguard your Phone/SIM card against unauthorized use. If wrong PIN code is entered three times in a row, the phone will request for the PUK code.

3.2 PIN2 (Personal Identification Number 2) - 4 to 8 digits

PIN2 code, supplied with certain SIM cards, is used to access specific functions of your SIM card. For example, PIN2 code can be used to set Fixed Dialing Number. These functions are only available if supported by the SIM card. If wrong PIN2 code is entered three times in a row, the phone will request for the PUK2 code.

3.3 PUK (PIN Unblocking Key) - 8 digits

PUK code that may have been supplied with your SIM card is required to change a blocked PIN code.If wrong PUK code is entered ten times in a row, the SIM will be permanently blocked. Contact your service provider for a new card.

3.4 PUK2 (PIN Unblocking Key 2) - 8 digits

PUK2 code that may have been supplied with certain SIM cards is required to change a blocked PIN2 code.If wrong PUK2 code is entered ten times in a row, the SIM will be permanently blocked. Contact your service provider for a new card.

4. Call Functions

4.1 Making calls

Local call

1. When the idle screen is displayed, enter the desired phone number including the area code.

2. Press [SEND] key.

Note: If you enter wrong number, Press [C] [Clear] to remove it.

International call

1. Hold down [0+] key until a " + "sign, the international prefix appears.

2. Enter the country code, the area code (without any leading zero), and the phone number.

3. Press [SEND] key.

Ending a call

To finish a call, simply press [END] key.

Last number redial

Numbers dialed and caller identified numbers received or missed are stored by the phone.

1. From the idle screen, press [SEND] key. Once to access the list of last-dialed numbers.

2. Use the [up] and [down] keys to reach the desired number or name.

Accessing the voice mailbox

1. From the idle screen, press and hold [1] key.
2. Enter the Voice Mailbox number if the phone requests for it, then press [Ok]

Note: This number is provided by your service provider.

Speed dialing

Press and hold a numeric key (from [2] to [9]) that the entry number is assigned to form the speed dial list. By doing so, number assigned to the key will be automatically dialed.

Making a call using Phonebook

The phone stores numbers dialed and received. Frequently dialed numbers can be also stored with assigned names in the SIM card or the phone's memory, referred to as Phonebook. Then simply select the desired name to recall the associated number.

- Refer to the Phonebook section.

Entering a "Pause" in a dial string

A **pause** character can be entered into a dial string by pressing and holding down [★] key until a **'p'** sign appears.

4.2 Answering a call

1. Open the phone or press [SEND] key.
2. Press [END] key to finish the call.

Note: To reject an incoming call, press [END] key or close the phone. If the **Forward When Busy** function is activated, to your voice mailbox for example, rejecting an incoming call will simultaneously forward the call.

4.3 Emergency call

Emergency calls may not be available on all mobile phone networks or when certain network services and/or phone features are in use. Check with the local cellular service provider.

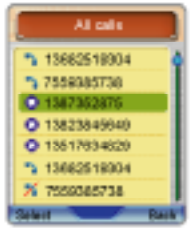
1. If the phone is not on. Turn it on.

2. Key in the emergency number for your region.
   (Emergency numbers vary by location)

3. Press [SEND] key.

4.4 View all call logs

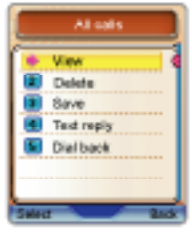
In idle state, press [SEND] key.



View

To view the entire call log :

1. Select the number or name
   (if have number or name),
   and press [Select]



2. Select **View** from the following menu list
   and press [Select]

Delete

To remove an entry from the call log :

1. Select number or name
   (if the call log has number or name),
   and press [Select]

2. Select **Delete** from the following menu list,
   and press [Select]

3. Press [Ok] or [Cancel] .

Save

1. To save an entry from the call log :
Select number or name
(if the call log has number or name),
and press [Select]

2. Select **Save** from the following menu list,
   and press [Select]

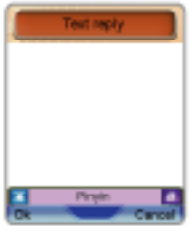
- Refer to the Phonebook Add new section (menu 5-2)

Text reply (Sending a message)

To send a reply message from the call log:

1. Select number or name,
   (if the call log has number or name)
   and press [Select]

2. Select **Text reply** from the following
   menu list, and press [Ok]



- Refer to the Write message section
  (menu 2-2)

Dial back

To dial a sent call from the call log :

1. Select number or name,
   (if the call log has number or name)
   and press [Select]

2. Select **Dial back** from the following
   menu list, and press [Select]

NAVI-Center key	After the user enters in a Pinyin spelling, matched Pinyin pronunciations are displayed in the candidate window. At this time, the phone will display the matching Chinese character when the user has pressed [Select]. The user may then select the highlighted Chinese character by pressing [Select].

NAVI-LEFT key	Move the cursor left by a single character in the editing field.
NAVI-RIGHT key	Move the cursor right by a single character in the editing field.
NAVI-UP key	Move the cursor up by a single character in the editing field.
NAVI-DOWN key	Move the cursor down by a single character in the editing field.
END key	Clear the entire string entered in the editing area, and then revert back to the idle screen.
0 key	Space
1 key	Smart punctuation (, . ? !)
2 key	Pinyin starting from abc
3 key	Pinyin starting from def
4 key	Pinyin starting from ghi
5 key	Pinyin starting from jkl
6 key	Pinyin starting from mno
7 key	Pinyin starting from pqrs
8 key	Pinyin starting from tuv
9 key	Pinyin starting from wxyz
# key	Pinyin→Stroke→English(ABC)→English(abc)→Number→Symbolic
* key	Pinyin←Stroke←English(ABC)←English(abc)←Number←Symbolic

Sample : " 我 快 到 了 " (Wo Kuai Dao Le)

我 : [9] key → [6] key → 'wo' select → [Select]

快 : [5] key → [8] key → [2] key → [4] key → 'kuai' select → NAVI Right Key(2th select)

到 : NAVI Right Key(4th select)

了 : NAVI-Down Key → NAVI-Right Key(2th select)

7. USING THE MENU

7.1 Call log (Menu 1)

Your mobile phone automatically stores the following numbers and name. (if have number or name) in memory:

Missed / Received / Dialed

The names and/or numbers are displayed with the date and time at which the call was made.

Missed calls (Menu 1-1)

Displays numbers and/or names (If have number or name) of the last 10 missed calls on the screen. Confirm the numbers of missed calls and delete, save in Phonebook, send a message, or dial.

View

To view the missed call log :

1. Select the number or name (if have number or name) and press [Select].

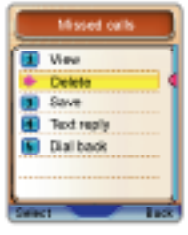
2. Select **View** from the following menu list, and press [Select].

Delete

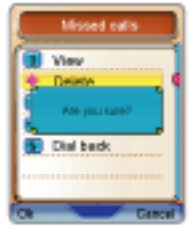
To remove a missed call from the log :

1. Select the number or name, (if have number or name) and press [Select].

2. Select **Delete** from the following menu list, and press [Select].



3. Press [Ok] or [Cancel] to confirm.

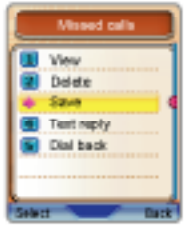


Save

To save a missed call number to Phonebook :

1. Select the number or name, (if have number or name) and press [Select].

2. Select **Save** from the following menu list, and press [Select].

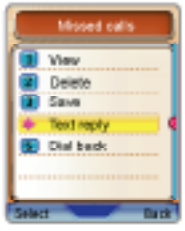


- Refer to Phonebook Add new (Menu 5-2)

Text reply (Sending a message)

To send a message to a number from the missed call log:

1. Select the number or name,
   (if have number or name)
   and press [Select].



2. Select **Text reply** from the following menu list,
   and press [Select].

- Refer to the Write Message section (Menu 2-2)

Dial back

To dial back to a number from the missed call log:

1. Select the number or name,
   (if have number or name)
   and press [Select].

2. Select **Dial back** from the following menu list,
   and press [Select].

Received calls (Menu 1-2)

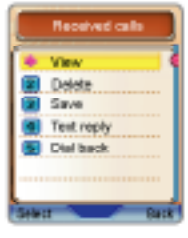
Displays numbers and/or names (If have number or name) of the last 10 received calls on the screen. Confirm the numbers of received calls and delete, save in Phonebook, send message, or dial.

View

To view the received call log :

1. Select the number or name,
   (if have number or name)
   and press [Select].

2. Select **View** from the following menu list,
   and press [Select].

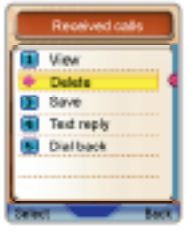


Delete

To remove a received number from the log :

1. Select the number or name,
   (if have number or name)
   and press [Select].

2. Select **Delete** from the following menu list,
   and press [Select].



3. Press [Ok] or [Cancel] to confirm.

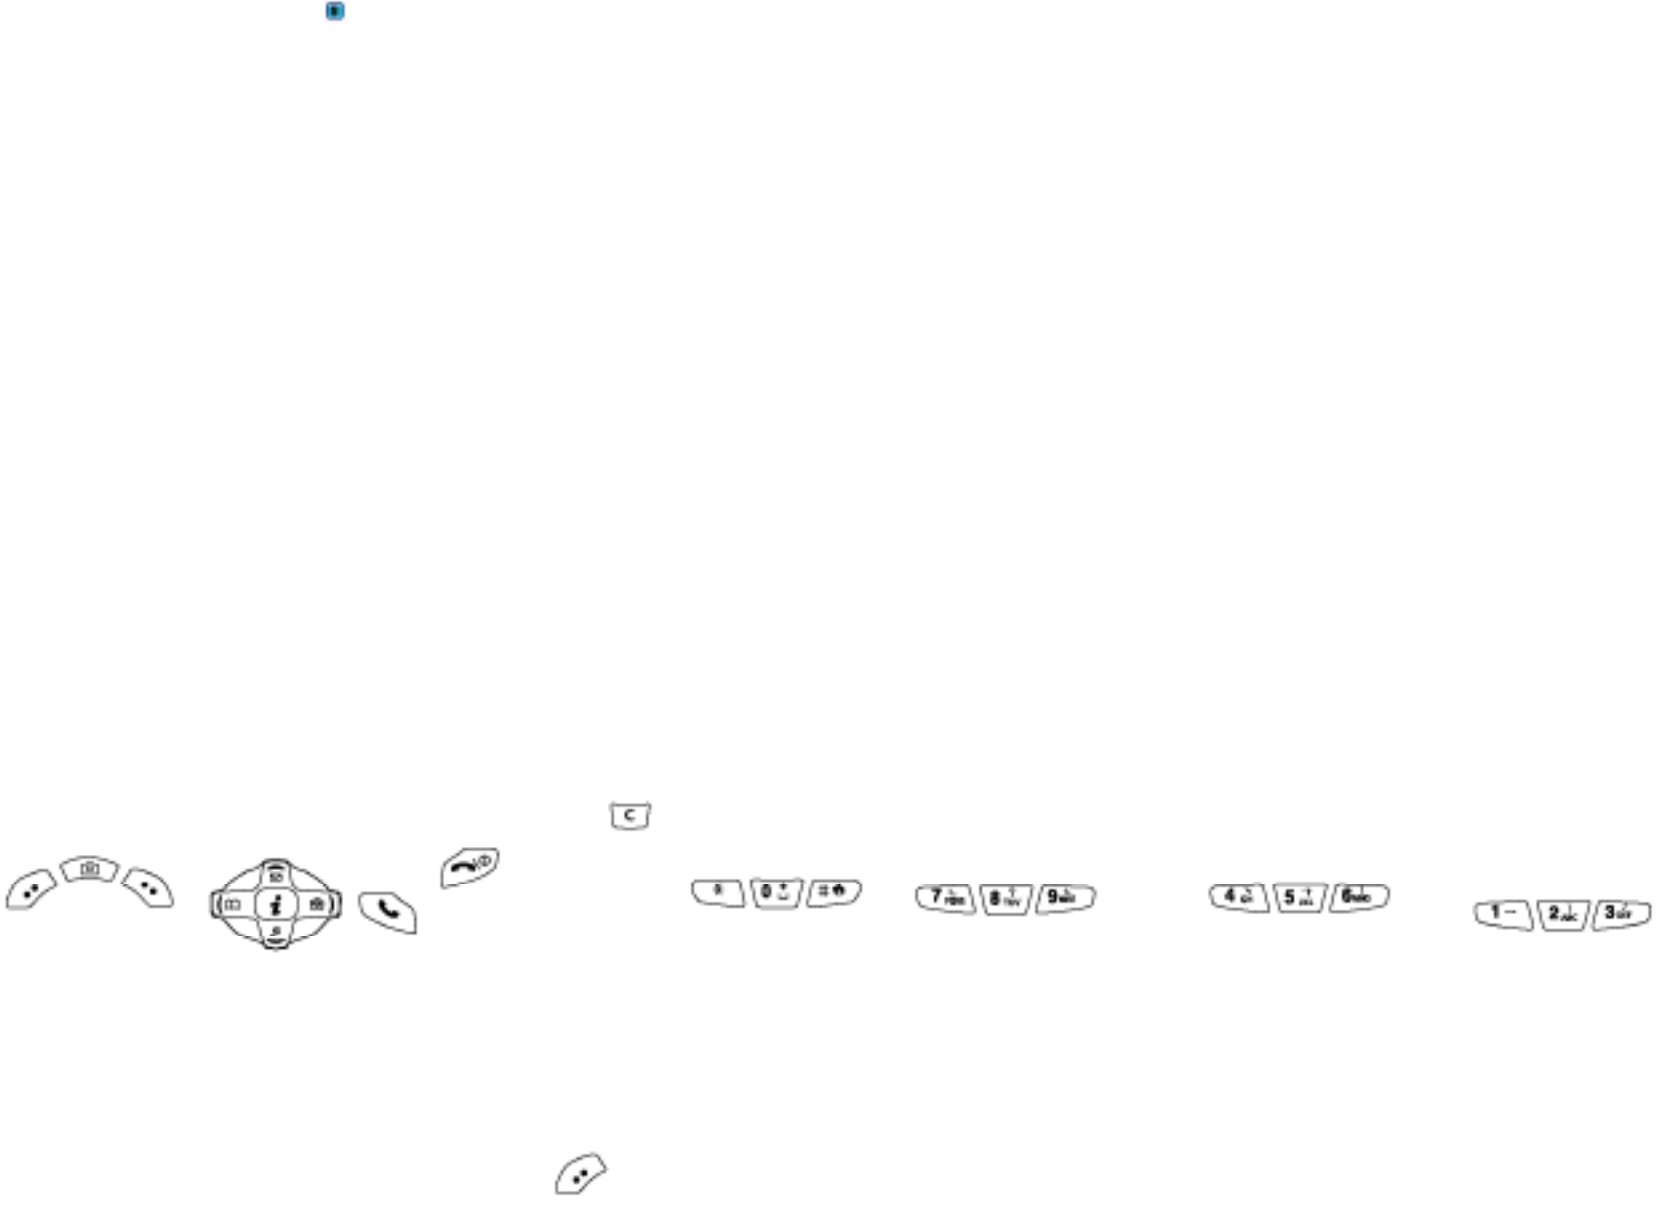
Save

To save a received
number to Phonebook :

1. Select the number or name,
   (if have number or name)
   and press [Select].

2. Select **Save** from the following menu list,
   and press [Select].

- Refer to Phonebook Add new (Menu 5-2)



Text reply (Sending a Message)

To send a message to a number from the received call log:

1. Select the number or name, (if have number or name) and press [Select].

2. Select **Text reply** from the following menu list, and press [Select].

- Refer to the Write Message section (menu 2-2)

Dial back

To dial back to a number from the received call log:

1. Select the number or name, (if have number or name) and press [Select].

2. Select the **Dial back** to following menu list, and press [Select].

Dialed calls (Menu 1-3)

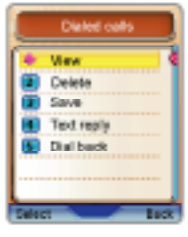
Displays numbers and/or names (If have number or name) of the last 10 dialed calls on the screen. Confirm the numbers of dialed calls and delete, save in Phonebook, send message, or dial.

View

To view the dialed call log :

1. Select the number or name, (if have number or name) and press [Select].

2. Select **View** from the following menu list, and press [Select].



Delete

To remove a dialed number from the log :

1. Select the number or name,
   (if have number or name)
   and press [Select].

2. Select **Delete** from the following menu list,
   and press [Select].

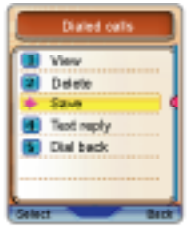
3. Press [Ok] or [Cancel].

Save

To save a dialed number to Phonebook:

1. Select the number or name,
   (if have number or name)
   and press [Select].

2. Select **Save** from the following menu list,
   and press [Select].

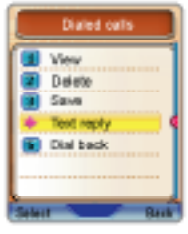


- Refer to Phonebook Add new (menu 5-2)

Text reply (Sending a Message)

To send a message to a number
from the dialed call log :

1. Select the number or name,
   (if have number or name)
   and press [Select].



2. Select **Text reply** from the following
   menu list, and press [Select].

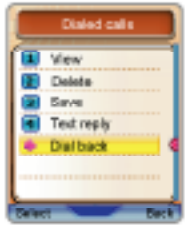
- Refer to the Write Message section (menu 2-2)

Dial back

To dial back to a number from the dialed call log:

1. Select the number or name, (if have number or name) and press [Select].

2. Select **Dial back** from the following menu list, and press [Select].



Delete call log (Menu 1- 4)

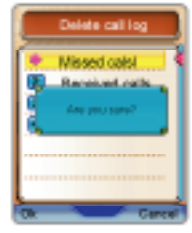
Deletes all missed call log, all received call log, all dialed call log, or all call log.

Missed calls (Menu 4-1)

To clear the entire missed call log:

1. Select **Missed calls** menu, and press [Select].

2. Press [Ok] or [Cancel] to confirm.



Received calls

To clear the entire received call log :

1. Select **Received calls** menu, and press [Select].

2. Press [Ok] or [Cancel] to confirm.

Dialed calls

To clear the entire dialed call log :

1. Select **Dialed calls** menu,
   and press [Select]

2. Press [Ok] or [Cancel] to confirm.

All calls

To clear the entire call log :

1. Select the **All calls** Menu,
   and press [Select].

2. Press [Ok] or [Cancel] to confirm.

Call Duration (Menu 1- 5)

Displays the last call, total call, total dialed call,
and total received call times. Resets the call duration.

Last call (Menu 1-5-1)

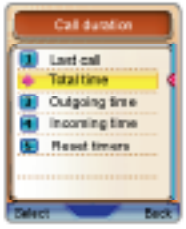
To view the last call time :

1. Select **Last call** menu
   and press [Select].

Total Time (Menu 1-5-2)

To view the total call time :

1. Select the **Total time** menu, and press [Select].



Outgoing time

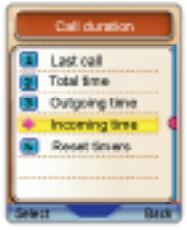
To view the dialed call time :

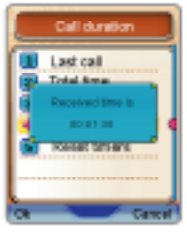
1. Select the **Outgoing time** menu, and press [Select].

Incoming Time (Menu 1-5-4)

To view the received call time :

1. Select the **Incoming time** menu, and press [Select].

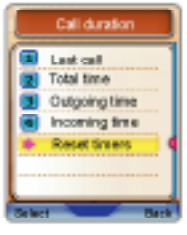




Reset timers

To reset call timers :

1. Select the **Reset timers** menu, and press [Select].



2. Enter the password (1234 by default). Press [Ok] or [Cancel] to confirm.

7.2 Message (Menu 2)

Read Message (Menu 2-1)

Inbox Message (Menu 2-1-1)

The number on the right side of the Inbox indicates the total amount of messages. With this menu, new text messages can be viewed or read. The name and/or number of the sender are also displayed on the list.

Pressing [Select] will display message contents with the sender's number and/or name (if stored in Phonebook), along with the arrival time.

While reading a message, the following options can be selected by pressing [Select].

Delete: Deletes the viewed message.
Text reply: Send a reply message to the sender.
Dial back: Calls the sender.
Extract number: Saves the sender's number to Phonebook.
Forward: Forwards the viewed message to a third party.
Exit: Modifies the viewed message.

Outbox message (Menu 2-1-2)

The number on the right side of the Outbox indicates the amount of messages. With this menu, saved text messages can be viewed. Destination name or number is displayed on the list. Pressing [Select] will display message contents with the destination name and number (if stored in Phonebook).

While reading a message, the following options can be selected by pressing [Select].

Delete : Deletes the viewed message.
Forward : Forwards the viewed message to a third party.
